THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the ENTITY STATUS shown above. If the ENTITY STATUS is shown as SMALL or MICRO, verify whether entitlement to that entity status still applies. If the ENTITY STATUS is the same as shown above, pay the TOTAL FEE(S) DUE shown above. If the ENTITY STATUS is changed from that shown above, on PART B - FEE(S) TRANSMITTAL, complete section number 5 titled "Change in Entity Status (from status indicated above)". If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Maintenance fees are due in utility patents issuing on applications filed on or after Dec. 12, 1980. It is patentee's responsibility to ensure timely payment of maintenance fees when due. More information is available at www.uspto.gov/PatentMaintenanceFees.

## OMB Clearance and PRA Burden Statement for PTOL-85 Part B

The Paperwork Reduction Act (PRA) of 1995 requires Federal agencies to obtain Office of Management and Budget approval before requesting most types of information from the public. When OMB approves an agency request to collect information from the public, OMB (i) provides a valid OMB Control Number and expiration date for the agency to display on the instrument that will be used to collect the information and (ii) requires the agency to inform the public about the OMB Control Number's legal significance in accordance with 5 CFR 1320.5(b).

The information collected by PTOL-85 Part B is required by 37 CFR 1.311. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 30 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, Virginia 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450. Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

Primary Examiner, Art Unit 2459

***Notice of Pre-AIA or AIA Status***

The present application is being examined under the pre-AIA first to invent provisions.

***Remarks***

Applicant's amendment dated October 18, 2018 responding to September 5, 2018 Office Action provided in the rejection of claims 1-29. **Claims 1-29** remain pending in the application and which have been fully considered by the Examiner.

***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

22 (currently amended). The method according to claim ~~22~~ 21, wherein the determining is based on the received HTTP header according to, or based on, IETF RFC 2616.

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

**Claims 1-29** are considered allowable since when reading the claims in light of the specification, as per MPEP §2111.01 or *Toro Co. v. White Consolidated Industries Inc.*, 199 F.3d 1295, 1301,53 USPQ2d 1065, 1069 (Fed. Cir. 1999), none of the references of record alone

or in combination disclose or suggest the combination of limitations specified in **independent claim 1**.

For example, the independent claims contain limitations, *receiving, from the second server, the first content identifier; sending to the first server, which stores a first content identified by a first content identifier, over the Internet, a HTTP request that comprises the first content identifier; receiving, the first content from the first server over the Internet in response to the sending of the first content identifier; and sending, the first content by the first client device to the second server, in response to the receiving of the first content identifier*. Therefore, the Examiner agrees that the limitations of the independent claims, within its environment, is allowable subject matter over the prior art, in light of the specification and in view of the Applicant's arguments.

Because **claims 2-29** depend directly or indirectly on claim 1, these claims are considered allowable for at least the same reasons noted above with respect to **claim 1**.

To the extent that these features are not found in the prior art cited by Examiner, the present case is held allowable over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

## Authorization or Opt-Out of Authorization to Permit Access:

When this Application Data Sheet is properly signed and filed with the application, applicant has provided written authority to permit a participating foreign intellectual property (IP) office access to the instant application-as-filed (see paragraph A in subsection 1 below) and the European Patent Office (EPO) access to any search results from the instant application (see paragraph B in subsection 1 below).

Should applicant choose not to provide an authorization identified in subsection 1 below, applicant **must opt-out** of the authorization by checking the corresponding box A or B or both in subsection 2 below.

**NOTE:** This section of the Application Data Sheet is **ONLY** reviewed and processed with the **INITIAL** filing of an application. After the initial filing of an application, an Application Data Sheet cannot be used to provide or rescind authorization for access by a foreign IP office(s). Instead, Form PTO/SB/39 or PTO/SB/69 must be used as appropriate.

### 1. Authorization to Permit Access by a Foreign Intellectual Property Office(s)

**A. Priority Document Exchange (PDX)** - Unless box A in subsection 2 (opt-out of authorization) is checked, the undersigned hereby **grants the USPTO authority** to provide the European Patent Office (EPO), the Japan Patent Office (JPO), the Korean Intellectual Property Office (KIPO), the State Intellectual Property Office of the People's Republic of China (SIPO), the World Intellectual Property Organization (WIPO), and any other foreign intellectual property office participating with the USPTO in a bilateral or multilateral priority document exchange agreement in which a foreign application claiming priority to the instant patent application is filed, access to: (1) the instant patent application-as-filed and its related bibliographic data, (2) any foreign or domestic application to which priority or benefit is claimed by the instant application and its related bibliographic data, and (3) the date of filing of this Authorization. See 37 CFR 1.14(h)(1).

**B. Search Results from U.S. Application to EPO** - Unless box B in subsection 2 (opt-out of authorization) is checked, the undersigned hereby **grants the USPTO authority** to provide the EPO access to the bibliographic data and search results from the instant patent application when a European patent application claiming priority to the instant patent application is filed. See 37 CFR 1.14(h)(2).

The applicant is reminded that the EPO's Rule 141(1) EPC (European Patent Convention) requires applicants to submit a copy of search results from the instant application without delay in a European patent application that claims priority to the instant application.

### 2. Opt-Out of Authorizations to Permit Access by a Foreign Intellectual Property Office(s)

A. Applicant **DOES NOT** authorize the USPTO to permit a participating foreign IP office access to the instant application-as-filed. If this box is checked, the USPTO will not be providing a participating foreign IP office with any documents and information identified in subsection 1A above.

B. Applicant **DOES NOT** authorize the USPTO to transmit to the EPO any search results from the instant patent application. If this box is checked, the USPTO will not be providing the EPO with search results from the instant application.

**NOTE:** Once the application has published or is otherwise publicly available, the USPTO may provide access to the application in accordance with 37 CFR 1.14.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it contains a valid OMB control number.

### **PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES**

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4258).

**LICENSE FOR FOREIGN FILING UNDER**  
**Title 35, United States Code, Section 184**  
**Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

DECISION  
Denying Institution of *Inter Partes* Review  
35 U.S.C. § 314

## I. INTRODUCTION

Petitioner (collectively, Code200, UAB; Teso LT, UAB; Metacluster LT, UAB; and Oxysales, UAB) filed a Petition (Paper 5, “Pet.”) requesting an *inter partes* review of claims 1, 2, 14, 15, 17–19, 21, 22, and 24–29 (“the challenged claims”) of U.S. Patent No. 10, 257,319 B2 (Ex. 1001, “the ’319 patent”). Patent Owner, Luminati Networks, LTD, filed a Corrected Preliminary Response (Paper 16, “Prelim. Resp.”).<sup>1</sup>

The Board has authority to determine whether to institute an *inter partes* review. *See* 35 U.S.C. § 314; 37 C.F.R. § 42.4(a). Under 35 U.S.C. § 314(a), we may not authorize an *inter partes* review unless the information in the petition and the preliminary response “shows that there is a reasonable likelihood that the petitioner would prevail with respect to at least 1 of the claims challenged in the petition.”

The Board, however, has discretion to deny a petition even when a petitioner meets that threshold. *Id.*; *see, e.g., Cuozzo Speed Techs., LLC v. Lee*, 136 S. Ct. 2131, 2140 (2016) (“[T]he agency’s decision to deny a petition is a matter committed to the Patent Office’s discretion.”); *NHK Spring Co. v. Intri-Plex Techs., Inc.*, IPR2018-00752, Paper 8 (PTAB Sept. 12, 2018) (precedential).

Both the Petition and Preliminary Response address the issue of discretionary denial under 35 U.S.C. § 314(a). Pet. 6–9; Prelim. Resp. 4–14.

For the reasons that follow, we exercise our discretion under 35 U.S.C. § 314(a) to deny institution of *inter partes* review.

---

<sup>1</sup> The Board authorized a Corrected Preliminary Response providing citations to a stipulation entered after the original preliminary response was filed. Paper 15.

## II. BACKGROUND

### *A. Real Parties-in-Interest*

Petitioner identifies the following as the real parties-in-interest: Code200, UAB; Teso LT, UAB; Metacluster LT, UAB; Oxysales, UAB; and coretech lt, UAB. Pet. 2.

Patent Owner identifies Luminati Networks LTD as the real party-in-interest. Paper 7, 2.

### *B. Related Proceedings*

The parties identify the following litigation in the Eastern District of Texas involving the '319 patent: *Luminati Networks Ltd. v. Teso LT, UAB et al.*, 2:19-cv-00395-JRG (E.D. Tex.) (“the Texas Litigation”). Pet. 2; Paper 7, 2. The parties identify other proceedings involving patents related to the '319 patent, including other litigations in the Eastern District of Texas, other petitions for *inter partes* review, and numerous pending applications. Pet. 3; Paper 7, 2–3.

### *C. The '319 Patent*

The '319 patent is directed to a system for increasing network communication speed for users, while lowering network congestion for content owners and internet service providers (ISPs). Ex. 1001, (57). The system employs network elements including an acceleration server, clients, agents, and peers, where communication requests generated by applications are intercepted by the client on the same machine. *Id.* The IP address of the server in the communication request is transmitted to the acceleration server, which provides a list of agents to use for this IP address. *Id.*

The communication request is sent to the agents. One or more of the agents respond with a list of peers that have previously seen some or all of the content which is the response to this request (after checking whether this data is still valid). *Id.* The client then downloads the data from these peers in parts and in parallel, thereby speeding up the Web transfer, releasing congestion from the Web by fetching the information from multiple sources, and relieving traffic from Web servers by offloading the data transfers from them to nearby peers. *Id.*

*D. Illustrative Claim*

Claim 1 is the only independent claim, and is illustrative of the challenged claims. Claim 1 recites:

1. A method for use with a first client device, for use with a first server that comprises a web server that is a Hypertext Transfer Protocol (HTTP) server that responds to HTTP requests, the first server stores a first content identified by a first content identifier, and for use with a second server, the method by the first client device comprising:

receiving, from the second server, the first content identifier;

sending, to the first server over the Internet, a Hypertext Transfer Protocol (HTTP) request that comprises the first content identifier;

receiving, the first content from the first server over the Internet in response to the sending of the first content identifier;  
and

sending, the first content by the first client device to the second server, in response to the receiving of the first content identifier.

Ex. 1001, 19:16–32.

*E. Prior Art*

Petitioner relies on the following prior art:

1. Michael Reiter & Aviel Rubin, *Crowds: Anonymity for Web Transactions*, ACM Transactions on Information and System Security, Vol. 1, No. 1, Nov. 1998, at 66-92 (Ex. 1011, “Crowds”);
2. Marc Rennhard, *MorphMix – A Peer-to-Peer-based System for Anonymous Internet Access* (2004) (Doctoral Thesis) (Ex. 1013, “MorphMix”);
3. Border et al. United States Patent No. 6,795,848 (Ex. 1017, “Border”);
4. Network Working Group, RFC 2616 (Ex. 1018).

*F. The Asserted Grounds*

Petitioner challenges claims 1, 2, 14, 15, 17–19, 21, 22, and 24–29 of the ’319 patent on the following grounds (Pet. 5–6):

<b>Claims Challenged</b>	<b>35 U.S.C. §</b>	<b>References</b>
1, 2, 21, 22, 24–27	102(b)	Crowds
1, 2, 14, 15, 17, 18, 21, 22, 24–27	103(a) <sup>2</sup>	Crowds, RFC 2616
1, 12, 14, 21, 22, 24, 25, 27–29	102(b)	Border
1, 12, 14, 15, 17, 18, 21, 22, 24–29	103(a)	Border, RFC 2616
1, 2, 17, 19, 21, 22, 24–27	102(b)	MorphMix
1, 2, 14, 15, 17–19, 21, 22, 24–27	103(a)	MorphMix, RFC 2616

<sup>2</sup> The Leahy-Smith America Invents Act (“AIA”), Pub. L. No. 112-29, 125 Stat. 284, 287–88 (2011), amended 35 U.S.C. § 103. Because the ’319 patent was filed before March 16, 2013 (the effective date of the relevant amendments), the pre-AIA version of § 103 applies.

### III. ANALYSIS

Patent Owner contends we should exercise our discretion to deny institution under 35 U.S.C. § 314(a), relying on the Board’s precedential decision in *Apple Inc. v. Fintiv Inc.*, IPR2020-00019, Paper 11 (PTAB March 20, 2020) (“*Fintiv*”). Prelim. Resp. 4–14. Patent Owner contends the parallel Texas Litigation, which asserts the same prior art as the Petition, begins jury selection over seven months before a final determination would be expected in this proceeding. Prelim. Resp. 4. Anticipating Patent Owner’s challenge, Petitioner addresses the §314(a) issue in its Petition. Pet. 6–9.

#### *A. Fintiv Factors*

*Fintiv* identifies a non-exclusive list of factors parties may consider addressing where there is a related, parallel district court action to determine whether such action provides any basis for discretionary denial. *Fintiv*, Paper 11 at 5–16. Those factors include:

1. whether the court granted a stay or evidence exists that one may be granted if a proceeding is instituted;
2. proximity of the court’s trial date to the Board’s projected statutory deadline for a final written decision;
3. investment in the parallel proceeding by the court and the parties;
4. overlap between issues raised in the petition and in the parallel proceeding;
5. whether the petitioner and the defendant in the parallel proceeding are the same party; and
6. other circumstances that impact the Board’s exercise of discretion, including the merits.

*Id.* at 5–6.

In evaluating the factors, we take a holistic view of whether efficiency and integrity of the system are best served by denying or instituting review. *Fintiv*, Paper 11 at 6.

*B. The Texas Litigation*

The Texas Litigation is pending before District Judge Rodney Gilstrap, in the United States District Court for the Eastern District of Texas, Marshall Division. Judge Gilstrap has entered a Docket Control Order setting December 14, 2020, as the deadline for completing fact discovery, January 21, 2021, as the deadline for completing expert discovery, and May 3, 2021, for jury selection and trial. Ex. 1004, 1, 3. The parties have advised us that the date for jury selection has been moved to May 10, 2021.

The Court has conducted a *Markman* hearing, and on December 7, 2020, issued a Claim Construction Opinion and Order. Paper 17; Ex. 2016.

Petitioner advised us (and we have independently confirmed) that in other cases before him, Judge Gilstrap has continued jury trial dates in cases scheduled for trial from December 2020 through February 2021 due to the COVID-19 pandemic. *See. e.g.*, Ex. 3001. However, we have not been informed of any change in the May 10, 2021 jury selection date in the Texas Litigation.

*C. Analysis of the Fintiv Factors*

Both Petitioner and Patent Owner address the *Fintiv* factors in their submissions. We conclude that overall, the factors favor exercising our discretion to decline to institute a trial. Our reasoning follows.

*i. Stay in the Texas Litigation*

Neither party asserts that the Texas Litigation has been stayed. Pet. 7; Prelim, Resp. 5. In the Petition, Petitioner contends this factor is neutral

IPR2020-01266  
Patent 10,257,319 B2

because “No party has requested a stay of the Lawsuit pending the IPR.” Pet. 7. Patent Owner contends that on October 1, 2020, after the Petition was filed, “Petitioners filed a sealed opposed motion to stay the 395 District Court case pending the *inter partes* reviews in which they concede as a general rule that such stays are not granted.” Prelim. Resp. 5 (citing Ex. 2001). Patent Owner contends Judge Gilstrap “would not likely grant a stay given the lateness of the Petition.” *Id.* at 6. The parties have not informed us of any ruling by Judge Gilstrap on Petitioner’s motion to stay.

In the absence of any specific information from the parties about a stay by the district court, we decline to speculate on the likelihood of a stay. *See Apple Inc. v. Fintiv, Inc.*, IPR2020-00019, Paper 15 at 12 (PTAB May 13, 2020) (informative) (“We decline to infer, based on actions taken in different cases with different facts, how the District Court would rule should a stay be requested by the parties in the parallel case here.”). Thus, we find this factor is neutral.

*ii. Trial Date in the Texas Litigation*

Patent Owner notes that jury selection in the Texas Litigation is set to occur over seven months before the final written decision is due. Prelim. Resp. 6–7. According to Patent Owner, the possibility that the trial date will be delayed due to the COVID-19 pandemic is “sheer speculation.” *Id.* at 7–8. Thus, Patent Owner contends that this factor “strongly favors denial of institution.” *Id.* at 8. Petitioner contends that in previous lawsuits, “Luminati has previously sought to abandon its trial dates as the ‘day of reckoning’ approaches.” Pet. 7. Petitioner argues that “[i]n view of Luminati’s history and the potential for COVID-related delays (which are more likely to affect a jury trial),” this factor “is neutral.” *Id.* at 8.

The trial in the Texas Litigation is currently set to occur at least seven months before a Final Written Decision in this case will issue if trial is instituted. Although district court trial delays are always a possibility, we have no hard evidence before us that would indicate the likelihood of a trial postponement in the Texas Litigation, due to COVID-19 or otherwise. Thus, based on the current record, this factor favors exercising discretion to deny institution of *inter partes* review.

*iii. Investment by the Court and the Parties  
in the Texas Litigation*

Petitioner contends that the Texas Litigation “is at a very early stage.” Pet. 8. Patent Owner disagrees and points to the efforts of the parties and the Court in connection with the *Markman* proceedings. Prelim. Resp. 8–10. As noted *supra*, those efforts have now resulted in a *Markman* claim construction order. Ex. 2016. Moreover, according to the most recent Docket Control Order that the parties have submitted from the Texas Litigation, fact discovery closed on December 14, 2020, and expert discovery will close on January 21, 2021. Ex. 1004, 3. The parties have not informed us of any delays that impacted or would impact these dates.

Based on the evidence of record, we agree with Patent Owner that the investment of time and effort in the Texas Litigation has been substantial and that this factor favors denial of institution. Prelim. Resp. 10.

*iv. Overlap of the Issues*

Patent Owner contends the overlap in issues between the Petition and the Texas Litigation “is substantial.” Prelim. Resp. 10. Petitioner identified all four references relied on in this proceeding (Crowds, Border, MorphMix,

and RFC 2616) in its invalidity contentions in the Texas Litigation. Paper 14, ¶¶ 1–2.<sup>3</sup>

In addition, the claims asserted in the Texas Litigation overlap with the claims challenged in this proceeding. Prelim. Resp. 11. Petitioner asserts that because the Petition challenges four claims that are not asserted in the Texas Litigation, this factor “weighs in favor of institution.” Pet. 8. But Patent Owner responds that those claims depend from claim 1, the only independent claim in the ’319 patent. Prelim. Resp. 11. Patent Owner further contends that two of those dependent claims merely add a “non-transitory computer readable medium containing computer instructions that, when executed by a computer processor, cause the processor to perform the method” of claim 1. *Id.* Thus, Patent Owner argues, “[t]his is not a significant difference.” *Id.*

We agree with Patent Owner and find that the overlap of issues with the Texas Litigation is “substantial.” Prelim. Resp. 10. We find that this factor strongly favors exercising our discretion to deny institution.

*v. Whether Petitioner is Unrelated to the Defendants in the Texas Litigation*

“If a petitioner is unrelated to a defendant in an earlier court proceeding, the Board has weighed this fact against exercising discretion.” *Fintiv*, Paper 11 at 13–14. Three of the four petitioners, namely, Teso LT, Metacluster LT, and Oxysales, are the defendants in the Texas Litigation.

---

<sup>3</sup> Petitioner and Patent Owner have entered a stipulation acknowledging that these four references have been asserted in Petitioner’s invalidity contentions in the Texas Litigation. Paper 14. Petitioner excludes Code 200 from this stipulation, as Code 200 is not a party to the Texas Litigation. *Id.* ¶ 2.

IPR2020-01266  
Patent 10,257,319 B2

Prelim. Resp. 12; Ex. 1038. Petitioner argues that because the fourth petitioner, Code200, is not a party to the Texas Litigation, this factor “weighs in favor of institution.” Pet. 9. Patent Owner responds that this argument “fails to acknowledge the close corporate relationship between Code200 and the other defendants/petitioners.” Prelim. Resp. 12.

After reviewing the corporate structure of the named petitioners, Patent Owner concludes: “Code200 is related to the other petitioners and all of them are under the control of their common parent company.” Prelim. Resp. 13 (citing Exs. 2013, 2014). Petitioner does not challenge this assertion.

We find that the overlap between the defendants in the Texas Litigation and petitioners this proceeding, even without considering the relationship of Code 200 to the other petitioners, is substantial, and favors denial of institution.

*vi. Other Considerations*

The final *Fintiv* factor takes into account any other relevant circumstances. Petitioner contends the ’319 patent “is extraordinarily weak.” Pet. 9. Patent Owner responds “Petitioners’ reading of the claims is unreasonable — an issue that will be resolved by the . . . District Court.” Prelim. Resp. 13–14.

Having reviewed Petitioner’s unpatentability arguments and Patent Owner’s responses, and based on the limited record before us, we do not find that the merits outweigh the other *Fintiv* factors favoring denial of institution.

*D. Conclusion*

The decision whether to exercise discretion to deny institution under § 314(a) is based on “a balanced assessment of all relevant circumstances in the case, including the merits.” Patent Trial and Appeal Board Consolidated Trial Practice Guide 58 (Nov. 2019), *available at* <https://www.uspto.gov/sites/default/files/documents/tpgnov.pdf>.

Patent Owner has established that (1) the trial in the Texas Litigation is set to occur at least seven months before a Final Written Decision would be issued here; (2) the court and the parties have invested substantial time and effort in the Texas Litigation; and (3) there is almost complete overlap of issues and parties with this proceeding and the Texas Litigation. Thus, based on the facts and circumstances of this case, we exercise our discretion under 35 U.S.C. § 314(a) to deny *inter partes* review.

IV. ORDER

Accordingly, it is

ORDERED that the Petition is *denied* as to all grounds and all challenged claims of the '319 patent.
