Jessica Berglund, Netflix UI Engineer

R E C O R D I N G

1
2 MS. BERGLUND: In addition to writing client
3 code, one of the great things about working on mobile
4 at Netflix is we get to work on both the client and
5 the server. This essentially means we write our own
6 endpoints. This allows us to deliver only the data
7 needed to render the view in as few (inaudible) as
8 possible, which is essential for a quality mobile
9 experience.
