REQUEST FOR RECONSIDERATION DENIED

ISSUE/MAILING DATE: 11/7/2011

The trademark examining attorney has carefully reviewed applicant's request for reconsideration and is denying the request for the reasons stated below. *See* 37 C.F.R. §2.64(b); TMEP §§715.03(a), 715.04(a). The requirement(s) and/or refusal(s) made final in the Office action dated April 13, 2011 are maintained and continue to be final. *See* TMEP §§715.03(a), 715.04(a).

In the present case, applicant's request has not resolved all the outstanding issue(s), nor does it raise a new issue or provide any new or compelling evidence with regard to the outstanding issue(s) in the final Office action. In addition, applicant's analysis and arguments are not persuasive nor do they shed new light on the issues. Accordingly, the request is denied.

To that end the examining attorney has attached additional internet evidence showing that the goods at issue commonly travel in the same channels of trade and emanate from the same sources. *See attachments from the websites of Whole Foods, Mountain Rose Herbs, Burt's Bees, and Herbs Pro.*

The filing of a request for reconsideration does not extend the time for filing a proper response to a final Office action or an appeal with the Trademark Trial and Appeal Board (Board), which runs from the date the final Office action was issued/mailed. *See* 37 C.F.R. §2.64(b); TMEP §§715.03, 715.03(a), (c).

If time remains in the six-month response period to the final Office action, applicant has the remainder of the response period to comply with and/or overcome any outstanding final requirement(s) and/or refusal(s) and/or to file an appeal with the Board. TMEP §715.03(a), (c). However, if applicant has already filed a timely notice of appeal with the Board, the Board will be notified to resume the appeal when the time for responding to the final Office action has expired. *See* TMEP §715.04(a).

I love everything I've tried from the Depth line. This lotion is no exception. It's smells great (I have the Ocean Blossom) like a natural light sea soent. It is super moisturizing. It does not take much because it is very thick and creamy- definitely apply to damp skin so it spreads easier. The seaweed extracts I think are very calming to my eczema prone skin.

Overly excited by the term "richly replenishing" I was disappointed!! Since I had never heard of cupuacu butter, I did a little research on it. Amazing stuff!! I was delighted that these two wonderful butters had been paired together!! This lotion is not thick and absorbs very well. My skin stayed moisturized for OVER 24 hours after applying it!! My only "dislike" (and it is not a biggie) is that it doesn't really smell much like a cocoa butter lotion. It does have a VERY mild cocoa scent, but it actually smells more like vanilla. Not bad.... just not what I expected from a cocoa butter lotion. Bottom line: I would repurchase and recommend this lotion for the simple fact that the quality, benefits, and hydration level outweigh the lack of cocoa scent.
