Patent 9,157,017 B2

On February 14, 2020, Patent Owner contacted the Board via e-mail seeking authorization to file two new exhibits with its Reply in support of its Motion for Leave to Request a Certificate of Correction. Ex. 3005. In its e-mail, Patent Owner identifies the exhibits as:

- (1) Excerpts of the file history of U.S. Patent No. 9,157,017;  
and
- (2) U.S. Provisional Patent Application No. 60/658,543 to  
Minor (“the ’543 application”).

*Id.* As to the latter exhibit, Patent Owner states that the ’543 application is a predecessor in priority to U.S. Patent Application Publication No. 2008/0230738 to Minor, which is discussed in Petitioner’s Opposition to Patent Owner’s Motion. *Id.* (citing Paper 71, 10–11). Patent Owner further states that Petitioner does not object to the filing of these exhibits.

Because the parties have conferred and Petitioner does not object, we authorize Patent Owner to file the above-identified exhibits. Patent Owner shall file the exhibits with its Reply in support of its Motion for Leave to Request a Certificate of Correction.

It is therefore:

ORDERED that Patent Owner is authorized to file the above-identified exhibits with its Reply in support of its Motion for Leave to Request a Certificate of Correction.
