SCHEDULING ORDER

Pursuant to the Court's June 16, 2021 Amended Standing Order Regarding Notice of Readiness for Patent Cases, a Case Management Conference ("CMC") in this case was deemed to have occurred on November 17, 2021. As a result of the CMC, and pursuant to Rule 16, Federal Rules of Civil Procedure, the Court **ORDERS** that the following schedule will govern deadlines up to and including the trial of this matter:

Date	Event
November 10, 2021	Plaintiff serves preliminary ¹ infringement contentions in the form of a chart setting forth where in the accused product(s) each element of the asserted claim(s) is found. Plaintiff shall also identify the earliest priority date (<i>i.e.</i> the earliest date of invention) for each asserted claim and produce: (1) all documents evidencing conception and reduction to practice for each claimed invention, and (2) a copy of the file history for each patent in suit.

¹ The parties may amend preliminary infringement contentions and preliminary invalidity contentions without leave of court so long as counsel certifies that it undertook reasonable efforts to prepare its preliminary contentions and the amendment is based on material identified after those preliminary contentions were served, and should do so seasonably upon identifying any such material. Any amendment to add patent claims requires leave of court so that the Court can address any scheduling issues.

January 5, 2022	Defendants serve preliminary invalidity contentions in the form of (1) a chart setting forth where in the prior art references to each element of the asserted claim(s) are found, (2) an identification of any limitations the Defendants contend are indefinite or lack written description under section 112, and (3) an identification of any claims the Defendants contend are directed to ineligible subject matter under section 101. Defendants shall also produce (1) all prior art referenced in the invalidity contentions, and (2) technical documents, including software where applicable, sufficient to show the operation of the accused product(s). ²
