Jessica Berglund, Netflix UI Engineer

R E C O R D I N G

MS. BERGLUND: In addition to writing client code, one of the great things about working on mobile at Netflix is we get to work on both the client and the server. This essentially means we write our own endpoints. This allows us to deliver only the data needed to render the view in as few (inaudible) as possible, which is essential for a quality mobile experience.

(Recording ends.)
