**AMENDMENT AND REQUEST FOR RECONSIDERATION**

Dear Commissioner:

This Request for Reconsideration is being filed in response to the Office Action dated December 23, 2010.

**AMENDMENT TO APPLICATION**

At the outset, Applicant amends the identified goods and services (in International Class 41) in Application No. 77952263 to read as follows:

“Live performances by a musical group that is comprised, in majority, of Asians.”

**INTRODUCTION**

In an Office Action dated June 11, 2010 (Office Action, 06/11/10), the Examining Attorney initially refused registration of Application No. 77952263 for the mark “THE SLANTS” (“Applicant’s Mark”) under Trademark Act Section 2(a), 15 U.S.C. § 1052(a), on the grounds that Applicant’s Mark is disparaging to persons of Asian ethnicity. Applicant submitted a Response to the Office Action on December 3, 2010 (Response to Office Action), and a Final Office Action was issued on December 23, 2010 (Office Action, 12/23/10), refusing registration

06-16-2011

on that same basis. Applicant now timely submits this Request for Reconsideration, and has concurrently filed an appeal of the Examining Attorney's refusal with the Trademark Trial and Appeal Board.

As set forth hereinafter, Applicant respectfully requests reconsideration on the basis that Applicant's Mark is not considered disparaging by a substantial composite of the referenced group, and Applicant here provides substantial evidence to support that position.

### BACKGROUND

Applicant's group, *The Slants*, is a dance-rock musical group that is well-known within the Asian community. Second Declaration of Simon Tam (attached as Exhibit A) ("Second Tam Declaration") at ¶ 1. All members of The Slants are of Asian Pacific Islander (API) descent. *Id.* The group plays on average 125 shows per year. *Id.* Each year, a number of the group's performances take place in front of audiences exceeding 10,000 attendees. *Id.* They are endorsed by Fender Musical Instruments, Red Bull, Dunlop, and many other notable companies. *Id.*

While the appeal of the group spans across all ethnic backgrounds, the group is especially recognized and celebrated within Asian community. *Id.* at ¶ 2. Their debut album, *Slanted Eyes, Slanted Hearts*, was listed in the top 5 Asian-American albums of 2007 by AsiaXpress. *Id.* The group has also established itself as one of the most well-known performers within the anime (Japanese animation) convention circuit, both nationally and abroad. *Id.* Finally, the group has been widely heralded in the Asian American press and has been featured in many of the largest Asian American festivals in the county. *Id.* Each year, The Slants are involved with events that specifically center on the celebration of Asian and Asian American culture. The yearly cumulative attendance at these events surpasses 500,000. *Id.*

### ANALYSIS

Applicant's Mark, as used in connection with Applicant's identified entertainment services, is a positive term of self-reference that promotes Asian cultural pride and identity. Such use by Applicant is not considered by a substantial composite of persons of Asian ethnicity to be disparaging. In fact, as explained below, the exact opposite is the case: people of Asian ethnicity overwhelmingly *support* Applicant's use of Applicant's Mark. Accordingly, Applicant's Mark cannot be denied registration on the grounds that it is disparaging. Further, even if there were some doubt as the registrability of Applicant's Mark, such doubt must be resolved in favor of Applicant and Applicant's Mark must be published for opposition.

Determining whether a mark is disparaging requires application of the following two-step analysis:

- (1) What is the likely meaning of the matter in question, taking into account not only dictionary definitions, but also the relationship of the matter to the other

elements in the mark, the nature of the goods or services, and the manner in which the mark is used in the marketplace in connection with the goods or services; and

- (2) If that meaning is found to refer to identifiable persons, institutions, beliefs or national symbols, whether that meaning may be disparaging to a substantial composite of the referenced group.

*In re Squaw Valley Dev. Co.*, 80 USPQ2d 1264, 1267 (TTAB 2006) (citing *Harjo v. Pro-Football, Inc.*, 50 USPQ2d 1705, 1740-41 (TTAB 1999) (“*Harjo I*”), *rev'd on other grounds*, 284 F. Supp. 2d 96, 68 USPQ2d 1225, 1248 (D.D.C. 2003) (“*Harjo II*”), *remanded*, 415 F.3d 44, 75 USPQ2d 1525 (D.C. Cir. 2005), *and aff'd*, 565 F.3d 880, 90 USPQ2d 1593 (D.C. Cir. 2009), *cert denied*, 130 S. Ct. 631 (2009)). On the question of whether a matter may be disparaging, the general public's views are irrelevant. *Harjo I* at 1739 (“the perceptions of the general public are irrelevant... [O]nly the perceptions of those referred to, identified or implicated in some recognizable manner by the involved mark are relevant to this determination.”). In determining whether a mark is disparaging, the PTO strongly prefers that doubts be resolved in favor of the applicant and that the mark be published:

Because the guidelines [for determining whether a mark is disparaging] are somewhat vague and because the determination is so highly subjective, we are inclined to resolve doubts on the issue of whether a mark is ... disparaging in favor of [the] applicant and pass the mark for publication with the knowledge that if a group does find the mark to be ... disparaging, an opposition proceeding can be brought and a more complete record can be established.

*In re In Over Our Heads Inc.*, 16 USPQ2d (BNA) 1653, 1654-55 (T.T.A.B. 1990).

The examining attorney has the burden of proving a prima facie case of disparagement. *See e.g., In re Mavety Media Group Ltd.*, 33 F.3d 1367, 1371 (Fed. Cir. 1994) (“The PTO has the burden of proving that a trademark falls within a prohibition of [Section 2(a)]”). The mark at issue should be considered “in the context of contemporary attitudes” and while keeping in mind changes in social mores and sensitivities. *Id.* at 1371. Finally, examining attorneys should take care not to substitute their own views for those of the referenced group. *See In re Hines*, 32 USPQ2d (BNA) 1376, 1377 (T.T.A.B. 1994) (in reversing a refusal to register a mark that allegedly disparaged Buddhists, the TTAB made clear that the PTO should “avoid interposing its own judgment for that of the Buddhists”).

**I. The Examining Attorney Has Not Established That Applicant's Mark is Disparaging**

In the Office Action, 12/23/2010, Examining Attorney introduces additional evidence purported to support the refusal to register the Mark. However, like the evidence presented in

the Office Action 06/11/10, this evidence is unconvincing. It does not establish that "slant" is a disparaging term, nor does it establish that a substantial composite of the referenced group finds Applicant's Mark to be disparaging. Accordingly, the Examining Attorney has not met the required burden of proof.<sup>1</sup>

The Examining Attorney first introduces what appears to be a wiki list (and has previously introduced other wiki sources) to argue that the term "slant" is, by itself, a disparaging racial epithet. However, the very nature of wiki sources – sources which are edited by users themselves - renders them of dubious reliability. More importantly, relying on sources such as Urban Dictionary and Wikipedia does not paint a complete picture (or, in this case, even an accurate picture) of how the word is used in contemporary society. As explained below, a more comprehensive analysis reveals that the term "slant" is effectively no longer a term of disparagement, and is indeed with more and more frequency being used in a casual self-referential manner by people of Asian descent.

The Examining Attorney also submits an article concerning controversy over a physical gesture by country music performer Toby Keith. However, this article concerns a contextual physical gesture, and not the intrinsic definition of a word. To that end, the article's context (*i.e.*, a white country western performer using his fingers to make his eyes appear slanted) is so far removed from the one at hand that it is difficult to see how one could plausibly argue that the article says *anything* that could be of use in the present matter. In essence, the Examining Attorney is using an instance of a contextual disparaging gesture, to make the case that a term itself is intrinsically disparaging. However, the flaw with the logic behind this argument, is that any racial, national, or ethnic epithet (and by extension, a physical gesture) can be used in a derogatory or offensive way, if, in context, offensiveness is clearly conveyed. *See e.g.*, Expert Report of Ronald Butters, Phd. (attached as Exhibit B) ("Butters Report") at ¶ 16; Expert Report of Charlton McIlwain, Phd., & Stephen Caliendo, Phd. (attached as Exhibit C) ("Survey Report") at ¶ 11 ("[A]ny term has some potential to be disparaging depending on the intention of its user..."). This use, however, is not evidence that a word itself is intrinsically disparaging or derogatory, or that the word itself will be received as offensive by the persons it is intended to

---

<sup>1</sup> Applicant must also respectfully submit that the provisions § 2(a) of the Lanham Trademark Act (15 U.S.C. § 1052(a)) which require the U.S.P.T.O. to refuse registration to a mark that is scandalous, immoral, or disparaging are unconstitutional. *See Richie v. Simpson*, 170 F.3d 1092, 1103-1104 (Fed. Cir. 1999)(Pauline Newman, J., dissenting) ("The affirmation of the Board's refusal of registration [in *In re McGinley*, 660 F.2d 481 (C.C.P.A. 1983)] has been criticized on constitutional grounds, as scholars have pointed out that the denial of benefits may be viewed as an abridgement of speech protected by the First Amendment. . . Regulation of commercial speech may guard against such wrongs as fraud and false advertising, but not as a manner of suppression of social content."). These constitutional infirmities are especially true when the mark denied registration is a self-referential mark and is used by members of the allegedly disparaged group (often a discrete and insular minority) as artistic political-identity speech rather than as traditional commercial speech.

describe. *Id.* Indeed, about all that can be said about the Toby Keith article, is that supports the proposition that Asians take offense when a white country-music performer attempts to ridicule them. This is, of course, not surprising, nor does it establish that there is anything necessarily disparaging about the term, THE SLANTS, either intrinsically, or when such term is used by an Asian group that recognizes and promotes Asian identity.

Finally, as further evidence in support of his position that "slant" is a disparaging term, the Examining cites a MANAA (Media Action Network for Asian Americans) article. However, the MANAA article cited by Examining Attorney is also talking about a different context. To that end, whatever Hollywood's historical use of the term "slant" has been, it does not automatically follow that under contemporary standards the term itself is necessarily intrinsically disparaging, which is a point that seems to have not been lost on the article's author, who in the introductory section to his article prefaces his list by saying "this list is not intended as a bunch of 'thou shalt nots!...' Further, elsewhere in the same article, the author also advocates that it is fine to present Asian racial features where, as is the case with Applicant's Mark and with the self-referential uses of the term "slant" described below, there is no suggestion that the features are unusual.

The Examining Attorney also introduces evidence intended to support his argument that The Slants' use of the name is considered disparaging by Asians. However, again, like the evidence concerning the definition of the term "slant," this evidence is unconvincing. For instance, the Examining Attorney mentions that "the band notes that some people called them racists shortly after posting a classified ad for band members that included the band's name." In doing so, the Examining Attorney is suggesting that the band was criticized because of its name. However, this is simply untrue. The reality is that the referenced accusations were made by non-Asians who took issue with Mr. Tam seeking band members of Asian descent; the accusers were not taking issue with the band's name itself. Second Tam Declaration at ¶ 2.

The Examining Attorney also states that "rarely does an article introduce the band without commenting on the controversial nature of the band's name." In response, Applicant must first note that the test for disparagement is not whether a name is "controversial"; the ultimate question is whether the name is considered *disparaging* by members of the *referenced group*. In addition, Applicant takes issue with the accuracy of the Examining Attorney's statement, but, more importantly, to whatever extent that the Examining Attorney's statement is factually accurate, such statement completely misses the proverbial "elephant in the room," namely, that the Asian press is demonstrating its support for the band by featuring and promoting the band in those articles to begin with.

Additionally, the Examining Attorney cites to a single online forum post from an individual who claims to be offended by the band's name. In response Applicant must emphasize that this is nothing more than a single, *anonymous* post on an obscure forum that is not a part of the Asian press or community. Accordingly, it is hardly the type of evidence from which one could reliably draw conclusions about the views of a "substantial composite" of Asians. In fact, it doesn't actually say *anything* about how *any* Asian feels about the issue.

Finally, the articles concerning the Asian American Youth Leadership Conference do not paint a complete picture of the events surrounding Applicant's scheduled speaking appearance at the conference, and in some respect are even inaccurate. Second Tam Declaration at ¶¶ 4-6; Second Declaration of Rev. Joseph Santos-Lyons (attached as Exhibit D) ("Second Santos-Lyons Declaration") at ¶¶ 3-6. In February 2009, Mr. Tam was asked to be the keynote speaker for the event and The Slants were invited to perform at the event as well. Second Lyons Declaration at ¶ 3. However, the AAYLC subsequently became aware of concerns from Portland Christian High School that the band's music might contain objectionable lyrics. Second Tam Declaration at ¶ 4. While the AAYLC ultimately found nothing objectionable about The Slants' lyrical content, the AAYLC nonetheless decided that it would withdraw the invitation to have The Slants perform. Second Santos-Lyons Declaration at ¶ 4. This decision was based on wanting to alleviate the concerns regarding the lyrics, as well as on the ultimate realization that, due to budget limitations, the AAYLC would not be able to accommodate The Slants' performance logistically. *Id.* The decision was not based on the name of the group. *Id.*

One of the event sponsors, the Oregon Commission on Asian Affairs (OCAA), was concerned about involving The Slants, the OCAA indicating that some state legislators viewed the term "slant" as an offensive slur. *Id.* at 5. The OCAA's primary concern was that these state legislators might be upset if the names "OCAA" and "The Slants" appeared together in written materials. *Id.* Originally, the AAYLC was going to return the OCAA sponsorship and keep Simon Tam as the keynote speaker. *Id.* However, with the OCAA (potentially) not supporting the event, the AAYLC was worried that other state groups might be hesitant to send their sponsorship support, and ultimately decided to choose another speaker. Second Tam Declaration at ¶ 6. This was one of the most difficult decisions reached by the AAYLC and was one that was regretted by both the AAYLC and members of the OCAA. Second Santos-Lyons Declaration at ¶ 5. Moreover, Mr. Tam was still involved with the planning team, as a facilitator, and The Slants still sponsored the event. Second Tam Declaration at ¶ 6. In addition, The AAYLC still promoted The Slants on its website, in the AAYLC 2009 magazine, and in all of the AAYLC's event promotional materials which were distributed to students, chaperones, the OCAA board, as well as Asian American businesses throughout Oregon. *Id.*; *See also* organizational sponsors page of AAYLC brochure, wherein Simon Tam and The Slants are expressly thanked (attached as Exhibit E). Even after these materials were distributed, neither the AAYLC nor the OCAA received any complaints. Second Tam Declaration at ¶ 6; Second Santos-Lyons Declaration at ¶ 6. The AAYLC was proud to have The Slants involved with the event and had no hesitations in publicly acknowledging their relationship with the band. Second Tam Declaration at ¶ 6. Finally, Paul Van Mai (the AAYLC chair) later informed Mr. Tam that the decision to remove Mr. Tam as a speaker was a mistake because having someone from The Slants as a keynote would have elevated the overall experience for the Asian American students involved. *Id.*

In summary, the "controversy" surrounding the OCAA incident was borne out of nothing more than concern that some members of the state legislature (as opposed to Asians themselves) would find the name offensive. Thus, as only the views of the referenced group are at issue in this matter, the OCAA incident has no bearing on this matter. However, even if the OCAA

incident *does* somehow bear on this matter, Applicant must reiterate that the test for whether a group's name is disparaging involves determining whether a *substantial composite* of the referenced group would find the name disparaging. By relying on this one instance, the Examining Attorney is allowing the actions of a single commission to in effect carry a national veto, even where the mark in question has been featured and promoted without controversy in over 25 Asian festivals, including the largest Asian American festivals in the country.

## II. Applicant's Mark Is Not Disparaging

As explained above, the Applicant's Mark must be evaluated in the context of contemporary views, and not in context of what the term might have meant generations ago. One of the fundamental truths of linguistics is that human languages continually change. Arguably, the term "slant" was never as robust as many pejorative epithets, but in any event, the offensive connotations of the word have diminished to the point where the use of the word is obsolete or archaic as a form of disparagement, and indeed, Asians today increasingly view "slant" as a proud informal term of self-reference. See Butters Report (analyzing the modern meaning of the noun phrase, THE SLANTS). For example, the editors of the third (2010) edition of the *New Oxford American Dictionary* (NOAD) dropped the entire epithetic definition and its pejorative usage labels from the dictionary. *Id.* at ¶¶ 11-13 (discussing, among other things, the softening, and then ultimate removal of the definition of "slant" as a racial epithet). As noted by Dr. Butters, it appears that the NOAD editors judged slant to have been ameliorated to the extent that it has fallen into disuse as a pejorative racial epithet and is no longer considered particularly offensive to Asian-Americans themselves. *Id.* at ¶ 13.

It is no surprise then, that in contemporary culture the term is increasingly being used by Asians in a self-referential manner. Butters Report ¶¶ 18-22. These uses include "The Slant" (an entertainment and news series about the Asian experience), "Slant Eye For The Round Eye" (a popular Asian blog), the "Slant Film Festival" (a film festival showcasing Asian Artists), and "The Slanted Screen" (a documentary about Asian actors). *Id.*; Response to Office Action, Exhibits 14-18 (self-referential uses of the term "slant"). Melissa Hung, the founder of the Slant Film Festival (which is now in its eleventh year), notes that throughout the entire time the festival has been running, there has only been a single instance where someone has contacted the festival to express concern about the use of the term "slant" in the festival's name. Declaration of Melissa Hung (attached as Exhibit F) at ¶ 3.

Applicant established in his Response to Office Action, that the success of The Slants within the Asian community is indisputable. However, Applicant now nonetheless introduces substantial additional evidence in support of that point. See articles referencing The Slants (attached as Exhibit G); articles previously introduced in the Response to Office Action, but reintroduced here for purposes of displaying complete URL information (attached as Exhibit H). Unlike the evidence set forth by the Examining Attorney, this evidence specifically reflects the voice of the referenced group at issue.

Moreover, Applicant now also introduces direct survey evidence to establish that Applicant's Mark is not disparaging to a substantial composite of the referenced group. The survey evidence, which was gathered in accordance with appropriate scientific principles, demonstrates, among other things, that few members of the API community view THE SLANTS as a disparaging term. *See* Survey Report.

First, few survey respondents (16%) agreed that the name of the group was disparaging. *Id.* at ¶ 7. Applicant notes that 16% does not even come close to rising to the level of being a "substantial composite." *See e.g., Harjo II*, 284 F. Supp. 2d at 133 n.32 (36.6% of Native Americans did not constitute a "substantial composite"). Ultimately, if there was any strong feeling, it was in the direction as viewing THE SLANTS as a term that is *not* disparaging. *Id.* Moreover, even fewer agreed that THE SLANTS is disparaging when learning that the group's membership is entirely Asian.<sup>2</sup> *Id.* at ¶ 7.

The results of the survey are not surprising, nor are they in any way inconsistent with the conclusions reached by Dr. Butters in his report. In summary, the survey evidence speaks to the exact issue in this matter, and wholly supports the argument that THE SLANTS is not considered disparaging by a substantial composite of Asians.

Finally, to the extent that there is any doubt concerning the registrability of Applicant's Mark, it should be resolved in favor of Applicant and the mark should be published for opposition. *In re In Over Our Heads*, 16 USPQ2d (BNA) at 1654-55; *see also* Lynda J. Oswald, *Challenging the Registration of Scandalous and Disparaging Marks Under the Lanham Act: Who Has Standing to Sue?* 41 Am. Bus. L.J. 251, 264 (2004) ("Where the registrability of a mark is at issue, the courts and [TTAB] prefer that the examiner publish the mark for opposition rather than deny registration during the examination process. Their concern is that the government not be in a position of censoring marks without public input").

### CONCLUSION

As set forth in detail above, Applicant's Mark is not disparaging. As used by Applicant, it is a positive term of self-reference that has been embraced by the Asian community. While Applicant submits that this point was established beyond doubt in the Response to Office Action, Applicant has now submitted substantial additional evidence in support thereof. Applicant has sufficiently demonstrated that the Asian community does not find Applicant's Mark to be disparaging, and, therefore, there is absolutely no justification for the Examining Attorney to refuse registration of the mark. Finally, even if there is any doubt concerning the registrability of Applicant's Mark (which there is not), such doubt must be resolved in favor of Applicant. For all of these reasons, Applicant respectfully requests that Examining Attorney withdraw the

DECLARATION OF SIMON TAM UNDER 37 C.F.R. § 2.20

I, Simon Tam, being warned that willful false statements and the like are punishable by fine or imprisonment, or both, under 18 U.S.C. § 1001, and that such willful false statements and the like may jeopardize the validity of the application or document or any registration resulting there from, declare:

1. My group, *The Slants*, is a dance-rock musical group that is well-known within the Asian community. All members of The Slants are of Asian Pacific Islander (API) descent. The group plays on average 125 shows per year. Each year, a number of the group's performances take place in front of audiences exceeding 10,000 people. The group is endorsed

by Fender Musical Instruments, Red Bull, Dunlop, and many other notable companies (many of whom have a large Asian American audience).

2. While the appeal of the group spans across all ethnic backgrounds, the group is especially recognized and celebrated within the Asian community. The group's debut album, *Slanted Eyes, Slanted Hearts*, was listed in the top 5 Asian-American albums of 2007 by AsiaXpress. The group has also established itself as one of the most well-known performers within the anime (Japanese animation) convention circuit, both nationally and abroad. Finally, the group has been widely heralded in the Asian American press and has been featured in many of the largest Asian American festivals in the county. Each year, The Slants are involved with events that specifically center on the celebration of Asian and Asian American culture. The cumulative attendance of these events surpasses 500,000.

3. When I first began asking for musicians to join the group, I created postings on craigslist and in local classifieds looking for individuals with a strong connection to Asian or Asian American community and culture. These postings were shared and circulated throughout the Asian community and I did not receive any complaints over the band's name. During this time, the only negative reaction I had received was from those outside of the community who had issues with me specifically seeking Asian American band members and felt that I was excluding non-Asians from participating. They did not object to the band's name. When recruiting for The Slants, I did not receive any complaints about the name.

4. In February 2009, I was contacted by Paul Van Mai, the chairman for the Asian American Youth Leadership Conference ("AAYLC") and was asked to be the keynote speaker

for the 2009 AAYLC event. I was selected by a panel of Asian American community leaders and my band, The Slants, was invited to perform. A few weeks after the announcement, the AAYLC learned that Portland Christian High School was concerned that - because of the secular nature of The Slants - The Slants' music might embody objectionable lyrical content. Upon review of The Slants' music, the AAYLC committee did not find any content that it deemed objectionable, but the AAYLC nonetheless ultimately decided to withdraw the invitation to have the band perform. The decision was based on wanting to head-off any concerns regarding the group's lyrics, and was also based on the realization that budget limitations would prevent the AAYLC from accommodating the group's performance logistically. There was never a discussion or issue pertaining to the band's name because no one on the steering committee (comprised of Asian Americans) found it to be offensive.

5. Later in March, I was contacted by Paul Mai of the AAYLC who told me that the Oregon Commission on Asian Affairs (OCAA), a state-run agency, was considering withdrawing their \$500 sponsorship of the AAYLC if The Slants were involved because a few state legislators found the term offensive. They emphasized that this was not due to any complaints by the Asian American community itself; in fact, the OCAA chair Liani Reeves stated in an email to me and the AAYLC:

"After much discussion and heartache, the Commission has voted to withdraw the funds. We very much appreciate your willingness to work with us to try and find an acceptable solution but unfortunately, the Commission's political and fiscal stability during this budget cycle prevents us from participating at this time. In a

different climate, things would probably be different. We understand the financial hardship that this causes to the conference and a number of the Commission members, including myself, will be sending the conference personal donations to support the conference and help make up the loss of funding from the Commission.”

6. With the OCAA not supporting the event with the \$500, the AAYLC was worried that other state groups might be hesitant to send their sponsorship support so they reversed their decision to have me as the keynote speaker. It is to my understanding that the OCAA eventually reinstated their original sponsorship money to the event. Even though I was not the keynote speaker, I was still involved with the planning team, as a facilitator, and The Slants sponsored the event. The AAYLC promoted The Slants on their website, in the AAYLC 2009 magazine, and in all of their event promotional materials which were distributed to students, chaperones, the OCAA board, as well as Asian American businesses throughout Oregon. I met with Paul Van Mai (AAYLC chair). I was informed that that the decision to remove me as a speaker was a mistake because having someone from The Slants as a keynote would have elevated the overall experience for the Asian American students involved. Furthermore, though The Slants’ name was printed on AAYLC public materials, the AAYLC did not receive any complaints from the Asian American community over the band’s involvement. The AAYLC was proud to have The Slants involved with the event and had no hesitations in publicly acknowledging their relationship with our band.

All statements made herein of my own knowledge are true and all statements made on information and belief are believed to be true.

**EXPERT REPORT OF RONALD R. BUTTERS, Ph.D.**

I, Ronald R. Butters, being warned that willful false statements and the like are punishable by fine or imprisonment, or both, under 18 U.S.C. § 1001, and that such willful false statements and the like may jeopardize the validity of the application or document or any registration resulting therefrom, declare:

1. This report is submitted on behalf of the Applicant, Simon Shiao Tam, in support of his application for trademark registration as noted above.

**I. Assignment**

2. I have been asked to analyze the meaning (i.e., the DENOTATIONS and CONNOTATIONS) of the noun phrase, THE SLANTS, in the English language as spoken in the United States today, with particular reference to its possible use as a trademark that

names a performing musical band. Of special interest to the Applicant is the nature of any putative contemporary disparaging or offensive meanings or connotations of the phrase THE SLANTS as it might be applied to some persons of Asian descent.

## II. Summary of Conclusions

3. The noun *slant* (a shortening or CLIPPED FORM of the descriptive compound *slant-eyed* or *slanted-eyed*) has a history of use as a derogatory racial or ethnic epithet referring to those persons of Asian descent whose normal eyes have a genetically determined shape sometimes described by physiologists as a PALPEBRAL SLANT accompanied with a fold of skin known as an EPICANTHAL FOLD. Linguists and rhetoricians call such a use of a word SYNECDOCHE, defined as the use of the term for a part of something to refer to the whole (cf. the SYNECDOCHEs *all hands on deck* and *the power behind the throne*). By definition, a term is DISPARAGING if, through its very use, the user “expresses the opinion” that that to which it is applied is “of little worth”; and a term is DEROGATORY if, through its very use, the user thereby “shows a critical or disrespectful attitude” towards that to which it is applied. Persons who infer that words are being applied disparagingly or derogatorily to themselves will generally find the words OFFENSIVE; that is, such use will cause them “to feel deeply hurt, upset, or angry.”<sup>1</sup>

4. One of the fundamental truths of linguistics is that human languages continually change. It is arguably the case that *slant* was never as robustly derogatory as many such epithets. Moreover, the synecdochical use of *slant* as a derogatory term, together with any offensive connotations of the word as understood by Asian Americans, has in any case continued to diminish in the past decade, to the point where *slant* is

---

<sup>1</sup>Quotations are from *The New Oxford American Dictionary* (2011) definitions for *disparaging*, *derogatory*, and *offensive* (see Exhibit 2 attached to this report).

obsolete or archaic as a term of disparagement. Indeed, the evidence points also to the conclusion that persons of Asian descent (even those who exhibit the palpebral/epicanthal feature themselves) today increasingly view *slant* as an informal term of proud self-reference.

#### **I. Qualifications**

5. I am a resident of Durham, North Carolina, and Professor Emeritus, Duke University, where I have served since 1967 as a member of the faculty in the Department of English and the Department of Cultural Anthropology. At various times, I have chaired both the Duke English Department and the Duke Linguistics Program. I earned my doctorate in English with a concentration in linguistics from the University of Iowa, Iowa City, where I received advanced training in the study of both linguistics and literature. My professional society memberships include the American Dialect Society, American Name Society, Dictionary Society of North America, Asociación de Lingüística y Filología de América Latina, Linguistic Society of America, Southeastern Conference on Linguistics, International Language and Law Association, and International Association of Forensic Linguists (of which I am currently president). Of particular importance to the current inquiry, I have been a member of the Advisory Board of the *New Oxford American Dictionary*, published by the Oxford University Press, now in its third edition, and I was a Specialist Subject Consultant in Language ("Vulgar Slang/Homosexual Terms") for the 2001 and 2005 editions of that work, advising in particular with respect to usage labels for terms of abuse. A copy of my curriculum vitae, detailing my educational background, professional experience, teaching areas, publications, and testimony record for the past four years is attached hereto as "Exhibit 1."

6. This report is made based on my professional knowledge and expertise, and on my research using established and accepted scientific linguistic knowledge and methodology. The information that I considered in forming the professional opinions expressed here is referenced as relevant throughout the report (see also the attached "Exhibit 2"). If sworn as a witness, I could testify competently to the matters stated herein. Insofar as I may continue to review additional information, I will be able to supplement, revise, or further explain the opinions set forth in this report. I understand that my duty in providing written reports and giving evidence is to assist the Trademark Board. I am in this case waiving my usual compensation of an hourly rate of \$400. In compiling reports such as this one, my compensation is in any case not contingent on the outcome of the proceedings in which it has been solicited.

7. Within linguistics, the greatest portion of my scholarly work and teaching has focused upon contemporary American English and its antecedents, and languages influencing, or influenced by, English in the modern world. As "Exhibit 1" reflects, for more than 40 years I have been active in research and teaching in the field of contemporary English linguistics. I have written many scientific studies that have appeared in respected peer-reviewed linguistics journals and books, and I have given numerous oral presentations of the results of my work, frequently by invitation, before learned societies both in the United States and abroad. I was also the editor of peer-reviewed scientific publications of the American Dialect Society for 25 years, and I have just completed a three-year term as a co-editor of the *International Journal of Speech, Language, and Law* (staying on, however, as a member of the Editorial Board).

8. In addition to my ongoing academic research interests, I am also self-employed as a consultant and expert in the field of linguistics. In this capacity, I have testified and/or served as an expert witness in cases filed in state and federal trial courts and boards in California, Delaware, the District of Columbia, Florida, Georgia, Illinois, Kansas, Louisiana, Maryland, Massachusetts, Missouri, New York, North Carolina, Ohio, Texas, Virginia, and West Virginia, as well as in proceedings of the United States Patent and Trademark Office's Trademark Trial and Appeal Board.

### **III. Theory and Methodology**

9. Linguistics is the scientific study of human language in all its various aspects—historical, cultural, social, and psychological—as exhibited in the spoken and written forms of the languages and dialects of the world. It encompasses a number of (often intersecting) scientific subfields, including

**phonology**, the study of the sound structure of languages

**graphemics**, the study of writing systems (including alphabetic spelling)

**morphology**, the study of word structure

**syntax**, the study of the rules for organizing words into phrases and sentences

**lexicology**, the study of word meaning

**lexicography**, the science of dictionary making

**semantics**, the study of word and sentence meanings

**discourse analysis**, the study of linguistic units larger than the sentence, with particular reference to the importance of such units in the construction of meaning for speaker and hearer, writer and reader.

**pragmatics**, the study of how such meaning is affected by nonlinguistic contexts

**semiotics**, the study of extralinguistic and paralinguistic meaning systems that members of a culture assign to **signs** (gestures, colors, shapes, visual patterns, and icons)

**psycholinguistics**, the psychology of language, that is, the study of language that focuses on the linguistic abilities of the individual

**sociolinguistics**, the sociology of language, that is, the study of language that focuses on the linguistic behavior of groups (sometimes further subdivided into **social** and **regional dialectology**)

**historical linguistics**, the study of the data and mechanisms of language change.

In short, linguists study the facts and principles that underlie human languages and their communicative functions.

10. The science of the linguist and lexicographer is largely inductive rather than experimental. Linguists assemble the relevant data and, based upon an understanding of fundamental linguistic principles, form conclusions about the structure and meaning of the data (which may then be subject to verification by comparing the results to the results found for parallel linguistic data). In forming my conclusions in the present inquiry, I have drawn in particular upon my knowledge of historical linguistics, lexicography, lexicology, semantics, pragmatics, and discourse analysis. In methodology, I began with an examination of the work of previous scholars as represented in dictionaries and academic writings. I then examined data of actual use of the epithet *slant* in American English today, with particular reference to how the term is used among Americans of Asian ancestry.

#### IV. The Meaning of SLANT as Indicted by Scientifically Compiled Dictionaries and Other Works of Lexicographical Scholarship

11. The entry for *slant* in the first edition (2001) of the *New Oxford American Dictionary* (NOAD1), reads as follows in its entirety (pronunciations and etymology have been deleted; underlining was added to highlight the most relevant portions):

##### **slant**

- ▶v. [no obj., with adverbial of direction] slope or lean in a particular direction; diverge from a vertical or horizontal line: *a plowed field slanted up to the skyline* | [as adj.] (slanting) *the slanting beams of the roof.*
  - (esp. of light or shadow) fall in an oblique direction: *the early sun slanted across the mountains.* ■ [trans.] cause (something) to lean or slope in such a way: *slant your skis as you turn to send up a curtain of water.* ■ [trans.] [often as adj.] (slanted) present or view (information) from a particular angle, esp. in a biased or unfair way: *slanted news coverage.*
- ▶n. 1 [in sing.] a sloping position: *the hedge grew at a slant* | *cut flower stems on the slant.*
  - 2 a particular point of view from which something is seen or presented: *a new slant on science.*
  - 3 DEROGATORY a contemptuous term for an East Asian or Southeast Asian person.
- ▶adj. [attrib.] sloping: *slant pockets.*

The second (2005) edition of the *New Oxford American Dictionary* (NOAD2) reads almost exactly the same, except for the lead-in to part 3 of the ▶n. definition, which was revised as follows:

3 informal, offensive a contemptuous term for an East Asian or Southeast Asian person.

The editors of the third (2010) edition of the *New Oxford American Dictionary* (NOAD3) have further revised the definition of *slant*, so that it now reads in its entirety as follows:

- ▶v. slope or lean in a particular direction; diverge or cause to diverge from the vertical or horizontal: [no obj.] *a plowed field slanted up the skyline* | [with obj.] *slant your skis as you turn to send up a curtain of water.*
  - (esp. of light or shadow) fall in an oblique direction: *the early sun slanted across the mountains.*

■[with obj.] (often as adj. *slanted*) present or view (information) from a particular angle, esp. in a biased or unfair way: *slanted news coverage*.

►n.

1. [in sing.] a sloping position: the hedge grew at a slant | cut flower stems on the slant.

2. a particular point of view from which something is seen or presented: *a new slant on science*.

►adj. [attrib.] sloping: *slant pockets*.

Note that the usage label found in definition 3 of *NOAD1* was somewhat ameliorated in the usage label of *NOAD2*, “DEROGATORY” and “contemptuous” becoming “*informal, offensive*” and “contemptuous.” Even more significantly, the entire epithetic definition and its pejorative usage labels were completely dropped from the dictionary in its most recent edition.

12. The series of changes in the *NOAD* definition cannot be explained as an alteration in policy; *NOAD3* still continues to generate usage labels bearing on the issue of ethnic slurs. See, for example, the *NOAD3* entry for *wop*:

**wop**

►n *informal offensive*

a contemptuous term for an Italian or other southern European.

Rather, such changes in the definition of *slant* indicate that, in the opinion of the editors of *NOAD3*, the usage labels indicated in the 2001 and 2005 editions no longer accurately portrayed the status of *slant* in 2010. Rather, it appears that the *NOAD* editors judged *slant* to have been ameliorated to the extent that it has fallen into disuse as a pejorative racial epithet and is no longer considered particularly offensive to Asian-Americans themselves.

13. One might legitimately ask if a term could fall into disuse and/or change its connotations in only a decade. In fact, it appears that the *NOAD2* editors sensed some

amelioration of *slant* when they softened the definition from what appeared in *NOADI*. In addition, dictionary makers tend to depend heavily upon other scholarship in constructing usage labels for ethnic and racial epithets. As the eminent lexicographer Sidney I. Landau points out

Unfortunately, there are no agreed-upon criteria for finding some usages offensive or contemptuous or abusive. There are few studies that shed any light on the degree of offensiveness of specified terms under specified conditions. ... How ... dictionary editors decide what to label offensive or disparaging ... is based on the editor's judgment of society's norms for the limits of reputable public behavior. He consults slang dictionaries and other written sources, including other general dictionaries. [*Dictionaries: The Art and Craft of Lexicography*, 2d edition, 2001, p233]

Although *NOADI* was constructed in great part based on original research, when the editorial team (of which I was a part) wrote the original usage labels we also depended upon received wisdom as expressed in earlier dictionaries and other works of lexicographical scholarship, from which it seems that *slant* had been considered offensive and intrinsically derogatory in earlier decades.<sup>2</sup> For example, the American lexicographer Hugh Rawson wrote in his book *Wicked Words: A Treasury of Curses, Insults, Put-Downs and Other Formerly Unprintable Terms from Anglo-Saxon Times to the Present* (1989, p358):

*slant*. An Oriental, or any vaguely Oriental-looking person with slanted eyes. "To the G.I., the Vietnamese ... is a 'gook,' 'dink,' 'slope,' or 'slant' (Time, 12/5/69). *Slant*, dating from the start of World War II, is short for slant-eye. (The *O[xford]E[nglish]D[ictionary]* traces the adjective *slant-eyed* to 1865 in its Oriental sense).

<sup>2</sup>The earliest reference to the epithetic sense of *slant* that I have found reference to is in Lester V. Berrey and Melvin Van den Bark's *American Thesaurus of Slang: A Complete Reference Book of Colloquial Speech* (1942), "§385/19 Oriental, *slant*." See "slant, n.1," the *Oxford English Dictionary*, Second edition, 1989; online version March 2011. <<http://www.oed.com.proxy.lib.duke.edu/Entry/181334>>; accessed 22 April 2011. It is very likely significant that this epithetic usage emerged during World War II, at which time Americans were at war with the Japanese.

And in *Unkind Words: Ethnic Labeling from Redskin to Wasp*, the University of Connecticut sociologist Irving Lewis Allen wrote (1990, p18):

Nearly half of all interracial slurs (whites slurring blacks, Asians, and Native Americans—and these racial minorities slurring whites) refer to real or imagined racial differences. Whites have called Asian-American groups *slant-eyes* and Asians have begun calling whites round eyes as a comeback.

As early as 1981, the Northwestern University lexicographer and linguist Richard A. Spears, in his dictionary, *Slang and Euphemism* (p57) defined both *slant* and *slant-eye* as

A derogatory nickname for any Oriental. From the shape of the Oriental eyes.

14. As Landau noted in his book (*op cit.*), the period leading up to 2001 was an era in which lexicographers, responding to the pressures for what have come to be known as “politically correct” responses to language, were much quicker to assign pejorative labels to epithets than they had been in the middle decades of the twentieth century, and earlier:

If, in the past, dictionaries were too slow to label terms of insult, they now seem too quick to do so. Many hundreds of terms now labeled as disparaging, contemptuous, of offensive in dictionaries, often on the strength of dubious evidence but out of fear that they will be taken as insensitive to some group. [p234]

Dictionary labeling of insult is essentially political and moral. Every major English dictionary today takes a stand on the side of those who deplore racial and ethnic bigotry, oppose discrimination and abuse directed towards women and gays, and endorse diversity of opinion and life styles. Some take a stronger stand than others, using aggressive labels and adopting on occasion a tone of moral urgency, whereas some take a more detached approach. ... [p232]

Thus in decades up to the time of the writing of *NOADI*, a consensus developed that offensive and derogatory implications of *slant* were generally significant enough that

they should at that time be recognized in the dictionary. However, this conclusion appears to have been progressively reconsidered as *NOAD2* and then *NOAD3* appeared.

15. This is not to say that one will not find current dictionaries that still list cautionary usage labels for *slant*. Dictionary makers are by nature conservative, if only because changes are costly and time-consuming, and the process of revising definitions, while ongoing, cannot be immediate. Lexicographers are far more likely to make use of their finite energies in revising central denotations and adding new words than in fine-tuning relatively narrow usage labels for ethnic epithets, even those that may be in the final stages of becoming archaic. As Landau's 2001 comments suggest, it has been safer to proscribe ethnic labels than to ignore them and risk being labeled insensitive. Usage labels take a back seat to more urgent matters:

Making a dictionary is like painting a bridge: by the time that one coat of paint has been applied, the bridge is in need of another. ... [After ten or fifteen years] the language has accumulated too many new meanings and new words; too many of the definitions of the dictionary have taken on new emphases or passed from slang to formal usage or from informal to standard; too much of the book is written with a vocabulary and style that seems odd or baffling to new readers. [Landau, *op cit.*, p396; p 397]

16. It is also not to say that one could never today find *slant* used in a disparaging context. Indeed, ANY racial, national, or ethnic epithet can be used in a derogatory or offensive way if, in context, offensiveness is clearly conveyed. For example, so innocuous a term as *baby boomers* can be used disparagingly and with intent to offend (e.g., "the self-indulgent generation of baby boomers is going to bankrupting this country"). But such a use is not evidence that the word itself is intrinsically disparaging or derogatory, or that the word itself will normally be received as offensive by the persons it is intended to describe.

17. One further sociolinguistic fact that might explain why *slant* is a word that resists inferences of offensive connotations is that the English language offers no viable alternative for ordinary-language description of the genetically determined physiological feature of many Americans of Asian descent that occasioned the epithet in the first place. That is to say, even more than *white*, *blonde* or *blue-eyed*, in any circumstance in which one needs to refer to this particular "Asian" anatomical feature, *slant-eyed* and its clipped form *slant* are virtually a necessity—without viable synonyms. The scientific alternative—PALPEBRAL SLANT (or, more precisely, PALPEBRAL SLANT with accompanying EPICANTHAL FOLD) is so rare that it does not even appear in dictionaries—and even it contains the word *slant*. And the scientific terminology is so recondite and unsettled that even the authoritative, massively unabridged *Oxford English Dictionary* does not to this day contain PALPEBRAL SLANT or EPICANTHAL FOLD (indeed, EPICANTHAL does not appear at all, the *OED* listing only the alternative form, EPICANTHIC). Given that Americans of Asian origin have no term to describe a normal feature of their own bodies except *slant*, it is easy to understand that the term itself would not easily maintain robust connotations of offensiveness.

#### **IV. The Current Acceptability of SLANT as an Epithet of Positive Self-Reference Among Americans of Asian Descent**

18. As an inductive science, lexicography depends heavily on the assembling of empirical data of actual use. Landau cautions that, in deciding about the applicability of such usage labels as "offensive" or "disparaging," the usual lexicographical sources, "citation files and corpora[,] are not of much help" generally (*op cit.*, p233). This is largely because it is difficult to disengage the sense of disparagement that is conveyed by the context of utterance from whatever putative sense of disparagement may be conveyed

intrinsically by the word itself. Even so, such examples of actual usage as I examine in this section are linguistically probative in that they illustrate the non-pejorative self-referential use of *slant* in the public domain by the very persons who would have to be offended by it if it were to be adjudged offensive, let alone disparaging.

19. In Chicago, television station KBC-TV produced a sixteen-episode “entertainment and news series” about “the Asian-American experience right in the middle mecca of the U.S. (in 2009)” which is titled *The Slant*.<sup>3</sup> Some of the 16 episodes broadcast to date are also available on YouTube.<sup>4</sup> No apparent explicit connection is drawn in the website material between the racial epithet *slant* and the Asian-American community in Chicago that the series is intended to serve. While it seems unlikely that the producers of the series were completely unaware of the epithetic use of *slant* and its putatively disparaging connotations, the lack of extensive comment indicates that the name was chosen not as an ironic reclamation of an erstwhile synecdochical derogatory epithet but rather as an unobjectionable term of self-reference which in addition has the basic meaning (as in the *NOAD* definitions shown in ¶11 above), “a particular point of view from which something is seen or presented.”

20. Since 2007, a blog at the address <<http://www.slanteyefortheroundeye.com/>> has continued to discuss issues involving Asian Americans in the United States from the point of view of the Asian American author. Just as is the case with KBC-TV’s *The Slant* program series, the “slanteye” blog simply accepts the term *slant* as a racial epithet of self-reference. Here is the philosophy of the author, as announced in 2007 (underlining

added; <<http://www.slanteyefortheroundeye.com/2009/03/pacific-ties-aapi-blogsphere-and-all.html>>, April 25, 2011):

**What is the goal of Slant Eye for the Round Eye? Did you have any specific intentions in starting the blog?**

Even though there're some great Asian American blogs and voices out there, I still wanted to add my own voice into the mix. I wanted to promote the community, talk about things that mainstream media didn't always touch upon or write about in-depth, as well as just blog about things that mattered to me, from my perspective. In some ways that's one of the main reasons why I blog—to kind of say that sure, I might be an Asian American who blogs, and I might talk about some of the same things that other Asian American bloggers, or Asian American media outlets do, but I'm not the same either. While I'm a part of the community, I'm still an individual, and I think as far as the Asian American community goes, as well as just being a POC [person of color], there's power in that because of our history, because we've sometimes been seen as this homogeneous group who knows no separation from each other, when in reality, there is that separation.

At the same time, I know that a big part of the reason I blog is simply because I love seeing all the great people from our community who do their thing—no matter what it is—I just can't help not talking about it because I do get excited when I see Asian Americans and Asian faces breaking new ground, pushing new boundaries, or just simply being comfortable in who they are and saying to everyone around them, "This is who I am."

On the author's FaceBook page one even finds a coined word, *slanatalicious*, generated in the unselfconscious sense of self-reference (<http://www.myspace.com/slanteyefortheroundeye>>, April 25, 2011):

## **Because We're Asian And We're Slantalicious**

[www.slanteyefortheroundeye.com](http://www.slanteyefortheroundeye.com)

And he also created the following subheading phrase, with still another variation of *slant*:

**Getting To Know Your Slanty**

—which appears on every opening page of the blog. In short, the author of the “Slant Eye for the Round Eye” blog views *slant* as a basic term of self-reference. His use is certainly not disparaging, and the evidence is clear that he does not find it intrinsically offensive or he would not use it so fundamentally and even playfully.

21. Houston, Texas, for the past ten years, has been the site of a film festival called *Slant Film Festival* and subtitled “Bold Asian American Images.”<sup>7</sup> The mission statement of the festival is given as follows:<sup>8</sup>

*Slant: Bold Asian American Images* is an annual shorts film festival in Houston, Texas. *Slant* showcases an eclectic mix of the best short films made by aspiring, emerging and mid-career Asian American artists. Through our film festival, DVDs and performances, we provide a fresh perspective on the Asian American experience. The festival features all genres including narrative, experimental, documentary and animation. Works accepted into the festival often combat tired stereotypes of Asian Americans with quirky comedies and compelling visions.

*Slant* was established in 2001 by Melissa Hung, the founding editor of *Hyphen*, a magazine about Asian American culture. One of the longest-running festivals in Texas devoted to Asian American film and video art, the festival has screened more than a hundred films, many of them showing in Texas for the first time.

From the beginning, *Slant* has made its home at the Aurora Picture Show, a nonprofit microcinema. In presenting this festival, Aurora participates in exploring the power of moving images in crafting identity and community.

Nothing on the *Slant Film Festival* website suggests that the epithet *slant* is at all objectionable to any of the Asian Americans who are associated with the festival. The term simply suggests informal self-reference, with the possible additional sense of *slant* as (again) the *NOAD* definitions shown in ¶11 above indicate, “a particular point of view from which something is seen or presented.”

<sup>8</sup><http://slantfestival.org/about/> (April 25, 2011).

22. *The Slanted Screen: Asian Men in Film and Television*, is the name of a 2006 documentary film that presents “portrayals of Asian men in American cinema, chronicling the experiences of actors who have had to struggle against ethnic stereotyping and limiting roles.” While *slant* in the title is a play on words between *slant* as an informal epithet and *slant* in the meaning “present ... from a particular angle, esp. in a biased or unfair way” (see ¶11 above), there is no sense that *slant* is seen as an objectionable term per se; at most, the film title reclaims *slant* from whatever pejorative past it may have had, and any sense of disparagement is lost in the use of the term as self-reference. As the website writes, the emphasis of the film is on the positive aspects of *slant*:

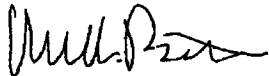

The film presents a critical examination of Hollywood's image-making machine, through a fascinating parade of 50 film clips spanning a century. ... Winner of the Best Short Documentary award at the NY International Independent Film & Video film festival, *The Slanted Screen* envisions a new, exciting future in the entertainment industry, where the diversity of our culture and society is fully recognized and represented.

#### V. Conclusion

23. The contemporary musical band that calls itself *The Slants* has selected a name that corresponds to the twenty-first-century usage of the term *slant* as a racial and/or ethnic term of positive self-reference. Like all ethnic and racial epithets, there may be contexts in which *slant* forms a part of a more general disparaging context of deprecation; one may, after all, say “filthy Swede,” “disgusting lesbian,” or “lying American dog.” But such uses do not make *Swede*, *lesbian*, or *American* intrinsically disparaging or objectionable to Swedes, lesbians, or Americans. While some dictionaries may continue for a while to label *slant* as a pejorative term, this is readily explained by the fact that dictionaries in general lag somewhat in updating entries that undergo shifts

in denotation and connotation, and, particularly with the treatment of ethnic labels, lexicographers are motivated by the understandable desire to play it safe in matters that could possibly provoke controversy, however remote. Moreover, the evidence of the history of entries in *New Oxford American Dictionary* supports the contention that the empirical data demonstrate: even if some Asian Americans in the last century may have felt *slant* to be an objectionable epithet, the term has been reclaimed by contemporary Asian Americans for use as an informal term representing racial and ethnic pride.

I declare under penalty of perjury that the foregoing is true and correct. All statements made herein of my own knowledge are true and all statements made on information and belief are believed to be true.

**cleft.** (Construction) of e.g. *It was my sister (who/that) he married.* In cleft sentences the copula (*was*) is preceded by it and followed by a noun phrase (*my sister*) and a relative clause: distinguished as such from \*pseudo-clefts (e.g. *what he did was marry my sister*).

**cliché.** In the ordinary sense: hence some \*idioms and set \*expressions are clichés; also some other expressions involving habitual \*collocations.

**click.** Sound produced by suction of the tongue against the roof of the mouth. A body of air is trapped between the back of the tongue, which is in contact with the velum, and a second closure further forward. The space enclosed is then enlarged, the air within it is rarefied, the second closure is released, and air flows inwards.

Clicks are an important part of the consonant system in \*Khoisan and neighbouring \*Bantu languages in South Africa; elsewhere mainly in sounds outside the system of phonemes, e.g. the one written 'tutl tutl' in English. Defined by phoneticians as a sound produced by an ingressive velaric \*airstream mechanism. But this is perhaps misleading, since the movement of air is not in reality initiated by the velum.

**cline** = gradience.

**clipping.** Process of word-formation in which an existing form is abbreviated. E.g. *fan* 'devotee, enthusiast' was formed in the late 19th century by shortening *fanatic*, *hi-fi* in the mid-20th century by shortening *high fidelity*.

**clitic.** A grammatical element treated as an independent word in syntax but forming a phonological unit with the word that precedes or follows it. E.g. Ancient Greek *tis* is a clitic in *nésos tis* 'a (certain) island': it is inflected independently (in this case as nominative singular) but accentually it forms a unit with the word for 'island' (basically *nésos*) that precedes it.

From the Greek word for 'leaning': thus unaccented *tis* 'leans on' *nésos*. 'Enclitics' are clitics linked phonologically, as here, to the word preceding. \*proclitics those linked to the word following. The distinction between clitics and \*affixes is naturally fluid: e.g. English *-n't* in *haven't* or *aren't* is a clitic by some criteria but has been claimed as an affix by others. So too is the boundary between clitics and full words: e.g. unstressed *to* is a clitic, by some relevant criteria, in *I have to [haftə] go*.

**clitic climbing.** Syntactic process, e.g. in Italian, in which a \*clitic pronoun or another similar element forms a unit not with the verb to which it bears a direct syntactic relation but with one to which that verb is subordinate. E.g. in *lo faccio venire* 'I make him come', *lo* 'him' is the subject of the infinitive *venire* 'to come', but 'climbs' to form a unit with *faccio* 'make'. Cf. raising (2); also described in terms of \*clause union.

**synaeresis** [sɪ'niəri:sis]. The contraction of two or more syllables into one: e.g. in English, of [ʌɪ] + [ə] (as in *har*) into a monosyllable with a triphthong or a single long vowel. The opposite process is 'diaeresis'.

**synaesthesia**. The stimulation of one sense by another: e.g. the association of different colours with the perception of different sounds. Hence one factor in patterns of phonaesthesia or \*sound symbolism.

**syncategorematic**. (Word) seen as meaningful only in relation to other elements. E.g., in *boys and girls*, the nouns have meanings that can be described independently of the construction; but *and* has meaning only as a coordinator that links them. Cf. grammatical meaning.

**synchronic**. At a single moment in time. A synchronic description of a language is accordingly an account of its structure either at present or at some specific moment in the past, considered in abstraction from its history. Opp. diachronic; see also panchronic.

**syncope** ['sɪŋkəpi]. The loss of unstressed vowels in the middle of a word. E.g. in *secretary*, of the vowel in the next to last syllable: thus ['sekɹɛtri]. Cf. apocope; also aphaeresis, aphaesis.

**syncretism**. The relation between words which have different \*morphosyntactic features but are identical in form. Thus the distinction in English between a past tense (such as *spoke*) and a 'past participle' (such as *spoken*) is **syncretized** in regular forms such as *talked*.

Used especially when the identity is regular across all paradigms. Thus in Latin the distinction between dative and ablative, which was made in the singular in forms such as *puellae* 'girl-DATSG' and *puella* 'girl-ABL SG', was syncretized throughout in the plural: e.g. *puellis* 'girl-DATPL/ABLPL'. 'Neutralization' has often been used in the same sense; see also case syncretism.

**syndeton** ['sɪndɪtən]. The opposite of \*asyndeton. Thus a style, construction, etc. is **syndetic** if clauses are joined by conjunctions.

**synecdoche** [sɪ'nekdəki]. \*Figure of speech in which an expression denoting a part is used to refer to a whole: also, in the traditional definition, vice versa. Hence a term in typologies of semantic change: e.g. *flower* has by synecdoche the sense 'plant bearing flowers'. Often treated as a special case of \*metonymy.

**synesis**. An older term for \*notional agreement.

**synonymy**. The relation between two lexical units with a shared meaning. '**Absolute**' synonyms, if they exist, have meanings identical in all respects and in all contexts. '**Partial**' synonyms have meanings identical in some contexts, or identical only e.g. in that replacing one with the other does not change the \*truth conditions of a sentence.

## **Palpebral slant - eye**

URL of this page: <http://www.nlm.nih.gov/medlineplus/ency/article/003316.htm>

The palpebral slant is the direction of the slant of a line drawn from the outer corner of the eye to the inner corner.

### **Considerations**

The palpebra are the upper and lower eyelids which, viewed together, make up the shape of the eye. A line drawn from the inner corner to the outer corner determines the slant of the eye, or palpebral slant. Slanting and a fold of skin (epicanthal fold) are normal in people of Asian descent.

Abnormal slanting of the eye may be associated with some genetic disorders and syndromes. The most common syndrome associated with an abnormal palpebral slant is Down syndrome. Persons with Down syndrome often also have an epicanthal fold in the inner corner of the eye.

### **Causes**

Palpebral slant may not be associated with any other defect. However, in some cases, it may be due to:

- Down syndrome
- Fetal alcohol syndrome
- Certain genetic disorders

### **Home Care**

There is no special care for palpebral slant. Instead, you should treat the condition that is causing palpebral slant.

### **When to Contact a Medical Professional**

Contact your health care provider if:

- Your infant has abnormal facial features
- You are concerned about your infant's ability to move his or her eyes
- You notice any abnormal color, swelling, or discharge from the eyes

### **What to Expect at Your Office Visit**

Your health care provider will perform a physical exam and asked questions about the person's medical history and symptoms.

An infant with an abnormal palpebral slant generally has other symptoms and signs of a specific condition. Diagnosis of that condition will be based on a family history, medical history, and a thorough physical exam.

Laboratory studies such as chromosome studies, enzyme assays, x-rays, and metabolic studies may be ordered to confirm a suspected disorder.

### Alternative Names

Mongolian slant

*For Sarah*

organized to raise sensitivity to discrimination against them and to exert pressure on government to do something about it. Their success has led to an extraordinary elevation in the public's appreciation of the gravity of the offense of using terms that offend these groups.

This change has not affected all groups equally. The degree of disapprobation given old-fashioned ethnic slurs – *wop, dago, yid, kike, mick, kraut, frog, Polack* – has not changed very much. The ethnic and religious groups represented by these words are well integrated into American society; the use of these words has been declining steadily and is no longer seen as much of a threat. But slurs directed against women, gays, and African-Americans are regarded with special outrage because the language of insult is seen to reflect attitudes that have resulted in the abuse of the rights – and in some cases even the loss of life – of people belonging to these groups. The few sexually taboo words that are still taboo, such as *cunt*, remain so largely because they are terms of insult, not because they offend decorum.

Dictionary labeling of insult is essentially political and moral. Every major English dictionary today takes a stand on the side of those who deplore racial and ethnic bigotry, oppose discrimination and abuse directed towards women and gays, and endorse tolerance of a diversity of opinion and life-styles. Some take a stronger stand than others, using aggressive labels and adopting on occasion a tone of moral urgency, whereas some take a more detached approach, using labels that have the appearance of objective descriptions even when they are not. This position, although it is doubtless also the personal view of most lexicographers, essentially reflects the official views of the government under whose laws the business that produces the dictionary operates. English dictionaries are giving greater attention to the language of insult because governments have instituted laws that punish or suppress behavior against those groups that have organized themselves sufficiently to become an actual or potential political force, and because the weight of public opinion, influenced by corporate culture, university life, and mass entertainment, endorses this position. In the past, when governments did not recognize the equal status of certain groups, and when publishers did not account those groups a significant part of their market, dictionaries were much less likely to label terms that derogated those groups.

It is instructive to see how rapidly a formerly disenfranchised group can increase public awareness about language. *The Doubleday Dictionary* of 1975 was the first to label *queer* for "homosexual" as a contemptuous

term; up till then it was unmarked, though it and other similar slang words were known to be offensive to homosexuals.<sup>16</sup> Homosexuals weren't then recognized as a group having independent social or political power, and they were therefore ignored. Ten years later one could not find a dictionary that did not warn the reader against the use of the term, and, as is the case with many such terms, some members of the in-group who were the object of disparagement have adopted the term *queer* as a gesture of defiance and to promote group solidarity. Eventually the word might lose its pejorative status.

Unfortunately, there are no agreed-upon criteria for finding some usages offensive or contemptuous or abusive. There are few studies that shed any light on the degree of offensiveness of specified terms under specified conditions. What matters is the relationship between the speaker and the spoken to, and between the speaker and the spoken about. Do they know each other well or not at all? Are they members of the same in-group? A woman who is speaking to a close female friend and who calls another woman a "girl" is not likely to cause offense, whereas a man's use of the word to a female business associate probably would. This kind of analysis depends upon usage notes, which dictionaries do try to include wherever possible. Labels cannot tell the whole story.

Insult can be affectionate. There is no basis for the flat assertion that any term is insulting under all conditions, no matter how offensive it may be under some. In practice dictionaries' labels of insult are based on the assumption that the speaker does not know the person spoken to well or that both do not belong to the same in-group. The advice is only about public behavior, since many reputable members of society routinely use terms of insult in private among like-minded people to whom these words are not in the least offensive. It is only when they miscalculate and use such terms when not among like-minded people that they offend.

How do dictionary editors decide what to label offensive or disparaging? It is based on the editor's judgment of society's norm for the limits of reputable public behavior. He consults slang dictionaries and other written sources, including other general dictionaries. Citation files and corpora are not of much help. Though the language of insult is common in fiction, the context in which it occurs is often between intimates who share the same prejudices; no one is insulted. Even when fiction does record the use of an insulting word said in anger, the brief context of a citation or a few lines of text in a corpus search is seldom sufficient to show that the person addressed is insulted. *Because* the writer expects us

to understand that the language is insulting, the behavior of the characters often does not exhibit a shocked reaction. Indeed, one of the problems in using a corpus based on fictional speech is the high prevalence of insult. Often I have found myself unable to use an otherwise excellent corpus citation to illustrate a perfectly inoffensive term because it was embedded in a context that included disparaging or grossly insensitive comments about women or a minority group. To include such comments even within quotation marks would invite charges of bias and insensitivity from readers. In determining whether a particular usage is insulting or not, the lexicographer is compelled to use his own experience, moderated of necessity by his own moral views, whether consciously or not.

If, in the past, dictionaries were too slow to label terms of insult, they now seem too quick to do so. Many hundreds of terms are now labeled as *disparaging*, *contemptuous*, or *offensive* in dictionaries, often on the strength of dubious evidence but out of fear that they will be taken to be insensitive to some group. The *Encarta World English Dictionary* (EWED) has carried this trend to an extreme. EWED considers almost any word offensive that has to do with mental or physical incapacity, mental mistakes, sex, age, or race. It considers the word *mudness* offensive, and one can't call someone a *nut* or *nutty* or a *nutcase* in its book without being offensive. *Heido* is off limits, and no one can be a *basket case* or a *vegetable* or *off his (or her) rocker*, *screwed up*, *schizoid*, or *handicapped*.<sup>17</sup> EWED makes no distinction between words used humorously or affectionately and words used to insult. So among the words it labels *offensive* are *jenk*, *schmook*, *klutz*, *loony*, and *crazy*. It views the language as a fortified castle of virtue, and every battlement is equipped with a cannon loaded with warnings.

#### *A racial taboo*

Although most linguistic taboos deal with sex or scatology, in recent years taboo has been extended to the racial epithet *nigger*. For many years *nigger* had been labeled as a contemptuous term in dictionaries and treated similarly to ethnic and religious slurs. But a singular event in recent history has raised the consciousness of a wider public to the offensive status of *nigger* and made it unique, promoting it to the level of a taboo.

No greater testament to the power of language use could be measured than the televised trial of former football star O. J. Simpson, in a case

## REVISING AND ABRIDGING A DICTIONARY

Making a dictionary is like painting a bridge: by the time one coat of paint has been applied, the bridge is in need of another. Just so, before a dictionary has been published one should start making plans for its revision. In spite of all the care that goes into its preparation, the first edition of any dictionary contains numerous errors. Computerized composition allows one to make changes at less cost and much later in the process than was formerly the case, but, even so, once the final text has been released to the compositor for preparation of the final tape with printers' codes, the time is past for going back to the database. From then on, any changes must be made the old-fashioned way, by cutting and stripping in text on film. This should be done only for very serious errors, as it is expensive, risky, and introduces a disparity between the printed book and the database which could cause trouble later on. Every change made renews the possibility of fresh errors, necessitating still further changes. Therefore, generally speaking, no further changes are allowed once the text has been released to the compositor for the conversion of editorial codes to printers' codes. Every dictionary should have an ongoing correction file, where no error is too trivial to be noted. Occasionally users will draw one's attention to an error, but most errors and omissions are observed by the dictionary staff itself. As in-house dictionary staffs are cut back, the discovery and correction of errors for subsequent editions will inevitably suffer as a result.

College dictionaries are revised every ten years or so, but they are updated every year or every other year, chiefly in order to provide themselves with an up-to-date copyright date. Commercial publishers tend to feel that their dictionary's copyright date must be as current as that of their competitors, and thus demand frequent updatings, some of which are merely cosmetic, involving only a few score of minor changes and perhaps updated population figures. On the other hand, some updatings are far more extensive, consisting of several hundred significant changes and including the insertion of many new words and new senses. Even such a revision, however, would be quite invisible to most dictionary users who compared the old edition with the new. Updatings, whether comparatively extensive or trivial, do not involve a rekeyboarding of the entire dictionary or a redesign of the dictionary's style. They consist of selective changes on certain pages, even if called extensive, and compared to the volume of material that is unchanged, the amount of altered material is minute.

A genuine revision is another matter.<sup>28</sup> A revision, as I use the word here, implies a complete reexamination of the previous edition, new keyboarding of substantial parts of the text, and frequently the alteration of some design elements. The new edition ordinarily does not have the same number of pages as the old edition, and the title usually indicates that the dictionary has been completely revised. This does not imply that every entry of the new edition is entirely different from the corresponding entry of the old; far from it. It implies only that every entry has been critically reexamined, exactly as I have described how the review editor reexamines the work of the first definer. In this instance, the work of the "first definer" is often finely polished and in need of nothing more than a slight shift in emphasis or a modernized phrasing. Sometimes it cannot be improved and is best left alone. The important point is that it is reexamined in light of current evidence in the corpus or citation file.

Why cannot dictionaries be continually updated instead of being revised, especially now that they exist as computer databases? As I wrote in the Preface to *The Doubleday Dictionary*:

Dictionaries may be updated by the substitution of some new entries for old entries, and for the first few years after publication, such a procedure may work very well. But when a dictionary passes the ten- or fifteen-year-old mark, updating takes on a desperate character. Substituting a few new entries for old entries in such a book is like bailing out a swamped boat with a sieve. The language has accumulated too many new meanings and new words; too many of the definitions in the dictionary have taken on new emphases or passed from slang to informal usage or from informal to standard; too much of the book is written with a vocabulary and in a style that seems odd or baffling to a new generation of readers. Only a fresh examination of the entire range of possible entries, with careful attention to examples of current usage and the assistance of special consultants in the sciences and other fields, can provide an adequate basis for a thoroughly up-to-date dictionary.<sup>29</sup>

Revisions follow much the same process that I have outlined in this chapter for new dictionaries, but are made immensely more manageable by having a solid basis from which material may be selected and used or rewritten, and especially by having a computerized database to work with. Perhaps in no other area of dictionary making has computerization made more of a mark than in revising and in preparing derivative works, which can now be edited much more quickly and efficiently. If every type of item in a dictionary is coded uniquely – for example, etymologies – that item can be very simply deleted, or presented in a separate file to be edited down to a shorter length. Many other changes of

### PHYSICAL TRAITS

About one in five ethnic epithets in American English refers to supposed physical traits of groups. These are allusions to color, to shapes of eyes, heads, noses, and lips, and to hair texture. Epithets that refer to physical traits are mostly interracial slurs. Nearly half of all interracial slurs (whites slurring blacks, Asians, and Native Americans—and these racial minorities slurring whites) refer to real or imagined physical differences. Whites have called Asian-American groups *slant eyes* and Asians have begun calling whites *round eyes* as a comeback. Jews were called *eagle beaks* and blacks *broad noses*. African Americans were also called *wooly heads* and blacks, in turn, called whites *silks*, an allusion to thinner, straighter hair.

INDIANS  
: Most references to physical differences are to skin color, which affirms what we have always known about the significance of color in human relations. Asian groups were called *yellow* this and that and Native Americans were called *red-skins, red men, and red devils*. Most slurs on skin color appear in the name-calling between whites and blacks. Whites have slurred blacks with a profusion of terms that allude to dark skin (*blue, darky, shade, smoke*) and blacks, tit for tat, have slurred whites (*chalk, grey, pink, pale*). A large number of white terms for African Americans were *black* this or that, such as *black bird*, or else a word for something—anything—black in color, such as *coal, charcoal, skillet, tarpot*, and a host of others.

### CHOCOLATE IS BROWN AND SO ARE YOU

A bizarre feature of making derisive names about color differences is the many references to the color of foods. A perennially popular derisive name for African Americans is

**slant.** An Oriental, or any vaguely Oriental-looking person with slanted eyes. "To the G.I. the Vietnamese . . . is a 'gook,' 'dink,' 'slope,' or 'slant' " (*Time*, 12/5/69). *Slant*, dating from the start of World War II, is short for *slant-eye*. (The OED traces the adjective *slant-eyed* to 1865 in its Oriental sense.) *Slant-eye* is opposed, of course, to the Occidental *round-eye*. A variant of *slant-eyed* is *slitty-eyed*. During Queen Elizabeth II's visit to China in 1986—the first ever by a British monarch—Prince Philip remarked to a British student, who said he had been in China for six weeks, "If you stay over here much longer, you will go back with slitty eyes" (*New York Times*, 10/18/86). This wisecrack raised eyebrows of all sorts all around the world, resulting in such headlines back home as *The Sun's* "Philip Gets It All Wong." See also GOOK.

##### SHOWN LOG:

##### EPISODE 16:

Episode Sixteen is the RIBFEST SPECIAL! Our crew goes out to Chicago's Ribfest to bring you another episode. And yes, we're still eating with our Flavor of the Week. Kristine checks out Essence of India, while Connie eats at Tiffin. Then they burn it off with Chicago Summertime Adventures Pt. 2 and the Chicago Sport and Social Club. But what's summer without ice cream?! They check out the Chocolate Shoppe Ice Cream. We have a music video for our Mash-Up Music by The Juan MacLean. Finally, more and more RIBS!

##### EPISODE 15:

Episode Fifteen shows the physical side of things. Nathalie sits down with Babes with Blades's Kim Fukawa. Then AC checks out the upcoming Korean American Olympics to be held in Chicago. Kristine has a sit down with the one and only, Tammy Duckworth. Then she explores the home of "The Slant," Channel 41 KBC-TV Studios. And finally our Mash-Up Music performance is by Mer.

##### EPISODE 14:

Episode Fourteen shows "The Slant" viewers how to kick off their summer! First, support a good cause through the 3 Doves Foundation in our Night Shift. Then read a good book by author Paula Kamen and watch a grand play by The Silk Road Theater Company. After that, you can fall into Chicago jazz by listening to Yoko Noge. And if you're not tired yet, how about a massage at the Cortiva Institute and an Italian Ice from Mario's Italian Lemonade stand. Whew!

##### EPISODE 13:

Episode Thirteen gives Connie Lee her overflow of reports! First she has a talk with Phil Lee of the Chi-Town Project. Then she makes her way to the Gene Siskel Theater for the Hong Kong Film Festival in Plus Movies. Stefanie raps with Chris Limb

and talks B-Boy Battles. Then Connie comes back with the art of Eulalia Fabie De Silva. We finish up with our Mash-Up Music from the talented Aloha Lives!

EPISODE 12:

Episode Twelve features a flurry of variety. First we give you info on the Asian American Institute in our Affiliation Effect. Then Kristine digs in on Thai food at Bodhi Thai Bistro. Afterwards, our reporters (including Marco!) learn some polynesian dancing. Our Flavor of the Week continues with Nathalie at Thai Bowl. And then our Mash-Up Music features a video by Mr. Dawen Wang.

EPISODE 11:

Episode Eleven gets some stage time! First Connie interviews members of the Circa Pintig Theater Company. Then Kristine shares info on a good cause with DJ's Who Care / 3 Doves Foundation. We also sit down with Ms. Baayork Lee of A Chorus Line fame. Christine Marie checks out the Calvin Tran spot in Slant Styles. And our Mash-Up Music performance is coincidentally named, "Slant!"

EPISODE 10:

Episode Ten has the craving for Chinese food as the Flavor of the Week. Kristine starts it up by visiting Yu's Mandarin Restaurant. Then Connie gives us a Plus Movies report on a couple of indie filmmakers featured in Chicago's Asian American Showcase. Our Flavor of the Week continues at Lao Beijing. And finally, our Mash-Up Music kicks it with the one and only, M.C. Jargon.

EPISODE 9:

Episode Nine of "The Slant" gets educated on the Asian/Asian-Americans supporting the Chicago bid for the Olympics in 2016. Then we read up on the Secret Identities comics in our Spotlight Profile. Our Night Shift takes us to Dragonfly, then we kick it with the comedian, Jo Koy. The Mash-Up musical performance is brought to us by Kris Racer.

EPISODE 8:

Episode Eight begins with the craft of writing in our Affiliation Effect on the Neighborhood Writing Alliance. Kristine sits down with artist, Laura Kina, in our Spotlight Profile. Then Stefanie gets with D.J. Euromix a.k.a. Vic Melecio on all his projects. Connie and Kristine learn some martial arts moves with Extreme Kung-Fu. A.C. has the band Bagwis for our Mash-Up music performance.

EPISODE 7:

Episode Seven starts up with your Affiliation Effect and gives you an inside scoop on the Asian-American Journalists Association (AAJA). The Night Shift brings Stefanie to Vision NightClub and the CSG crew. Kristine has our Spotlight Profile with Chien Yuan from "Actually, Records," while Connie gives us all the info on the Desi Idol singing competition. We close-up with a Mash-Up music performance from Christine Marie.

# Slant Eye For The Round Eye

**Bill Imada, Outsourced, And Guy Aoki**  
Tuesday, November 23, 2010

Caught this article down at Advertising Age and wanted to pass it on.

"It would have been more ground breaking and refreshing if [NBC] had an Indian American as the star -- someone who had to go to India but has no knowledge of the culture or language," states Guy Aoki, founding president of Media Access Network for Asian Americans (MANAA). Aoki believes that casting an Asian-American actor as the "Outsourced" lead character would have forced viewers to put aside their preconceived notions about Asian Americans, who are often viewed as perpetual foreigners because of the way they look. According to Aoki, "It would send the message that we can't assume that someone with an Indian face is a foreigner and not as American as anyone else. Maybe [NBC] could introduce a character like that in the future."

But even Aoki agrees that the program has merit.

"Outsourced' is positive in that it tackles the issue of outsourcing jobs head-on," notes Aoki, who has taken on the networks and studios for not portraying real-world issues and challenges. "I was surprised that people would watch a series about Indians at call centers because there is so much resentment about American jobs going to India."

**Jonathan Lee: Teach 'Em Young**  
Monday, November 22, 2010

If you think you need to be of driving age to stage a demonstration in Tiananmen Square (trying to get the DMZ between North and South Korea turned into a peace park) where only minutes later you get picked up by Chinese authorities - [think again](#).

Being thirteen will suffice.

A 13-year-old American boy campaigning to turn the demilitarized zone between North and South Korea into a peace park tried to get the Chinese president's attention Monday, staging a brief protest near Tiananmen Square before being led away by police. Jonathan Lee unfurled a

**Cops Beat Down Asian Americans As Old As Your Grandma. With Mace.**  
Wednesday, May 11, 2011

000 / 1:40

I don't even know what to say to this.

How do you beat down old people? How do you threaten someone's grandpa with Mace and use force that you clearly don't need to use because of the size, weight, and obvious age difference, while all along, your buddies - including from what I saw two APA faces - are beating down another man until he's bleeding from the face (and they actually used the mace on him from what I understand)?

What possesses you to do that?

While the story is still unfolding - and technically no one knows why the possibly 60 year-old man was getting his ass kicked in a scene that I can only imagine a gang rape might start out like - [The Gothamist](#) at least reports that "every Saturday and Sunday for years now a group of senior citizens have gathered in the park to sing songs and make music".

No comment yet from the NYPD.

## Slant Film Festival

Bold Asian American Images

---

### About

Melissa Hung, curator of Slant, jumps for joy in front of the Aurora Picture Show office.

**Slant: Bold Asian American Images** is an annual shorts film festival in Houston, Texas. Slant showcases an eclectic mix of the best short films made by aspiring, emerging and mid-career Asian American artists. Through our film festival, DVDs and performances, we provide a fresh perspective on the Asian American experience. The festival features all genres including narrative, experimental, documentary and animation. Works accepted into the festival often combat tired stereotypes of Asian Americans with quirky comedies and compelling visions.

Slant was established in 2001 by Melissa Hung, the founding editor of Hyphen, a magazine about Asian American culture. One of the longest-running festivals in Texas devoted to Asian American film and video art, the festival has screened more than a hundred films, many of them showing in Texas for the first time.

From the beginning, Slant has made its home at the Aurora Picture Show, a nonprofit microcinema. In presenting

this festival, Aurora participates in exploring the power of moving images in crafting identity and community.

PICTURE SHOW

The [Aurora Picture Show](#) is a 501(c)(3) nonprofit cinema dedicated to non-commercial film, video, and media. Aurora has distinguished itself as a home for vanguard work that falls outside of conventional moviemaking and traditionally has fewer exhibition outlets. Our screenings are in a variety of spectacular settings and non-traditional venues and we strive to make our film events memorable.

Founded in 1998, the Aurora Picture Show is the only microcinema of its kind in the Southwest. *Art in America* has called it “one of the most interesting and unusual new spaces in Houston.”

USA | 2006 | 60 minutes | Documentary | A film written, directed and produced by Jeff Adachi

"Highest recommendation... *The Slanted Screen* hits all its marks." —SF Chronicle

"This is such a compelling social reality!" —Asian Week

"Well-researched study of how Asian American men have been stereotyped..." —The Bay Guardian

"The Slanted Screen brings into focus the most dangerous aspect of prejudice..." —The Evening Class Review

From silent film star *Sessue Hayakawa* to *Harold & Kumar Go to Whitecastle*, *The Slanted Screen* explores the portrayals of Asian men in American cinema, chronicling the experiences of actors who have had to struggle against ethnic stereotyping and limiting roles. The film presents a critical examination of Hollywood's image-making machine, through a fascinating parade of 50 film clips spanning a century.

*The Slanted Screen* includes interviews with actors **Mako**, **Cary-HiroYuki Tagawa**, **James Shigeta**, **Dustin Nguyen**, **Phillip Rhee**, **Will Yun Lee**, **Tzi Ma**, **Jason Scott Lee**, comedian **Bobby Lee**, producer **Terence Chang**, casting director **Heidi Levitt**, writer **Frank Chin**, and directors **Gene Cajayon** and **Eric Blyler**.

The film was written, directed and produced by **Jeff Adachi**, co-produced and edited by **Alex Yeung**, with the opening music, titles and credits by **Sean Dana**. **Michael Becker** composed the musical score and the post-production sound and audio. The film also features a new song performed by the San Francisco rock-punk band **Say So!** (*Real*).

Winner of the Best Short Documentary award at the NY International Independent Film & Video film festival, *The Slanted Screen* envisions a new, exciting future in the entertainment industry, where the diversity of our culture and society is fully recognized and represented.

## SYNOPSIS

They call Hollywood a "dream factory." And it's an appropriate metaphor. Like dreams, the stories we watch in the dark express our fears and desires. But unlike dreams, they have a powerful and lasting effect on social reality. Movies and the mass media help form our worldview, shape our identities, and define our roles – on screen and off.

Unfortunately, these effects frequently work to the detriment of some groups – including Asian American men. Too often, film and television misrepresent the world they claim to reflect. Their stories revise history, and rationalize inequities. Rather than to portray three-dimensional individuals, their characters often manifest prejudice and reinforce bigotry. Moreover, their ubiquitous and persistent messages encourage viewers to internalize confining definitions of identity and self-worth.

Ironically, film and television images extol our fundamental ideals of democracy and equality, and at the same time, betray them.

Through interviews, voice-over narration, and a fascinating array of film and television clips, *The Slanted Screen* chronicles depictions of Asian American men and the culture that shapes them. The one-hour documentary presents film and television images from the turn of the century to the turn of the millennium. *The Slanted Screen* properly situates these images through historical narration,

clips and photos.

In addition, *The Slanted Screen* presents candid interviews with actors, filmmakers, and scholars who share their unique insights and illuminating perspectives. Scholars provide their informed analyses of the interplay between images and attitudes. Veteran actors comment on their role in shaping the way Asian Americans are perceived in mainstream media. Newer talents give their account of the current cultural climate, and contrast their situation with that of their predecessors. Producers, directors and writers comment on their contributions and voice their opinions. Emerging independent filmmakers discuss how their work challenges conventional depictions of Asian American men. These participants not only share their anecdotes and "insider" views, but also reveal disarmingly candid sentiments and personal insights.

*The Slanted Screen* integrates these diverse voices to offer a rich and thorough exploration that is, by turns, enlightening, amusing, and disturbing. Above all, *The Slanted Screen* entertains — and ultimately, inspires.

**EXPERT REPORT**

Charlton D. McIlwain, Ph.D. & Stephen Maynard Caliendo, Ph.D.

This report is being submitted on behalf of the Applicant, Simon Shiao Tam, in support of his application for trademark registration as noted above. The undersigned, being warned that willful false statements and the like are punishable by fine or imprisonment, or both, under 18 U.S.C. § 1001, and that such willful false statements and the like may jeopardize the validity of the application or document or any registration resulting therefrom, declare:

## **I. Assignment**

1. We have been asked to design and field a survey among members of the Asian/Pacific Islander (API) community as to their opinions about whether the name THE SLANTS, or variations thereof, is salient to members of that community as a disparaging term.

## **II. Summary of Conclusions**

2. Few members of the API community view THE SLANTS as a disparaging term.

## **III. Qualifications**

3. Stephen Maynard Caliendo is a Professor of Political Science at North Central College, and Charlton D. McIlwain is an Associate Professor of Media, Culture & Communication at New York University. For more than a decade they have collaboratively produced scientific research on issues related to the construction and effects of racialized language and visual imagery in the context of political and commercial advertisements, popular culture artifacts (such as music, television, film, etc.) and interpersonal interaction. They are experts in survey/experiment design, statistical data analysis, and quantitative/qualitative content analysis. They have conducted survey/experiment research that has been accepted and sponsored by the National Science Foundation and the Time Sharing Experiments for the Social Sciences (TESS). Together, they have published three books related to these subjects and ten refereed journal articles and invited book chapters in publications such as the

*American Behavioral Scientist*, the *Harvard International Journal of Press/Politics*, the *Journal of Black Studies* and others. They also serve on the editorial boards of or serve as peer reviewers for some fifteen of the most prominent journals within the fields of media and communication studies, political science and cultural studies. They frequently give public lectures about these topics to university audiences across the country and are regularly sought out by national and international media outlets (such as CNN, *The Washington Post*, Associated Press, Reuters, National Public Radio, and many others) for their expertise in these matters. Additionally, McIlwain has been retained as an expert witness in two legal cases, involving issues related to the uses of racialized language and imagery, having testified in one of those cases.<sup>1</sup> A copy of Dr. McIlwain's curriculum vitae, detailing his educational background, professional experience, teaching areas, and publications is attached hereto as "Exhibit 1." A copy of Dr. Caliendo's curriculum vitae, detailing his educational background, professional experience, teaching areas, and publications is attached as "Exhibit 2."

---

<sup>1</sup> Retained as an expert for the plaintiffs, but not testifying (due to case settlement) in *Odessa Lewis,....Susie Cropper, et al.*, Plaintiffs, vs. *Woodlawn Memorial Park, an unknown California business entity; Evergreen Memorial Care, Inc., et al.*, Defendants. Superior Court of California, County of Los Angeles. No. BC 227267. Retained and testified in *Barkley, et al v. United Homes, et al.* U.S. District Court, Eastern District of New York, 2008-2011 (deposition testimony September 23, 2009; trial testimony May 11-12, 2011). Dr. Caliendo has not testified in any cases.

#### **IV. Methodology**

4. **Design.** Surveys are scientific methods for assessing public opinion about a wide range of issues, including issues about the significance of and potential regard for various forms of language. In accordance with acceptable methodological protocols, we designed a survey questionnaire to assess how members of the API community in the United States think and feel about the term THE SLANTS, specifically whether they view the term as disparaging. Consistent with this primary goal, we designed a set of questions that addressed the issue of potential disparagement in different ways. Consistent with accepted scientific practice, we paid particular attention to both question wording and question order – the latter so as not to unnecessarily prime respondents to think about matters that might shape their responses in later questions. Similarly, we followed appropriate guidelines in the answer/selection choices provided for each question. The questions that were asked (and the corresponding answer/selection choices that were provided) are set forth on “Exhibit 3.”

Participants viewed the survey one page at a time (in the order the survey pages are presented in Exhibit 3), and thus only viewed the particular question(s) that appears on each respective page as presented in Exhibit 3. Further, once participants answered the question(s) on each respective page, they were prohibited from returning to prior questions in the survey, thus ensuring no revision to their original answer choice.
5. **Sampling Selection and Characteristics.** This survey relied on a convenience sample. Using a well-known and well-regarded online survey platform, invitations to

complete the survey were sent to potential respondents via email. Invitations to participate were also distributed in the form of an Internet URL link posted on a variety of websites frequented by members of the Asian American community, such as *AngryAsianMan.com* and *AARising.com*. The link was also circulated via individuals' personal networks on prominent social networking sites such as Facebook and Twitter. The advantage of convenience samples is that it is less financially burdensome than fielding a random, national sample survey (the cost of which is quite prohibitive – into the tens of thousands of dollars). Additionally, it is an efficient way to reach and recruit respondents. The primary disadvantage is that convenience samples are less likely to be representative of the population being sampled. In this survey, we did everything possible to compensate for this limitation by fielding the survey for a period of time that would allow enough people from various demographics to participate and by having the survey invitation links placed on websites that are not only frequented by members of the API community, but by a broad diversity of the members of that community. The following are characteristics of the sample: There were three hundred, ninety-six participants who completed all or some of the survey. Of those, twenty-one were excluded because they self-identified as some other race/ethnicity besides Asian/Pacific Islander. Three hundred seventy-five respondent surveys remained for analysis. Of this pool: 47% were male, 37% female. While the mean age of respondents was thirty, 39% of respondents ranged from ages thirty-one to seventy-one. Fifty-two percent of the respondents had four-year or postgraduate degrees, though an almost equal percentage of respondents were

less educated, ranging from 2-year degrees to only eight years of schooling. Seventy-five percent of respondents are clustered among the middle to low income brackets (\$75,000 annually and below). Thus, while this convenience sample is less than ideal, we feel confident that there is more than enough diversity among the participants to allow us to extend our conclusions beyond this sample of API community members.

## V. Results

6. **Few respondents agree that THE SLANTS is disparaging.** We posed the following statement to participants: *I find the name of the group THE SLANTS to be disparaging.* Only 16% of participants agreed with that statement in some way. By contrast, 46% of participants disagreed with the statement. The remaining 38% participants were ambivalent, saying that they neither agreed nor disagreed. Thus, if there is any strong feeling, it is in the direction of viewing THE SLANTS as a term that is not disparaging to members of the API community.
  
7. **Fewer agree that THE SLANTS is disparaging when learning that the group's membership is entirely Asian.** Once the statement is qualified in the following way – “If I learned that the group THE SLANTS is comprised entirely of Asian Americans, I would not think that the name is disparaging” – a majority of respondents indicate that they have strong leanings in the positive direction by agreeing or agreeing strongly with the preceding statement. Consistent with this trend, after learning that the group is comprised of all Asian Americans, 8% fewer

respondents – a statistically significant decline<sup>2</sup> remain in the ambivalent category in their response to this statement.

8. **Age is not a factor.** Given that language usage and meanings change over time, it would be reasonable to expect that people of different age cohorts might have different opinions about a term like SLANTS. However, these results demonstrate that age is not a factor. Given that the mean age of the survey respondents was thirty, we compared those thirty and under with those over thirty. Doing so showed no statistically significant difference between the two age groups on the survey statements referenced above. Age was not a factor in participants' opinions about whether they find *THE SLANTS to be disparaging*;<sup>3</sup> or whether they find it less disparaging when knowing the group consists of all APIs.<sup>4</sup> Even when the age comparison is adjusted to compare respondents under and above the age of forty, there still remains no significant difference between the two groups on each of these questions.

---

<sup>2</sup> Chi-Square comparison between those ambivalent in the first question and those who remain so after learning the group is comprised of all Asian Americans yields a statistically significant p-value of .06.

<sup>3</sup> The comparison on this question yielded a Chi-Square statistic of 3.67 and a non-significant p value of .45.

<sup>4</sup> The comparison on this question yielded a Chi-Square statistic of 44.38 and a non-significant p value of .58.

## VI. Conclusion

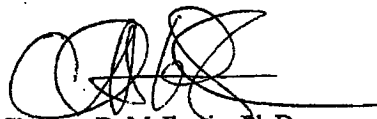

9. The abundant lack of recognition of SLANTS as a potentially disparaging term; the widespread disagreement that SLANTS is a disparaging term; the greater disagreement demonstrated once the members of THE SLANTS are known to be Asian American; and the lack of age distinction on these matters, taken together, convincingly demonstrates that, partially because it is an outdated as a racially disparaging term, THE SLANTS is not generally viewed as a disparaging term to members of the API community. And while any term has some potential to be disparaging depending on the intention of its user, the results here are consistent with the anecdotal evidence that suggests that SLANTS, and variations of the term, are recognized as a commonplace designation of positive self-reference among many in the API community.

### PROFESSIONAL EMPLOYMENT

- Fall 2005-present Professor of Political Science, North Central College, Naperville, Illinois
- Summers*  
2000-2010 Faculty Member, Junior State of America  
Junior State of America is a non-partisan organization run by high school students and backed by a not-for-profit foundation that seeks to promote participatory democracy ([www.jsa.org](http://www.jsa.org)). I have worked for the foundation since 2000 in various capacities.
- 2000-2010 *Instructor, JSA Summer School, Princeton University, Princeton, NJ*  
Taught the American Presidency (2000), American Government (2001 and 2002), Political Communication (2003, 2005-2007, 2009-10), and Campaigns and Elections (2004, 2008) to advanced high school students for one month. Evaluated students' performances in "congressional workshops" (2000-2009) and delivered commencement addresses (2000, 2002, 2004).
- 2005-2010 *Instructor, JSA Preparation Program*  
Provided preparatory instruction for one week to students in the Republic of Palau (2005; 2007-2009) and Guam (2006) who were to attend JSA Summer Schools at Georgetown, Northwestern, Princeton, Stanford or Yale. In summer of 2010, I worked with the students at Princeton for a week prior to the start of summer school.
- 2004; 2008 *Instructor, JSA National Symposium at the Democratic National Convention*  
Provided academic instruction and helped to coordinate student activities at the conventions. In 2008, I coordinated and directed the Student Correspondents Program.
- Fall 2001-Summer 2005 Associate Professor of Political Science, Avila University, Kansas City, Missouri
- Fall 1998-Summer 2001 Visiting Assistant Professor of Political Science, University of Missouri—St. Louis, St. Louis, Missouri
- 1997-2000; 2004-2005 Faculty Consultant (Reader), Advanced Placement U.S. Government and Politics, Educational Testing Service, Princeton, New Jersey  
Graded Advanced Placement essay exams during a one-week session each June.

DECLARATION OF JOSEPH SANTOS-LYONS UNDER 37 C.F.R. § 2.20

I, Joseph Santos-Lyons, being warned that willful false statements and the like are punishable by fine or imprisonment, or both, under 18 U.S.C. § 1001, and that such willful false statements and the like may jeopardize the validity of the application or document or any registration resulting there from, declare:

1. I am the coordinator for a statewide pan-Asian, pan-Pacific Islander community organization, the Asian Pacific American Network of Oregon. I have 20 years experience in community development, community ministry and policy advocacy with this community. I am biracial Chinese and Czech. Previously I have served as staff for the Immigrant and Refugee

Community Organization, the Unitarian Universalist Association, and the Coalition for a Livable Future. I am ordained and affiliated with the First Unitarian Church of Portland.

2. I served as a member of the steering committee for the Asian American Youth Leadership Conference (AAYLC) in 2009. My duties included acting as a liaison for community groups and organizations. I was also responsible for the AAYLC Career Fair and Career Workshop, working with the local organizations Asian Pacific American Network of Oregon (APANO) and the Immigrant Refugee and Community Organization (IRCO). I have also worked directly with the Oregon Commission on Asian Affairs (OCAA) on multiple occasions throughout the years. The AAYLC 2009 event was one of those occasions.

3. In January 2009, Simon Tam (aka "Simon Young") was selected as one of five keynote candidates for the AAYLC 2009 event. The AAYLC chairman, Paul Van Mai, recommended Simon and The Slants because their work within the Asian American community, both locally as well as nationally, fit the annual theme of "Aspire to Inspire." On February 11, 2009, we selected Simon Tam as a keynote and invited The Slants to perform at the event. The decision was reached through a majority vote and an announcement was made to sponsors, the committee, and schools involved.

4. On February 25, 2009 the event planning committee reviewed The Slants CD titled *Slanted Eyes, Slanted Hearts* because there were concerns about potential lyrical content raised by Portland Christian High School. Although the AAYLC planning team concluded that there were no profane lyrics or overly sexual tones, it was agreed to not have The Slants perform a concert at closing but to have students create short films built around the theme "Aspire to Inspire" instead. The decision was based on wanting to completely alleviate concerns raised by

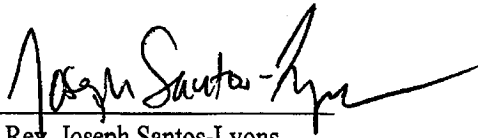

Portland Christian High School regarding lyrical content, as well as on the ultimate realization that the AAYLC would not be able to accommodate The Slants' performance logistically due to a limited budget. The decision was not in any way based on the band's name.

5. One of the event sponsors, the Oregon Commission on Asian Affairs (OCAA), was concerned about involving The Slants, the OCAA indicating that some state legislators viewed the term "slant" as an offensive slur. The OCAA's primary concern was that these state legislators might be upset if the names "OCAA" and "The Slants" appeared together in written materials. Originally, the AAYLC was going to return the OCAA sponsorship check and keep Simon Tam slated as keynote speaker. However, due to financial difficulties and the concern that there would be limited sponsorship money raised for the year, as well as concerns about perceived risks, the AAYLC planning committee decided to choose another speaker, Kilong Ung. This was one of the most difficult decisions reached by the committee and one that was regretted by both the AAYLC and members of the OCAA.

6. There were no formal complaints or protests over The Slants' name by other event sponsors, supporters, or members of the Asian American community. Simon Tam and The Slants remained involved with the youth leadership conference event as sponsors and their names were printed in the 2009 program guide without hesitation. Even after printing The Slants' name in the program, no complaints were received, including by the OCAA.

DECLARATION OF MELISSA HUNG UNDER 37 C.F.R. § 2.20

I, Melissa Hung, being warned that willful false statements and the like are punishable by fine or imprisonment, or both, under 18 U.S.C. § 1001, and that such willful false statements and the like may jeopardize the validity of the application or document or any registration resulting there from, declare:

1. I am the founder and curator of *Slant: Bold Asian American Images*, a film festival based in Houston, Texas now in its 11<sup>th</sup> year. I am also the founding editor of Hyphen, a national Asian American media organization, and a member of its board. I have worked with the Asian and Pacific Islander American community for 15 years in media, the arts, and activism.

2. My festival, *Slant: Bold Asian American Images*, colloquially known as the *Slant Film Festival*, is a nationally known annual shorts film festival in Houston, TX. *The Slant Film Festival* is dedicated to showcasing varied narratives of Asian Americans and explores the power of moving images in crafting identity and community. Each year, our festival serves as a vehicle for celebrating the best short films made by aspiring, emerging, and mid-career Asian American artists.

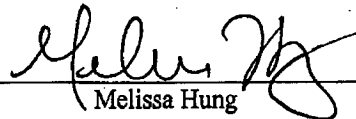

3. The *Slant Film Festival* is now in its eleventh year. At least half of the attendance for the film festival is comprised of members of the API community. We've had coverage from the mainstream media, including the Houston Chronicle, Houston Press, as well as Asian media such as Asian Week, AngryAsianMan.com, and Yellow Mag. Throughout the entire time the festival has been running, and, even with the heightened attention from the media, there has only been a single instance where someone has contacted us to express concern about our use of the term "slant" in our name.

4. I am familiar with *The Slants*, a musical group that addresses issues of the Asian American experience in their music. The group's mission, one which seeks to spread awareness of API identity, is not unlike that of *The Slant Film Festival*. There is nothing disparaging about the group's name.

Shojo Beat has just announced a new partnership with Sakurakon and The Slants to give away several prize packs to ten lucky winners. Shojo Beat is biggest shojo manga magazine ever published in the United States. Sakurakon, Seattle's own super anime-and-manga convention, has been hosting incredible ads for several years, including Kumiko Kato, Hiro, m.o.v.e. and Camino. The Slants are one of the only Asian dance/rock bands in the United States who have been making a huge impact in, and outside of, the Anime convention community.

This year, Sakurakon celebrates its 11th birthday with four special musical guests—Ketchup Mania, Ali Project, Smile DK, and The Slants!

Sakurakon will be giving away passes and a 2008 fan-pack (including T-shirt, water bottle and The Slants goodie bag) to one lucky Shojo Beat winner. In addition, Shojo Beat will be giving away The Slants goodie bags for nine others. (Transportation to Seattle is not included, and attendees must adhere to the Sakurakon minors policy—go to sakurakon.org for more details!).

This contest will be running in conjunction with several others sponsored by Sakurakon and The Slants. They are also giving away a pair of memberships and an exclusive meet-and-greet through a special contest to promote The Slants' appearance at Sakurakon at a specially created website.  
<http://www/theslants.com/contest>

In addition, Fender Musical Instruments Corporation will be joining the "super promotion team" by giving away an autographed Squier® Hello Kitty® Stratocaster® guitar in a contest to be announced within the next two weeks!

## music video: "how the wicked live" by the slants

Check out the official music video for "How the Wicked Live" by Portland-based "Chinatown Dance-Rock" band The Slants. If you're wondering what's up with the crazy Japanese video girl intro and all the people killing each other, be aware that the video is an homage to the controversial Japanese manga/film *Battle Royale*. Take a look:

The video features guest appearances from Takohachi Taiko members Yumi Torimaru and Kohel, and local Portland rapper Mic Crenshaw. Here's a description of the video:

The music video is a Queen Jayale Productions project and was shot on location in Oregon and Washington. It pays homage to the iconic Koushun Takami novel, "Battle Royale," which was later adapted into a film and manga series. Battle Royale is one of the most controversial and best-selling stories in Japan, which depicts a ruthless program run by a totalitarian government that forces students to pit against one another until only one remains. Students are forced to wear special collars that track their movements as they kill each other while Kitano, the head of the program,

## Get A Copy Of Slants! Slants! Revolution And Support Cancer Prevention Research For API Women

Monday, November 16, 2009

I got this sent in to me from Simon who founded the band The Slants and it's really a great cause - just pick up their digital single "Slants! Slants! Revolution" and 100% of the profits will go towards cancer research for API women and while I could probably say a lot more - I figure why not just let Simon himself:

Some of you know our passion to reach out to the Asian American community. For the last few years, I've been travelling across North America to speak to fans about API concerns, addressing racial stereotypes, and talking to API youth about proud of their heritage. It has been an amazing journey and we're continuing to work with Asian festivals, conventions, and clubs around the country to promote the beauty of Asian culture. However, I realize that there is another subject that is not addressed enough in our community: cancer.

As an employee of the American Cancer Society, I've been working with the organization to reach more individuals in the API community and address health disparity concerns. I work with two ACS funded researchers whose projects are focused on cervical cancer in Chinese and Vietnamese women, who have the highest age-adjusted rate in the United States (five times higher in Vietnamese women than white). There are a number of reasons for this disparity which has existed for quite some time, but one of the greatest reasons is lack of attention for the issue. I'm working to change that.

To do this, I'd like to donate 100% of our profits from every sale of "Slants! Slants! Revolution" to cancer prevention research in Asian women. The hard copy release isn't available right now, but anyone can check it out at iTunes, Amazon MP3, and the standard digital outlets.

If you needed any more info - or had any questions - I'm sure Simon would be more than happy to answer any and all inquiries. Just check out their [MySpace page](#) and send them out a message.

Twenty years have passed since the Japanese American Historical Plaza in Portland's Tom McCall Waterfront Park — which commemorates people of Japanese ancestry who were forced into internment camps during World War II — was first dedicated in August of 1990. The milestone anniversary was commemorated last month with a rededication ceremony and an exhibit, Echoes of Struggle and Hope: 20 Years of the Japanese American Historical Plaza, on view at the Oregon Nikkei Legacy Center through November 14.

The award-winning plaza, designed by landscape architect Robert Murase, features, among other things, 13 engraved stones of basalt and granite with simple yet profound poems, a list of the 10 Japanese internment camps, an embedded copy of the Bill of Rights, and excerpts from the Civil Liberties Act of 1988, which contained an apology for the unlawful imprisonment of Japanese Americans during World War II. Funded and maintained by the nonprofit Oregon Nikkei Endowment, the plaza was the nation's first memorial dedicated to civil liberties.

The rededication event took place on a beautiful summer evening in front of a rapt audience. Emceed by Oregon Nikkei Endowment vice president Henry Sakamoto, the ceremony placed an emphasis on remembering and learning from the past and preventing future violations of civil rights.

Oregon Attorney General John Kroger and Oregon Supreme Court justice Michael Gillette spoke at the rededication from a judicial point of view, emphasizing that the internment of Japanese Americans was

endorsed by the U.S. Supreme Court, although some of the justices notably dissented. Gillette, the keynote speaker who also gave a talk at the monument's initial dedication, said he realized when learning about this period of American history how "profoundly an institution can fail." He said the nation has a hard time learning lessons but "hope lies in the stones of this plaza and the warmth of your heart."

The event also included former Oregon poet laureate Lawson Inada — whose work is featured in the monument — and Native American poet Leo Rhodes reading poems about the internment camp located on the Gila River Indian Reservation from both Japanese American ("wind spirits, tumbleweeds, pain") and Native American ("elders spoke of soldiers, barbed wire, and barracks") perspectives.

Unite People, the youth chapter of the Japanese American Citizens League, presented a time capsule to be opened in 10 years with items representing the sacrifices for freedom in the past, the events of the present, and justice in the future.

The ceremony concluded with Nola Bogle, accompanied by members of the Minidoka Swing Band, singing "America the Beautiful" in her rich voice, just as she had done at the initial dedication of the monument. A fireboat, shooting water dyed red and blue, sprayed on the Willamette River behind her.

Following the rededication ceremony was a party held at the nearby Bill Naito Legacy Fountain. The event featured Japanese food, beer, cultural booths, and a wide variety of musical performances to please any taste.

First up were the dramatic and pounding rhythms of Portland Taiko. The big band sounds of the Minidoka Swing Band — a group of musicians paying homage to the original Minidoka internment camp bands such as the Norakuro Band — followed. Closing out the evening was the driving music and boundless energy of Asian dance-rock band The Slants.

Those who were unable to attend the rededication event can learn more about the Japanese American Historical Plaza by visiting the Oregon Nikkei Legacy Center and viewing the Echoes of Struggle and Hope exhibit. The display features photographs, drawings, a Zen garden, and the initial design model of the plaza. Also featured are writings from the plaza by Robert Murase, Lawson Inada, and others.

The exhibit is on view through November 14 at the Oregon Nikkei Legacy Center, located at 121 N.W. Second Avenue in Portland. To learn more, call (503) 224-1458 or visit <[www.oregonnikkei.org](http://www.oregonnikkei.org)>.

### Boom Boom Satellites wrap *Over and Over* tour with explosive Roseland performance

By Sarah Eadie

The Asian Reporter

On Halloween night, while many people scammedered from bar to bar downtown, energetic groups of giggling young people clustered around candlelit tables in Peter's Room at the Roseland Theater. In the spirit of the holiday, a Phantom of the Opera wearing a black t-shirt with a logo of The Slants paced the room waiting for the Portland-based foursome to take the stage.

The Slants are singer Aron Moxley, Simon Young on bass, Johnny Fontanilla on guitar, and Tyler Chen on drums. In an interview conducted prior to the show, Chen described a live Slants performance as "comparable to dancing on top of that train that hurtles through the city causing mass destruction in *Spider-Man 2*."

While the band certainly brings the energy of an out-of-control train to its concerts, lyrically the music sounded too thoughtful to be mindlessly destructive. In a lively 11-song set, singer Moxley pulled his striped microphone stand to its full height and crooned into the sky as Young and Fontanilla blinded the front row with their chrome-laden guitars.

While every song The Slants performed was dance-worthy, the group excels musically when it draws on the Far East for its hooks. "Sakura Sakura" opens with a sample of eerie plucked music, presumably from a *koto*, which is repeated more and more quickly, becoming the foundation for a pounding beat typical of The Slants. The sounds marry seamlessly, in a way that reflects a band with musical influences such as The Cure and David Bowie, but with a proudly Asian quality.

Bassist Young explains: "Growing up, I was ridiculed for having 'slanted eyes.' Now I say, 'Yes, I'm slanted

and proud of it!" It's something beautiful, not something to be ashamed of."

After The Slants sufficiently riled the crowd, the band ceded the stage to the Boom Boom Satellites, a Tokyo group featuring singer/guitarist Michiyuki Kawashima, bassist/programmer Masayuki Nakano, and supporting drummer Yoko Fukuda.

From the first puff of its oft-utilized smoke machine, the Boom Boom Satellites dominated the stage with an enormous sound — and pulsing lights in bold primary colors. The music is driven by a poppy intensity — no dissonance, just smooth and powerful pulsing beats.

While the front men's arms leapt up and down over the necks of their twin Gibson Flying Vs, their faces were frozen in stoic concentration. This eerie contradiction was further exaggerated when Kawashima switched from wailing into his microphone and began using another equipped with a voice modifier. Awash in red light, stonefaced with his eyes moving along the bouncing mass of the audience, it did not seem like a stretch of the imagination that the robotic voice could actually be his own.

For more than an hour, the music moved in builds and breaks without fail. It is an endlessly satisfying pattern the Boom Boom Satellites have been perfecting for 20 years. Kawashima and Nakano decided to start a band after meeting at university and discovering a shared love for Radiohead and Nine Inch Nails.

Portland was the last stop on the group's American *Over and Over* tour, and Kawashima admitted to having mixed feelings about the visit ending. "I like the venue food. Just today I had some great buffalo wings. But I hate the long driving," he said.

The Boom Boom Satellites are planning to return to the United States in April or May after spending some time recording in their private Tokyo studio. If the large group that collected in front of the merchandise booth after the show is any indicator, Portland will be ready to rock again in the spring.

Rockmont, IL - Friday kicked off ACen 2009 with the usual fanfare of opening ceremonies and the first set of concerts in the Hyatt Regency's main ballroom. The Slants, hailing from Portland, Oregon, were set to take the stage first.

Catchy dance music filled the ballroom as congoists fired in. Someone on the side of the stage blew up two large white balloons and tossed them into the audience, who immediately got them floating above their heads while they waited for the Slants to claim the stage.

The opening notes to **Welcome to Doomtown** intensified the atmosphere as Aron, Johnny, Simon, and Tyler took their place on stage. Cheers went up throughout the room as Aron began singing, looking out into the audience as if he could see every face through his white-framed sunglasses. The Slants continued on to their next song, **We Will Never Die**, full of momentum and bursting with energy. Halfway through the song, Aron's mic came unplugged, but that didn't stop the Slants. Johnny and Simon showed off their guitar and bass skills from just at the edge of the stage, taunting the audience, while Aron found a new mic.

Even the small technical difficulty could not ruin the Slants' momentum, and they continued their set as if nothing had happened. **Love Within My Sins** was next, followed by a brand new song, and

then back to an older song **Sakura**. **Sakura**. The Slants entertained throughout--everyone (except Tyler the drummer) took turns jumping off stage to play amidst their audience, and Aron even made a handstand in the center of the stage

Occasionally, one of the balloons would find itself onstage, and the guys onstage would playfully bat or kick it back into the crowd. Neither side of the room got neglected by anyone, and Johnny, Simon,

and Aron climbed onto Tyler's drumset and the amps on either side of the stage so those in the back could see.

The audience responded to their antics with cheers and dancing, and a few Slants fans could be seen singing along with Aron here and there in the masses. Even more Slants fans were in the making, as the Slants captured their interest in a steely grasp. The audience's attention on the band was especially strong when Aron put on a horse mask for **Stranglehold**, one of the Slants' more intense songs. **Capture Me Burning's** catchy sound brought the show back to a more fun, dancey atmosphere.

The Slants rounded out their set with **Vice Versus Virtue**, a somewhat languid song that the band still managed to throw a lot of energy into for their finale, and the audience still buzzed with excitement after they had left the stage.

The Slants' performance wasn't quite like their recording--but in this case, it's mostly a good thing. While their live set lacked a live female backing like in the

### The Slants bring Chinatown dance rock to Denver

Portland-based Asian-American rockers make Mile High City stop on March 21

Chinatown dance rock comes back to Denver on March 21 when The Slants roll into the Hi-Dive.

The Portland-based electro-punk rock group – whose name is a tongue-in-cheek reference that Asians have slanted eyes – makes a stop in the Mile High City in the middle of their Pageantry Tour. The 17-day tour, sponsored by G-Sake, takes place in lieu of the release of their sophomore album, Pageantry.

According to band frontman Aron Moxley, the new album takes a step back from the "clubby" electronic flavor associated with their debut release, Slanted Eyes, Slanted Hearts, and employs a heavier rock-based sound.

"It's much more of the old-school, old punk rock feel where (band founder and bassist Simon Young) and I came from," Moxley said in an interview last July. "And we're going to put synths on top of that. It's going to be much more of a rock 'n' roll album and electronics with it. Not an electronic album with a little bit of guitar with it."

Certainly helping with the band's new sound is the addition of drummer Tyler Chen, who joined in December

"Tyler actual brings more of a rock 'n' roll flair compared to some of our old drummers," guitarist Jonathan Fontanilla said. "He's brings a new approach to it, which makes the sound completely new and exciting."

However, one thing that is the high energy they put into their live performances.

"It'll be one of the best shows they've ever seen," Young said. "Even people who aren't into the music will walk away entertained – we put everything into our live show."

The Slants - live at ACen 2009

album, the Slants more than made up for it. They did it not only with technical prowess, but also with showmanship--the Slants were very active and engaging onstage. However, the volume of the electronic elements was rather low, and sometimes even got lost under the sound of the live instruments--probably something that would not have been a problem if they had had a live keyboardist.

ACen doesn't have the best track record for bringing rock bands for their musical guests, but they hit true when they chose the Slants. Their "Chinatown Dance Rock" sound had just the right balance of rock and dance to satisfy just about anyone (unless you wanted some noodles, too).

*Note: the Slants were scheduled to take the stage during Saturday's block of concerts, however, due to time constraints, they were unable to perform as planned. The Spooky Bards took the stage at 2pm, the Slants' original slot, and the shuffling of times created a scheduling conflict.*

## Must See Entertainment Line-up

The Asian Heritage Street Celebration showcases the diverse talent of the Asian American community from comedians to hip hop performers and rock bands, to dance groups and spoken word artists, there will be something for everyone all day at the Peace Plaza Stage and Sutter St. Stage. Here's a look at some this year's entertainment.

APL.DE.AP

Allan Pineda Lindo, better known as *apl.de.ap*, is a hip-hop musician, record producer, and member of the Grammy Award winning group, The Black Eyed Peas. He is planning to release a solo album of his own, incorporating traditional Filipino instruments into his songs and recently disclosed in an interview that he would be collaborating with fellow Filipino-American Chad Hugo of The Neptunes and Illmind from G-Unit. Through his music, he intends to help link the Philippines with the rest of the world, opening the door to the recognition of the talent and voice of his people, as well as the beauty of his culture.

CALISUS

Calisus is a high energy, alternative rock band whose live performances have inspired the trademark tag line, "Some bands just have to be seen live..." Influenced by classic rock, modern rock, contemporary pop rock, hard rock, grunge, progressive rock and reggae, their diversity attracts a similarly diverse audience ranging from ages 18 - 50. With success captured in a new live DVD/CD set and sellouts of prestigious venues such as Northern Virginia's Jammin' Java, the band is on an amazing trajectory.

DJ CHICKEN SKRATCH

As a San Francisco native, DJ Chicken Skcratch began his career in 1994 during the Gold Era of hip-hop. He has appeared in hundreds of events and since then, he has continued to DJ between one to five times a week. His veteran experience, ear for good music, friendships among SF's best DJ's, and positive attitude have led him to a successful working DJ. As a proud AAPI, he continues to be a dedicated student and teacher of the arts in hip-hop culture.

LIL JORDAN - 2:53pm

Born Jordan Eugenio, Lil Jordan, 10, is increasingly becoming America's favorite personality. The Ambassador of Junior Golf and Hip Hop has been seen on FOX's Best Damn Sports Show Period, Good Morning America, CNN, ESPN, Nickelodeon, Golf Week, The Golf Channel, and more. He's been featured in many commercials and print ads (AT&T, PGA, Save Mart, Mervyn's) coming upon feature-length films and television series (Lil Jordan's Golf Adventure, Mad Dash) releasing in 2008.

#### JASON MATEO

Born in San Francisco, Jason Mateo is an internationally recognized poet, performer, arts organizer, and activist. Mateo's proudest achievement has been working for Youth Speaks - a San Francisco-based literary art non-profit, where he is Program Director. Through Youth Speaks, Mateo has visited hundreds of schools throughout the country, profoundly affecting thousands of High School students by encouraging voice, leadership, and creative energy.

#### JEREMY TAGLE BAUTISTA

Jeremy Tagle Bautista aka "KILUSAN" is an independent performance artist, youth empowerment worker and community organizer. He has performed on some amazing stages such as: Power to the Peaceful Festival in San Francisco in 2006 & 2007; Kimball's East in Oakland, 2005; UC Santa Cruz's Rainbow Theater, 1999-2002; and the Bay Area Hip Hop Theater Festival at Yerba Buena Center in SF, 2005.

#### NATE KROOKS

DJ & producer deedot (Melina Jones, Public Radio), a third-generation Chinese-American, and Kazwell, a second-generation Japanese-American, are the hip-hop duo NATE KROOKS. Bay Area natives, Nate Krooks released their 15-song debut album entitled *Still True* in February – an homage to positive lyrics, jazz and soul sample-based production from the 1990s but with a new school sound.

#### NATIVE ELEMENTS

With a myriad of musical influences ranging from classic R&B soul to the deepest tradition of Jamaican and English dub, San Francisco's own Native Elements delivers a dynamic sound that appeals to all music lovers. They have been nominated for a San Francisco Weekly, Local Music Award (Wammie) and BAM Magazine's, Bay Area Music Award (Bammie) for Outstanding World Beat/Reggae Club Band.

#### NITYA VENKATESWARAN

Immersed in Bharatanatyam (South Indian Classical Dance) since the age of 4, Nitya Venkateswaran has dazzled audiences in the Bay Area and India with her athleticism, grace and charming stage presence. She has performed in the prestigious Music Season and Shivarathri Festivals in India and was featured as a soloist in San Francisco's 2005 Ethnic Dance Festival.

[www.nityav.com](http://www.nityav.com)

#### NGUYEN DANCE COMPANY

The Vietnamese Performing Arts Group, a 501(c)(3) non-profit organization, is proud to present its premier performance troupe, Nguyen Dance Company (NDC). Throughout the year, NDC performs at over 50 community events, produces up to 3 original shows, and teaches more than 120 free classes throughout the Bay Area and beyond.

ODESSA CHEN

Described as intelligent, subtle, and haunting, Odessa Chen's pure, ethereal voice and finger-picking guitar style has attracted international attention. Chen has been interviewed on NPR, MTV and KRON4's Pacific Fusion TV, and her work has appeared in independent films, compilations, and on radio stations.

[www.odessachen.com](http://www.odessachen.com)

RANDOM NINJAS

This American heavy rock/fusion band has a sound that utilizes the usual western rock instruments like guitars, bass, and drums with a combination of diverse languages, traditional Asiatic instruments, and random humor. Founded in 2004 by their guitarist, Full Metal Ninja, this ethnically diverse group is a neo-cultural expression of a global lifestyle, and their diverse fan base is dedicated and growing. Often people try to box them away with the rising J-rock trend, however, anyone who knows J-rock will tell you these guys can't quite fit their distinctly Asian American big sound in the J-rock cubby hole that's mostly full of rehashed punk, 80s glam, and pop rock from America and Europe.

REN THE VINYL ARCHAEOLOGIST

Ren the Vinyl Archaeologist's True Skool events won the "Best of the Bay" in the SF Bay Guardian in 2000. As a DJ, he has shared bills with world-

renowned artists such as Grandmaster Flash, Jazzy Jeff, Q-Bert, Wu-Tang Clan, and Lyrics Born to name a few.

<http://www.trueskool.com>

#### RON PUA

Ron (Pua) Patrocinio was born and raised in Honolulu, Hawaii. He comes from a family of hula dancers and musicians, and started dancing the hula at the age of 4. He currently teaches at the JCCCNC in Japantown has over 65 students, ages ranging from 4 to 70.

Pua' has danced hula for over 40 years.

#### THOSE KIDS

Goofy, crazy, and awesome entertainers, the Carvajal Kids aka "Those Kids" began performing at family gatherings and have been entertaining ever since at many community events, festivals, and shows throughout California, Nevada, and Hawaii. Those Kids consist of two sisters Cate and Ciara, and their brother Daric. [www.myspace.com/thosekids916](http://www.myspace.com/thosekids916)

#### TRACY CRUZ

For over 15 years, Tracy Cruz has been capturing the hearts and ears of many with her powerful vocals, emotional stage presence, and unique, soulful music. She has performed at several prestigious music events and venues around the Bay Area including the 102.9 FM KBLX Soul Music Festival, Juneteenth Festival, Nihonmachi Street Festival, Temple Bar, Agenda Lounge, and many more.

[www.myspace.com/tracycruzmusic](http://www.myspace.com/tracycruzmusic)

#### THE SLANTS

This band has everyone screaming for some "Chinatown Dance Rock." The Slants were formed and began playing in mid-2007 and their self-recorded, self-produced, and self-released record quickly caught media attention, with press from AsianWeek, the Asian Reporter, Willamette Week, Shojo Beat, and more.

[www.theslants.com](http://www.theslants.com)

#### SAMBASIA SF

SambAsia SF is an award winning multi-ethnic multi-generational escola de samba (community-based samba school) modeled after those in Rio de Janeiro and the Bloco Afros of Salvador Bahia. In Brazil, these ensembles are the centerpiece of the neighborhood community where they serve as the hub of social activity, and represent strong neighborhood pride, support and commitment in the face of economic and socio-political hardship. SambAsia's theme of "One World Awareness, Building Cultural Bridges" was born out of SambAsia's founder Jimmy Biala's observations of the separation that continues to exist between different areas of San Francisco despite the diversity of our city. Currently directed by Masaru Koga and Gary Ceralde, SambAsia is an annual and highly anticipated participant in San Francisco's Carnival Parade since their debut at the 25th Anniversary of the San Francisco Carnaval in 2003.

[www.sambasia.com](http://www.sambasia.com)

#### EMCEE T

Emcee T, self-proclaimed "The Chinese King of the Bay", is a hip-hop musician, producer, and television host for East Bay independent channel, Pushin' the Bay TV. For over a decade, Emcee T has been writing and publishing music independently while performing at nearly every major national city for crowds of all skin color. Through his music, his influence on Asian youth to realize they can achieve their career goals while having fun through positive hobbies is realized; Case in point, Emcee T has a pair of bachelor degrees and a Masters in architecture. T's upcoming debut album, "Underestimated", features Bay Area hip-hop legends, Rappin' 4-Tay (multi-platinum recording artist), and Ray Luv (recorded with 2Pac Shakur and Mac Dre).

## what I've been listening to: the slants

I first mentioned The Slants last month. I've since then had the chance to listen to their album, *Slanted Eyes, Slanted Hearts*, and let me tell you, kids, it kicks some serious ass.

They're a band out of Portland, Oregon boasting their very own unique brand of "Chinatown Dance Rock," guaranteed to rock your face. They've got this throbbing synth-pop/dance-rock sound with a badass Asian twist. Their vibe recalls bands like Depeche Mode, New Order, Joy Division (all that stuff it was fashionable for Asians to listen to back in the day—at least, in my youth), and more recently, The Killers.

The Slants' lyrics also don't shy away from controversial themes, grappling with issues of intolerance, racism, prejudice and ethnic pride in between the riffs and beats. This band knows what it's doing.

To learn more about The Slants, visit the website and their MySpace profile. The album is available at all the usual online outlets, like Amazon and iTunes. The perfect gift for the Angry Asians in your life this Christmas.

Featured Profiles

**Profiles of Movers and Shakers With Their Own Web Sites**

This A-Profiler we bring you the band that has been described as Chinatown dance rock; The Slants are an Asian pop band that have toured throughout the country many times and have been the only band of Asian Americans to be a Fender Music featured artist. Find out what the band likes to talk about when they are on the road, what is their favorite city to tour, and what is their favorite snack to eat on the road.

**Your site URLs:**

**What musical track best describes your group?**

Johnny: *We Will Never Die*  
Aron: *Jin Do...I mean Jen Don't!*  
Tyler: *Got Rice?*  
Simon: *Baby Got Bok (Choy)*

**Favorite snack to eat while you're on the road?**

Aron: Beef Jerky, Elk Jerky, Ostrich Jerky, Bear Jerky  
Johnny: Anything that bleeds  
Simon: Animal  
Tyler: Fluffer Nutters

**Most popular topic of conversation when you guys are on a road trip?**

Tyler: Our top secret rating system  
Aron: "Are you doing okay...are you tired? ...because your driving sucks and is scaring me!"  
Johnny: We're usually laughing about something...  
Simon: ...or talking about food and the next stop.

**Can you describe the art of writing a song?**

Aron: Listen over and over until it pops out!  
Tyler: It is different from everyone, but for me, opposed to writing a song, I prefer to get out of the way and let the song write itself.  
Simon: I think its important to find the right inspiration and then just start recording ideas. It's a huge process with a lot involved, but we generally try and keep it organic, have it flow well, and make it danceable.

**How did your parents react when you told them you wanted to be a musician?**

Aron: They loved it!  
Johnny: As long as I'm healthy and happy, their all for it  
Simon: They told me that I should be a doctor or a lawyer instead.

**What's one word that would describe your relationship with each one of your band mates?**

Aron: Dialog

Johnny: Hunky-dory

Tyler: Gay love...without sex.

Simon: Desultory

**Where do you see your musical career taking you in 5 years?**

Tyler: Everywhere in the world!

Johnny: Probably awesome if I still have a career in 5 years!

Simon: Both of the above

**When you guys aren't making music what can we find you guys doing?**

Johnny: Listening to music!

Tyler: Working or sleeping.

Simon: ...when are we not making music or working on the band?

**Which city is your favorite city to perform in and why?**

Aron: I like Denver a lot

Tyler: Nashville. I love the fans there!

Johnny: Nashville, TN. I love southern girls!

Simon: New York, NY - I love visiting the city and we can always get amazing food in Chinatown before the show

**Which musical group would you guys pay to watch?**

Aron: Sade

Johnny: David Bowie and The Spiders from Mars.

Simon: The Notorious MSG

Tyler: I love watching live music and pay to see lots of concerts, from local bands at dive bars to big arena shows!

**Did you guys ever considered quitting the music biz?**

Aron: Of course...

Johnny: It's never crossed my mind

Tyler: No.

Simon: Every so often, I get tired of the "business" end of it. The real joy is making and playing music for the fans...the music business is just what allows us to get to more fans so it's a necessary evil.

**How did you guys come together as a group?**

Johnny: Craigslist and friendships

Tyler: I met Simon via Craigslist when he was first looking for musicians to join The Slants, before he had a band name or any members.

**If you guys didn't choose music as a career what kind of career do you think you be in?**

Johnny: I'd pursue a career in electronic engineering

Tyler: I'd probably be working in advertising, or as a studio audio engineer, or working on a film crew in Hollywood.

Simon: Marketing or working for an organization that helps make the world a better place.

Aron: Porn

**Do you have any crazy encounters with fans?**

Aron: A stalker once...

Johnny: Some bad, but usually they're crazy in a positive way.

Tyler: I had a crazy stalker fan a while back that found out where I lived and would find any excuse she could to "stop by".

Simon: Sometimes things happen, but we usually take it in stride.

**What's your one guilty musical pleasure?**

Aron: Lil' Wayne

Simon Lil' John

Johnny: *Africa* by Toto

Tyler: I admit nothing

**Is it difficult to maintain a relationship when you're a musician?**

Johnny: I think so. It's difficult finding someone who doesn't mind that we're constantly touring, practicing, or song writing.

Aron: Not with the right person

Tyler: No, but it is important to chose a partner that understands what it means to date a musician and can be your ultimate supporter.

Simon: I think even with the right person it can be tough. It's hard being away on the road for so long and it's a pretty crazy schedule, but I imagine it'd be the safe with being a trucker, in the military, or anything else where someone feels left behind. But having that right person who understands and supports gives you the fuel to keep chasing the dream.

**Who are some musical artists you like to collaborate with?**

Aron: Son Of Rust and R. Kelly

Tyler: Dave Grohl, Richard Patrick, Chino Moreno, Steve Vai...there are tons of musicians that I'd love to collaborate with!

Johnny: I'd love to collaborate with Kanye or Timbaland!

Simon: I want Snoop Dogg to produce our next album. As far as collaborations, we're going to be working with a few other artists on the newest release...it's going to be a surprise.

**What are you guy's currently working on? What can we look forward to in the future?**

Tyler: I'm working on a song for The Slants with a local Taiko drumming group...it is going to rock!

Aron: A new and more rocking album than ever before

Johnny: We're currently working on a new album. Once that's released expect A LOT of touring.

Simon: More shows, more music, and probably more controversy

**What's a typical Tuesday night hanging out with you guys?**

Johnny: I'm probably sleeping

Tyler: I take salsa dancing lessons on Tuesday nights if I don't have a concert or are not on the road.

Simon: Cooking dinner!

**Thanks for taking time out to answer my questions; do you have any thing you like to say to your fans?**

Aron: Thannnks for your love and support

Johnny: xoxoxox

Simon: Without you, this wouldn't be possible!

Tyler: We love you guys!

## ROCK OF ASIAN: New Album From The Slants!

NOVEMBER 18TH, 2009 | 0 COMMENTS | POSTED BY DIANA

We've got a lot of love for Portland's The Slants, a synth-rawk outfit whose dark dance anthems (for reference: check their record *Slanted Eyes, Slanted Hearts*) trumped The Faint and The Killers in our party playlists loooooong ago.

The Slants: Remixmasters

But they must have known: deep inside, the people even more jiggy energy in them, just waiting to be tapped. The band just released *Slants! Slants! Revolution*—an album of their tunes, remixed for even more lively party people than us (or funkier partays than ours). Think about rolling with all of your gaysians to da club on Fridays, or rolling large on Hollywood Boulevard after a Depeche Mode concert, or tripping out in baggy jeans in the desert with all of your, ehrrm, closest friends—this would be the perfect soundtrack.

Riding the cutting edge of eighties-retro resurgence, **The Slants'** brand of synth-driven dance rock makes you want to hop into some Converse high tops and skinny jeans, and head for the nearest skate park with their tunes blasting through your ear buds. But The Slants don't merely rehash 1980s music; they add a hint of edgy guitar to original songwriting and top it off with a generous garnish of Asian American pride. Judging by their rapid climb toward success since their debut in 2007, they've hit on a winning formula. From the beginning, the band has undertaken an impressively demanding tour schedule, packing in head-bobbing crowds at venues ranging from small clubs around their hometown of Portland, Oregon to large anime conventions across the nation, to major stages like SXSW. They describe their music as "Chinatown dance rock", which actually gives a pretty accurate idea of their sound: rhythmic electropop with a somewhat aggressive boost and subtle Asian overtones.

The Slants are unusual among American bands in that all current members are of at least partial Asian descent. It all started with founding bassist Simon Young's vision of creating a synth-rock band that would topple ethnic stereotypes while embracing Asian heritage. The group's name is a tongue in cheek reference to racial slurs about the shape of Asian eyes, and one of the methods reportedly used to recruit members was posting notices in Asian grocery markets. However, The Slants' unorthodox origins become instantly irrelevant as soon as their music begins to play. It draws listeners in quickly with a blend of moody New Wave-esque melodies bolstered by meaty guitar work and buoyant electronic effects. This sound has had widespread appeal to audiences ranging from teenage otaku to adult club hoppers. The racial alienation covered in some of their lyrics applies equally to any listener who has felt like an outsider or part of a fringe group.

**Every Chance I Get, from their latest release, *Pageantry***

For such a relatively new act, The Slants have already attracted a lot of attention in the independent music scene. Among their notoriety is the distinction of being the only Asian band ever featured as a Fender Music Spotlight Artist. Their creative concept and remarkable work ethic has garnered international press with All Things Considered on NPR, Asian Week e-newspaper and Shojo Beat magazine, to name a few. The group competed very successfully in Bodog Music's "Battle of the Bands", before withdrawing due to their concerns with the potential recording contract. They've won several accolades including Album of the Year from sources such as the Portland Music Awards, Rockwired, and AsiaXpress, among others.

In addition to selling out live shows, the band has seen singles from their debut album, *Slanted Eyes, Slanted Hearts* receiving airplay on over 800 FM stations nationwide. In 2009, they gave back to the community by creating a remix album, *Slants! Slants! Revolution*, and donating 100 per cent of profits to research for cancer prevention in Asian women. This spring the group released a new album entitled *Pageantry*, and are currently touring in support of it. Considering that they started only a little over three years ago and have already achieved so much, The Slants are definitely an act to watch as they continue speeding toward a bright future.

Current Lineup:

**Aron Moxley** – vocals  
**Simon Young** – bass  
**Johnny Fontanilla** – guitar  
**Tyler Chen** – drums

The Slants are a rock band from Portland, Oregon. The band members from left to right are:  
Johnny Fontanilla – Guitar  
Aron Moxley – Vocals  
Tyler Chen – Drums  
Simon Young – Bass

The band started in 2005 when Bassist Simon Young wanted to start a new band with a new sound. They've been called "Chinatown dance rock," but from what I've heard, they're a pretty sweet Rock band. Take a listen for yourselves on their [MySpace Music page](#).

### SuperChink

This hardcore rock band was once called The Legendary because of their lyrics and history. SuperChink was spreading the word to all audiences, highlighting the history and ongoing discriminations and injustices against Asian Americans while maintaining a "Yellow Power" brand of activism in their performances and music. Their fusion of rock and rap, partnered with strong lyrics, makes this band an interesting listen.

#### The Slants

The Slants is a four-person band formed in 2006 in Portland, Ore. It was founded by Simon Young, a musician who used to run Populuxe Entertainment, a music agency. The Slants combines electronic dance, techno and pop music. The band released its album on July 8, 2008, titled "Slanted Eyes, Slanted Hearts," featuring the hit song, "Kororo" (I Fall to Pieces). Their music will have you breaking it down on the dance floor or, if you're shy, in the privacy of your bedroom.

### Ellegarden

This Japanese rock group formed in December 1998 in Chiba, Japan, and is composed of drummer Hirotaka Takahashi, vocalist Takeshi Hosomi, guitarist Shinichi Ubakata and bassist Yuichi Takada. With their style of punk rock, alternative rock and emo, they resemble the Japanese version of The All American Rejects or Simple Plan. Vocalist Takeshi Hosomi's strong grasp of English makes the band easy to listen to. They once collaborated with the American band Allister during South by Southwest (SXSW), a set of interactive film and music festivals that take place every spring in Austin, Texas, during January 2006 and Foo Fighters on Dec. 5, 2006 at Osaka Castle Hall.

Listen To: "Space Sonic," "Stereoman" and "Fire Cracker" on [Ellegarden's MySpace Page](#).

### Hard Queen

Hard Queen, formed in early 2007 in Shanghai, released their first album titled "Holiday" after their most popular single in April 2009. The trio includes Sheena on the vocals, Zero on the bass and Damen on the drums. Their music sets them apart from the typical rock band with their mix of pop, slight rock and techno and funky.

Listen To: "Holiday" and "Jungle Queen" on [Hard Queen's Facebook Page](#).

### Asian Rock Fest

There is an annual Asian Rock Fest that is held in New York City and San Francisco. It was first created in 2004 as a way to bring in Asian American rock bands from all over the U.S. It aims to celebrate the annual Asian

Heritage Month of May. In 2009, Asian Rock Fest's four infamous Asian rock bands, Burning Tree Project, Johnny Hi-Fi, Festizio and United High were invited to perform in San Francisco. If you are a big fan of Asian rock music, make sure to check out the [official Web site](#).

## Look At THESE! The Slants Reclaim Their Eyes

By Ho Chie Date: February 27, 2010

TaiwaneseAmerican.org and Turtlistmedia.com present an interview with The Slants, started by their band leader hapa-Taiwanese American Simon Young!

This Oregon-based band combines the sounds of 80's synth pop with fresh dance-punk melodies and style. Their name reclaims and celebrates the "slanted" eye as beautiful and something to be proud of and they are redefining the unlimited three-dimensionality of the Asian American body with each show they kill. While they are clearly about the music, they also hold social agendas that make this unique band a group to look up to.

## THE SLANTS TOUR WITH NEW CD

 [View all posts](#)

By **TOM LAVENTURE**

The Slants tour with new CD

**AAP staff writer**

The Portland Oregon based band The Slants have released a second CD, "Pageantry", which contains much of the bands original sound in a much tighter package with more solid guitar than the "Asian synth-pop" 2007 CD "Slanted Eyes, Slanted Hearts."

The band seems as comfortable with its hard rock oriented guitar, that band co-founder and bassist, Simon Young, calls a "face melting" direction – as it was with the former alternative blend.

"Ever since we released Slanted Eyes, Slanted Hearts, we wanted to showcase a much more rock-oriented sound that was more indicative of the band's live show," said Young.

If necessity is the mother of invention, The Slants change must be in part from the departure of keyboardist Jen Cho (Korean American) who gave the band its great synthesizer pop sound and her female vocals served as back up on songs in the first CD. The classical pianist left the band in September 2008 to focus on her academic studies, according to Young.

The synthesizer work on Pageantry was performed by Cory Gray and Lance Riley along with some minor contributions from the band members.

"Gaijin (Michael Pacheco – a Portuguese), our former keyboardist, also did some programming for the song 'How the Wicked Live'," said Young. "The female vocals on Pageantry were from a number of our friends, Krista Herring, Jamie Harris, and Lauren Knowles."

Without Cho, the songwriting for the new CD returned to core roots of melody and chord

structure, said Young.

"We started adding electronic elements again towards the end of production, using synthesizers for ornamentation rather than relying on the sounds for the songs," Young added. "The next album will probably be more along the lines of Pageantry: straight rock with synth-pop sensibilities, and of course, music that makes you want to dance!"

Most of the audio-engineering work was done by the band members and engineering friends helped them get the studio sound they wanted with this album. IT was an amazing feat for a band without a record label backing the project, and it helped that the band members have quite a bit of experience in the studio and in audio engineering.

"We combined that with the talents and equipment of Tom Van Riper and Brandon Eggleston, who have worked with quite a few high profile artists," he added.

Lead vocalist, Aron Moxley, the Vietnamese member of the group, was a child refugee raised in Astoria, Oregon, which is the focus of 'Asoria' on the CD, also a song where the guitar really takes off -- a contrast to songs past where Moxley's voice seems to echo above it all.

"Aron grew up in Astoria, OR and wanted a song that reflected the times he had while growing up and working fishing boats there," said Young.

While the first CD seemed to focus on the experience of living two cultures, Pageantry has its fair share of relationship or love songs, 'Every Chance I Get', 'You Make Me Alive', 'I Wanna Break You Down', with other songs based on life in general, 'Luck Strike', 'Who Shot The Radio?', 'The Pageantry', 'Running With The Dead', 'Fight For Future', and 'How The Wicked Live'.

"Like Slanted Eyes, Slanted Hearts, most of these songs are about love and lost, with some metaphorical references to life experiences," said Young.

The Slants are more famous for its live performances as a club and large venue band that for its polished studio sound -- which deserves a good listen as its only possible to find live performances online.

Young said the band has a common experience in that they are children of immigrants or adoptees and were all raised in the skateboarding punk rock culture of the 80s and 90s.

Simon Young (Siu-Lung -- Taiwanese-Chinese) began as a jazz and blues bassist. He and Gaijin have been playing since the 1980s, and have at times performed live with "Information Society," the late Joey Ramone of The Ramones, Nine Inch Nails, and members of Social Distortion, NOFX, and Bad Religion.

The band was founded in 2005 when vocalist Simon Young departed "The Stivs", for a synth-rock direction to blend his Asian American background with 80s and 90s alternative rock influences.

Then came Aron Moxley (Vietnamese) formerly of Evening at the Black House, and drummer, AC (Filipino), formerly of The Gentry.

Tyler Chen (Chinese) is the new drummer and Johnny Fontanilla (Filipino-Mexican) is the man behind the hard guitar.

The band gained fame for winning battle of the band competitions in the Pacific Northwest and California. They also made news for getting a show shutdown for using pyrotechnics.

The Slants also reportedly turned down a big contract after winning a national Battle of the Bands competition produced by a music label. Just before the finals, he said the record said they had to agree to a record contract before proceeding to the finals.

"The deal was so shady and stripped away our creative control, so we decided it would be best to turn it down and leave the competition altogether," said Young.

These days The Slants continue touring a few weeks every year and performing almost every weekend somewhere in the Northwest. They are a favorite at anime conventions and Asian cultural celebrations all over North America.

"We're hoping for a stop in Minnesota soon," said Young.

After the spring tour The Slants plant to begins writing their third album with plans to complete it by 2011. Fin out more about The Slants online at <http://theslants.com>. They can also be found on iTunes and Facebook.

## Interview: Simon Young from The Slants Tuesday, May 20, 2008

If you've been following this blog since its inception (and who hasn't?) you'll know that one of the bands I've tried to push is The Slants, even doing a CD giveaway with them early on. I figured since I hadn't done a post on them in a bit I should check in, see how they were doing, and decided to throw some random questions the way of bassist Simon Young.

Here's what he had to say.

**It's been about two months since you withdrew from the Bodog Battle of the Bands contest where you were in the semi-final round and on your way to the finals where you could have been competing for a million dollar contract. For those who aren't familiar with the situation, can you talk a little bit about why the band withdrew, lessons learned, and what - if anything - you gained from the experience, or was it all a wash in the end?**

We originally joined an international Battle of the Bands competition last year in order to get some face time on national tv as well as a chance to win a million dollar recording contract. We made it through several rounds fairly quickly, placing in first each time. However, we dropped out during the semi-finals because they wanted us to sign a huge non-negotiable contract that would have nullified any rights that we had as artists. Our legal help told us to stay away...not only did it seem risky, but the company itself was revealing its true colors and we didn't feel comfortable working with them. We've always wanted to stay independent for as long as possible and this experience just supported that decision. I think it's safe to say that The Slants won't be joining anymore "battle of the bands" type competitions again.

### How's the summer tour shaping up?

The tour plans are going well, just trying to fill in as many dates as possible! It's a quite a bit of emailing, following up, and phone calls... but it'll be worth it once we're on the road. There are some great shows coming up and we look forward to playing new places that we haven't been yet!

**You took out a second mortgage on your house to produce *Slanted Eyes, Slanted Hearts*. Are you feeling the pressure yet? Have the sales been what you've expected?**

The other day, I was joking with our publicist, Alex, and I told him that "I don't need a girlfriend, I have The Slants...it's enough to make me go broke on it's own" The pressure is always there, especially since I've just been laid off of my day job. But I strongly believe in this band and I know that everything will work out. Sales have been pretty strong and the album is going to be available in stores

nationwide starting this July, so there's definitely a lot of excitement going on! I'm very proud of the album, so even if we didn't sell a single copy, I'd say it was still worth doing.

**I noticed the band isn't selling individual tracks via your MySpace page. Any plans in the future to do so, or was this a conscious effort on the band's part? The reason I ask is because more and more you're seeing bands and artists sell their tracks individually as well as one complete CD.**

Our publicist advised us to stop selling our music through Snowcap (the company that links music sales to bands' MySpace sites) but we're still selling strong through iTunes and other companies. Fans can still buy individual tracks, though I always think it's best to get the whole album so that you can get the whole feel of what we're doing.

**Recently you teamed up with clothing designer Tina Richard for a custom line of clothes. How has it been working with her?**

It's been great! Tina's very innovative and has brought a lot of unique, creative merchandise pieces to our lineup. She's also designed some personal stage wear for Aron and Jen Cho. We're all looking forward to what she comes up with next!

**Almost immediately the band started getting a lot of attention, playing a lot of shows, and also finding a niche in anime conventions. What do you credit that success too?**

I think it's a combination of things....there aren't many synth-pop bands out there right now, certainly not many that are inherently Asian, so I think that's been getting us some attention. The Asian community has been especially supportive, writing about our band and encouraging us to continue what we do. We also have an amazing publicist helping us get press, as well as a very enthusiastic fan base willing to share our music with others.

**I was reading on your blog about a write-up you got in Music Spectator magazine which said (sic) "The Slants are a self parody, a tongue-in-cheek mocking finger pointing at themselves. This is an American band using their ethnicity as fodder for their own brand of humor, which carries over to their marketing and even their sound to a degree". When I think of a "self parody" I think The Notorious MSG, not really The Slants. What do you think of the description, and then how do you think fans see you?**

I don't really see ourselves as a self parody, but we do take on Asian stereotypes with a certain sense of humor. We don't wear wigs of awkward "Asian" hairstyles and we certainly don't speak with fake Asian accents or anything. However, we do incorporate a lot Asian themes in our merchandise, image, and songs. It isn't necessarily aimed to be humorous, most of the time its because its something we enjoy (such as Asian artwork, cinematic themes, or food). I think our fans understand that we maintain this theme because of we're proud of who we are (just look at the name of our band). They understand that we do have a certain sense of humor, but we're certainly not mocking ourselves nor the cultures that we stand for.

**Right now you're doing a lot of touring and promoting the album which also just got re-mastered. How long do you plan on promoting this album before starting on your second album? Is there a timetable for a release?**

We've already started writing songs for the next album, which should be released in early 2009. In the meantime, we'll probably continue touring and promoting Slanted Eyes, Slanted Hearts into late fall. It will always be our debut album so I'm sure it will always have a special place in our hearts.

**So I gotta ask - what's up with Gaijin only getting to show his belt buckle and having to wear shades? Is there no love for the white guys?**

It's his personal preference; maybe he's a bit camera shy. We don't force him to wear a mask on stage or anything : )

[- 15 Asian American Theater](#)

I had talked with April Baer about a NPR story she was looking to do on The Slants and one of the things I had mentioned was that while I think in the world of hip hop and spoken word there's more talk about race and racism and ethnicity - there's an awareness there - in the genre of techno/synth/dance there isn't that awareness out there, and that's where I think The Slants are different - you bring that awareness about race and ethnicity and being Asian American to a genre that hasn't typically had that. While I know it's about the music, it's also about the message too and I was wondering about the reaction so far from your fans about that message and being Asian American.

We've had some mixed responses to our ethnic theme, though for the most part it has been positive. We've had a lot of fans tell us that its refreshing to find an Asian artist playing dance rock, that they kind of sing certain songs like "Sakura, Sakura" as an anthem ("We sing for the Japanese and the Chinese and all of the dirty knees..."). It's an amazing feeling to be playing these songs and watching kids sing along to every word.

We had one review recently that took some jabs at us for being Asian; saying that we had self-confidence issues and because of our Asian themes. Rather than reviewing our music at all, the entire article focused on this - which resulted in a substantial amount of hate mail sent to the publication for their "racist" remarks.

Last question. Five things you really miss when you're touring on the road.

1. Seeing my friends in my hometown or having any semblance of a "normal" relationship.
2. Home cooked meals.
3. Sleeping in my own bed
4. Time to myself (not that I don't love my band...but think about being in a 15 passenger van everyday for a few months with the same 5 people and you'll understand).
5. Sitting down in something that isn't moving (the van).

Actually this is the last question. Where are you and what are you wearing right now (because I'm sure someone wants to know)?

I am sitting in the airport wearing a black D&G jacket, some kind of rising sun t-shirt, jeans, and some rock n' roll boots.

And underwear too.

Racialicious - the intersection of race and pop culture

Although well spoken, Simon Young is a bit of a creep. Not to mention fake and unkind.

How the Wicked Live teaser by The Slants

**ABOUT THE SLANTS**

It's rare for a band to be headlining shows with 5,000-15,000 fans in attendance and internationally touring in their first year as a band. What originated as a side project for Simon Young (of The Slivs) in 2007 proved to be one of the most energetic and contagious movements of music in our time. In case you haven't heard, The Slants are the first and only all Asian synth-pop band in the North America and they have been melting faces off all over the globe.

Kicking off the band's career at a tiny dive bar in Portland, OR, The Slants soon found themselves on tour and in demand worldwide performing at music halls, colleges, and anime conventions. Within months, they released their debut album "Slanted Eyes, Slanted Hearts" winning multiple awards. Since that first iconic show in 2007, The Slants have been cited as the "Hardest Working Asian American Band", toured North America ten times, rejected a million dollar recording contract, were the first and only Asian band to be a Fender Music artist, and according to U.S Congress, the first rock band to play inside a state library.

By the end of 2008, the band had been featured in over 1,200 magazines, radio stations, websites, and television shows for their self-proclaimed "Chinatown Dance Rock," including a feature on NPR's "All Things Considered" that blasted across 700 FM stations across the country for months.

The following year, The Slants headlined a SXSW showcase (other acts at the festival included Katy Perry, Metallica, and Devo), launched several more tours spanning North America, and released a dance remix album entitled "Slants! Slants! Revolution," while donating 100% of the proceeds to benefit cancer research affecting Asian American women.

2010 saw the release of The Slants' third album, "Pageantry." Pageantry featured a number of local Portland icons including Cory Gray (The Decemberists), Krista Herring, Mic Crenshaw, and Gabe Kniffin (Silversafe). The harder hitting, guitar driven songs still featured The Slants' signature dance rock flavor and again, massive touring throughout the country continued. The Slants have shared the stage with acts such as Apl.de.Ap (Black Eyed Peas), Vampire Weekend, Girl Talk, Girugamesh, M.O.V.E and Boom Boom Satellites.

The band is currently touring nationwide while working on their fourth release.
