Who
Who We AreHow
How We Do ItWhat
What We DoLocating What's
Important To You

Cell-Loc's wireless location technology and products enable and add value to a countless number of applications. Using the Cellocate Beacon, our technology can locate people and things.

We have an [interactive Flash demonstration](#) for you to view, explaining some of the applications for our technology. This file is 1.5 Mb, so users on a dial-up connection should beware that it may take some time to view. Get the [free Flash player](#) [here](#).
