AMENDMENT AFTER PUBLICATION

Sir:

Please amend the description of goods in above-referenced application for trademark registration as follows:

“mail order services, telephone shop-at-home services via 800 number, retail store services and mail order catalog services, all in the field of trophies, plaques, handbells, medallions, medals, pins, clocks, desk accessories, rocking chairs, certificates and prize ribbons, all limited to goods other than computers, computer hardware, software and related peripherals.”

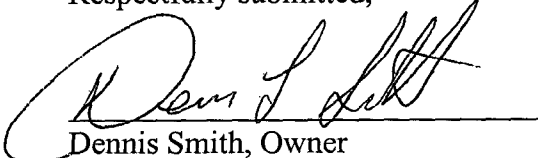

REMARKS

Applicant states for the record the goods as amended are not broader than those originally described in the above captioned application. Rather, Applicant has *deleted* from the description of goods in the original application “electronic retailing services via computer, on line retail store services,” and has *restricted* the description of goods in the original application to state that the goods are “all limited to goods other than computers, computer hardware, software and related peripherals.” Accordingly, since Applicant has only restricted and deleted items from the existing statement of goods, Applicant requests that the Office approve this amendment request, without republication, pursuant to TMEP §1501.01(a).

Applicant understands that, pursuant to §TMEP 1505.02(c) and TBMP §212.04, the Trademark Trial and Appeal Board will suspend the time for filing an opposition pending approval of this amendment by the Office.

In view of the foregoing, Applicant believes that the Amendment After Publication is in condition for approval without republication and such action is solicited.

Respectfully submitted,

Dennis Smith, Owner  
Apple Awards Inc.
