**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE
BEFORE THE TRADEMARK TRIAL AND APPEAL BOARD**

In the matter of Application Serial No. 86/096,315

By Robert Wotring for the Mark: ALIVA

Filed on October 21, 2013, Published in the *Official Gazette* on April 8, 2014

BAYER HEALTHCARE LLC,
Opposer,

v.

ROBERT WOTRING,
Applicant.

Opposition No. _____

NOTICE OF OPPOSITION

Bayer Healthcare LLC (“Opposer”), a Delaware limited liability company having a principal place of business at 100 Bayer Road, Pittsburgh, Pennsylvania 15205, believes that it will be damaged by registration of the mark “ALIVA” as shown in Application Serial No. 86/096,315 for goods in International Class 5 (the “Application”) and hereby opposes the same.

As the grounds of Opposition, Opposer alleges that:

1. Robert Wotring (“Applicant”) filed an application to register the mark “ALIVA” on the basis of intention to use for “pharmaceutical preparations to provide relief from acute and daily symptoms of diarrhea, constipation, abdominal pain, gas, bloating, heartburn, and nausea” in International Class 5 as evidenced by the publication of such mark in the *Official Gazette* on April 8, 2014.
2. Through its predecessors-in-interest, Opposer has, since at least as early as April 25, 1988, used the mark ALEVE in connection with products related to the treatment of pain,

and in connection with preparations for treating colds since as early as 2000. Opposer is the owner of, among others, an incontestable registration for the trademark “ALEVE” (United States Registration No. 1,536,042, registered April 25, 1989) for “anti-inflammatory, analgesic and antipyretic pharmaceutical preparations” in Class 5 and a registration for the trademark “ALEVE” (United States Registration No. 3,287,780, registered September 4, 2007) for “pharmaceutical antitussive-cold preparations; preparations for treating colds” in Class 5. Printouts of the TSDR database information for these registrations are attached as Exhibit A.

3. By virtue of promotional and advertising activities and the excellence of its goods, Opposer has gained for its mark “ALEVE” a most valuable reputation and has created, in the minds of the buying public, an exclusive association between “ALEVE” and its goods.

4. Applicant’s alleged mark is confusingly similar to Opposer’s ALEVE mark in appearance, sound, connotation, and commercial impression. Upon information and belief, Applicant’s proposed mark is intended to be used for goods which are identical, similar and/or related to the goods in connection with which Opposer has used its “ALEVE” mark and are sold to substantially the same class of customers through the same channels of trade.

5. Priority is not an issue. Opposer has used the “ALEVE” mark prior to the Applicant’s application date of October 21, 2013, or any date of first use Applicant can claim.

6. Opposer filed its applications for “ALEVE” prior to the filing date of the opposed application.

7. Use by Applicant of the alleged trademark “ALIVA” is without Opposer's consent or permission.

8. The mark that Applicant seeks to register so resembles Opposer’s “ALEVE” mark as to be likely, when used on or in connection with Applicant’s goods, to cause confusion, or to

cause mistake, or to deceive. Purchasers and prospective purchasers are likely to falsely believe that Applicant's goods offered under Applicant's Mark are sponsored, endorsed, or approved by Opposer, or are in some way affiliated, connected or associated with Opposer. Furthermore, any defect, objection or fault found with Applicant's goods offered and sold under its "ALIVA" mark would be likely to reflect upon and seriously injure the reputation that Opposer has established for its goods offered under its "ALEVE" mark. Registration therefore should be refused under 15 U.S.C. § 1052(d).

9. The mark "ALEVE" is distinctive and famous throughout the United States, and has become closely associated with the goods of Opposer. The "ALEVE" mark became famous prior to the filing of Applicant's application for "ALIVA."

10. The trademark proposed for registration by Applicant, namely, "ALIVA," is likely to cause dilution by blurring and dilution by tarnishment of Opposer's "ALEVE" mark, and also reduces the capacity of the famous "ALEVE" mark to identify the goods of Opposer.

11. If Applicant is granted the registration herein opposed, it would thereby obtain at least a *prima facie* exclusive right to the use of its alleged mark. Such registration would be a source of damage and injury to Opposer.

WHEREFORE, Bayer Healthcare LLC prays that Application Serial No. 86/096,315 be rejected, and that registration of the mark therein be refused and that the opposition be sustained.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
