AFFIDAVIT OF NATHANIEL E FRANK-WHITE

1. I am a Records Request Processor at the Internet Archive. I make this declaration of my own personal knowledge.

2. The Internet Archive is a website that provides access to a digital library of Internet sites and other cultural artifacts in digital form. Like a paper library, we provide free access to researchers, historians, scholars, and the general public. The Internet Archive has partnered with and receives support from various institutions, including the Library of Congress.

3. The Internet Archive has created a service known as the Wayback Machine. The Wayback Machine makes it possible to browse more than 450 billion pages stored in the Internet Archive's web archive. Visitors to the Wayback Machine can search archives by URL (i.e., a website address). If archived records for a URL are available, the visitor will be presented with a display of available dates. The visitor may select one of those dates, and begin browsing an archived version of the Web. Links on archived files in the Wayback Machine point to other archived files (whether HTML pages or other file types), if any are found for the URL indicated by a given link. For instance, the Wayback Machine is designed such that when a visitor clicks on a hyperlink on an archived page that points to another URL, the visitor will be served the archived file found for the hyperlink's URL with the closest available date to the initial file containing the hyperlink.

4. The archived data made viewable and browsable by the Wayback Machine is obtained by use of web archiving software that automatically stores copies of files available via the Internet, each file preserved as it existed at a particular point in time.

5. The Internet Archive assigns a URL on its site to the archived files in the format http://web.archive.org/web/[Year in yyyy][Month in mm][Day in dd][Time code in hh:mm:ss]/[Archived URL] aka an "extended URL". Thus, the extended URL http://web.archive.org/web/19970126045828/http://www.archive.org/ would be the URL for the record of the Internet Archive home page HTML file (http://www.archive.org/) archived on January 26, 1997 at 4:58 a.m. and 28 seconds (1997/01/26 at 04:58:28). The date indicated by an extended URL applies to a preserved instance of a file for a given URL, but not necessarily to any other files linked therein. Thus, in the case of a page constituted by a primary HTML file and other separate files (e.g., files with images, audio, multimedia, design elements, or other embedded content) linked within that primary HTML file, the primary HTML file and the other files will each have their own respective extended URLs and may not have been archived on the same dates.

6. Attached hereto as Exhibit A are true and accurate copies of screenshots of the Internet Archive's records of the archived files for the URLs and the dates specified in the attached coversheet of each printout.

7. Attached hereto as Exhibit B are true and accurate copies of the Internet Archive's records of the archived files for the URLs and the dates specified in the attached coversheet of each file.

8. I declare under penalty of perjury that the foregoing is true and correct.

DATE: ___05/05/2022_____

EXHIBIT A

https://web.archive.org/web/20040818062338/http://www.fda.gov:80/cder/consumerinfo/DRUGINFO/Vidaza.htm

Vidaza®

Brand Name:	Vidaza ®
Active Ingredient:	Azacitidine
Strength(s):	25 mg/ml
Dosage Form(s):	Injection
Company Name:	Pharmion Corporation
Availability:	Prescription only
*Date Approved by FDA:	May 19, 2004

Approval by FDA does not mean that the drug is available for consumers at this time.

What is Vidaza used for?

Vidaza is used to treat patients with myelodysplastic syndrome (MDS). Myelodysplastic syndrome (MDS) is a group of conditions caused by a problem in the blood-forming cells of bone marrow.

Who should not be treated with Vidaza?

You should not be given Vidaza if you:

- are allergic to Vidaza or any of the ingredients in Vidaza including mannitol
- have advanced liver cancer tumors.

Special Warning(s) with Vidaza:

Vidaza may cause harm to a fetus. Women should avoid becoming pregnant and should not breastfeed while receiving treatment with Vidaza. Men should avoid fathering a child while receiving treatment with Vidaza.

General Precautions with Vidaza:

Vidaza may lead to low white blood cell count (neutropenia) and low platelet count (thrombocytopenia).Your doctor check your blood cell counts regularly to monitor your response and reactions to Vidaza.

What should I tell my health care provider?

Tell your health care provider if you:

- have liver problems
- have kidney problems
- are pregnant, are trying to become pregnant, or are breast-feeding

Tell your health care provider about all the medicines you take, including prescription and non-prescription medicines, vitamins, and herbal supplements.

What are some possible side effects of Vidaza? *(This list is NOT a complete list of side effects reported with Vidaza. Your health care provider can discuss with you a more complete list of side effects.)*

The most common side effects with Vidaza include:

- nausea
- low red blood cell count (anemia)
- low platelet count (thrombocytopenia)
- vomiting
- fever
- low white blood cell count (leukopenia)
- diarrhea
- tiredness
- redness at the injection site
- constipation
- bruising

For more detailed information about Vidaza, ask your health care provider or pharmacist.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS
Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS
Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS
Sync your system to PACER to automate legal marketing.

fastcase®
Smarter legal research.
