I have to buy more

Amanda Reynolds on April 23, 2019

I started using for a week and I had to buy more. At first, the taste was new to me but as I kept using it, I got so used to the taste, that I honestly look forward to the next day when I use it, which is in the mornings. I use only once a day. I can see the improvement on my face. I love it, I'm buying 2 more boxes, but I'm stocking up and this deal is great!

Our range of body care products are created to suit the differing needs, textures, elasticity, and tonability of the skin on our body. Black olive due to liver oil glands, it has a slower cell renewal rate and is around four times thicker than that of our face. When it comes to moisturizing body products, we use key ingredients that promote deeper moisturizing qualities to penetrate the tougher, thicker skin. With the skin on our bodies covering the largest area, being exposed, body care is a must, so what you use on your body, will ultimately end up in your bloodstream!

Should I use Oils if I have Oily Skin?

It's a beauty myth that those with oily skin cannot use a facial oil. Pure, plant based oils are closest to our naturally occurring oils. Ingredients such as Certified Organic Rosehip Oil, offer nourishing and revitalizing qualities for all skin types. When your skin is stripped of its natural barrier oils by using harsh soaps or cleansers, your skin goes into overdrive to produce excess oils. You can help reinforce the natural oil production and your complexion by using lightweight oils. You can find Rosehip Oil makes as a key ingredient in our Noni Olive Face & Body Oil.

Lip Care Products

Applying our lip care products religiously doesn't necessarily mean your lips are going to be at their best. Non-organic lip care products can sit on the surface, not moisturizing and often drying out your skin. The skin on our lips is extremely sensitive and can easily become dry or chapped so it's important to ensure you are buying lip care products online that are certified organic and formulated with nourishing vitamins, minerals, and essential oils.
