AMENDMENT AFTER FINAL REFUSAL AND REQUEST FOR RECONSIDERATION

Commissioner for Trademarks
P.O. Box 1451
Alexandria, VA 22313-1451

Sir:

In response to the Official Action (final refusal) dated January 19, 2005, Applicant respectfully requests that the above-referenced application be amended as follows:

IN THE IDENTIFICATION OF GOODS AND SERVICES

Please rewrite the identification of goods and services in classes 3, 31, 32, 41 and 42 to read as follows:

--Soaps for personal use; perfumery, essential oils for industrial use and personal use, cosmetics; hair lotions; and dentifrices, in Class 3;

--Agricultural, horticultural and forestry products, namely plants, flowers, vegetables, fruit, topsoil and unprocessed grains for consumption, in Class 31;

--Mineral and aerated waters and other non-alcoholic beverages, namely, non-alcoholic beverages containing or flavored with tea; fruit beverages and fruit juices; non-alcoholic syrups, extracts for making beverages, in Class 32;

--Training services in the fields of science, health, medicine and beauty; education services, namely, arranging and conducting colloquiums, conferences, conventions, seminars, symposiums in the fields of science, health, medicine and beauty, in Class 41;

--Scientific, medical and industrial research services and research and development services for new products in the fields of science, health, medicine and beauty; design services for chemical products, proprietary medicines, plants and pharmaceutical procedures in production of pharmacologically active substance and preparations of cosmetics; scientific and medical testing and diagnoses of chemical products, pharmaceutical products, cosmetic products, chemical, biological and bacteriological analysis; design and development of computers and software, all above mentioned services provided for others, in Class 42;

--Medical services; veterinary services; providing hygienic and beauty care services for human beings; information services, namely, providing advice and consulting in connection with the medical, pharmaceutical and cosmetic fields, in Class 44--.

REMARKS

The only issues which remain in this application are formal in nature.

First, the identification of goods/services have been criticized as indefinite. Applicant has amended the identification, as set forth above, adopting in large part the proposals of the Examining Attorney, which proposals he is thanked. It is believed that only one of the suggestions of the Examining Attorney does not appear in the instant amendment, that being the suggestion that in Class 1, the recitation of "essential oils for industrial use", further "specify products or field of use, if possible" (Office Action dated January 19, 2005 at page 1).

It is believed that the amended recitation in Class 1, as presented above, is in good form, that that any further specificity with respect to the oils for industrial use is not necessary; indeed, the Action only states that this should be done "if possible". Moreover, a preliminary review of the U.S.P.T.O. database shows that there are a number of U.S. Registrations which have recently issued and which contain a recitation of "essential oils for industrial use", in Class 3, without any further description. See, for example, U.S. Registration Nos. 2,895,092 for the mark **MISS SIXTY**, dated October 19, 2004, and 2,879,110 for the mark **FAIRPHARM**, dated August 31, 2004 (copies of the U.S.P.T.O. printouts of these registration details are appended hereto).

Applicant submits that the amendment presented herein overcomes any criticism of the identification of goods/services as indefinite and places them into good form.

Applicant further submits that the instant submission places this application into condition for publication, the early notification of which is respectfully solicited.

If any formal issue should remain in this application, the Examining Attorney is respectfully asked to telephone the undersigned, so that it can be addressed promptly.

This paper is filed together with a Notice of Appeal and required fee therefor.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
