Pampering has a Purpose!

Perfectly Posh was founded to be and do something different. It's more than just a line of great products, it's a pampering pursuit. It's taking care of you so that you can take care of all the other things in your life. You'll feel good about our naturally-based, USA-made brand that is becoming the standard for what you put on your skin and how you take care of yourself.

We want YOU to help us Pamper Posh Forward. You deserve to be pampered. Every woman does. Life is busy, complicated, incredible, and fabulous. We should all stop often, even if it's just for a minute, and indulge in it.

Every time another woman starts a business at Perfectly Posh, she receives an exclusive product in her Business Kit. The Ritual™ is a deep-cleansing face mask to put on and pink up her face. It deep-cleans and refreshes: just like pampering should. Then she shares her story of why SHE deserves to be pampered.

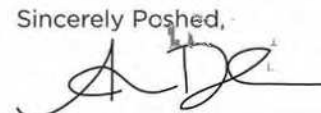

Perfectly Posh is founded on pillars that let smart women run businesses on their own terms and for reasons that THEY choose. Whether it's a large goal or a small one, it's about what we accomplish together. It's about being proud to wear and share the best with everyone we meet.

Take a look at these amazing faces. We're proud to be in the Pink.

HOT SALT Sha-Bang!

A Natural Warming, Deep-Muscle Scrub

Hot Salt Sha-Bang! A luxurious warming salt scrub. Therapeutic active capsi-
(crushed pepper) warms as you rub it into skin, loosening knots and
tight muscles beneath the surface. Then rinse.

ST3708 9 oz \$22 each

Hot Salt Sha-Bang Ingredients: Glycerin, Sea Salt, Butyrospermum Parkii (Shea) Butter, Cetearyl Alco-
hol, Polysorbate-60, Fragrance/Parfum, Capsicum Annum/Frutescens Oil.

Hot Pepper Sha-Bang Butter When you don't have time to do a scrub, touch up tired muscles with
our hot pepper added to skin loving cocoa butter. Massage generously
deep down. Amplify the effect by applying a warm towel or low-heat
electric pad. Pamper those tired aching muscles.

ST3712 7.5 oz \$22 each

Hot Pepper Sha-Bang Butter Ingredients: Water/Aqua, Theobroma Cacao (Cocoa) Butter, Carthamus
Tinctorius (Safflower) Seed Oil, Caprylic/Capric Triglyceride, Dicaprylyl Ether, Cera Alba (Beeswax), Glycerin,
Cetearyl Glucoside, Cetearyl Alcohol, Aloe Barbadensis Leaf Juice, Cetyl Alcohol, Fragrance/Parfum, Tocophi-
erol, Sodium Stearoyl Glutamate, Xanthan Gum, Phenoxylethanol, Sodium Polyacrylate, Capsicum Annum/
Frutescens Oil, Sodium Phytate, Ethylhexylglycerin.

Capsicum

Capsicum is the heat in our salt and pepper. It's derived naturally from the seeds of bell peppers and it offers many benefits to skin and muscles. Rub in deeply and apply with or without heat to amplify the effect.

This topical heat and salt combination stimulates muscles and nerve endings under skin to relax and "unknot" them while serving as a mild pain reliever and detoxifying skin.

Apply Hot-Salt Sha-Bang in the shower and massage in deeply to warmed, washed skin.

Hot Pepper Butter can be applied and not rinsed off. Heat or light will intensify its effects. Massage it in deep. Its effects will soothe deep down for hours after application.

Preserve with Rosemary

Glistened by the sea-misted breeze in the rolling hills of America's most beautiful farm country in Central California, rosemary grows in the rich soils filling the air with its fragrant leaves. Rosemary herb is popularly used to add flavor to recipes, but did you now it's incredibly useful and beneficial for skin care?

It's rich in nutrients including iron, vitamins, and antioxidants. It's a powerful punch for skin all while being gentle. Rosemary is also a known natural preservative for naturally-based products, reducing the oxidization of the nourishing and fragrance oils added to the product recipe. You'll find it in many great products at Perfectly Posh including All Mixd Up. It's gentle, abundant, nourishing, and keeps your products fresh and ready for you to pamper.

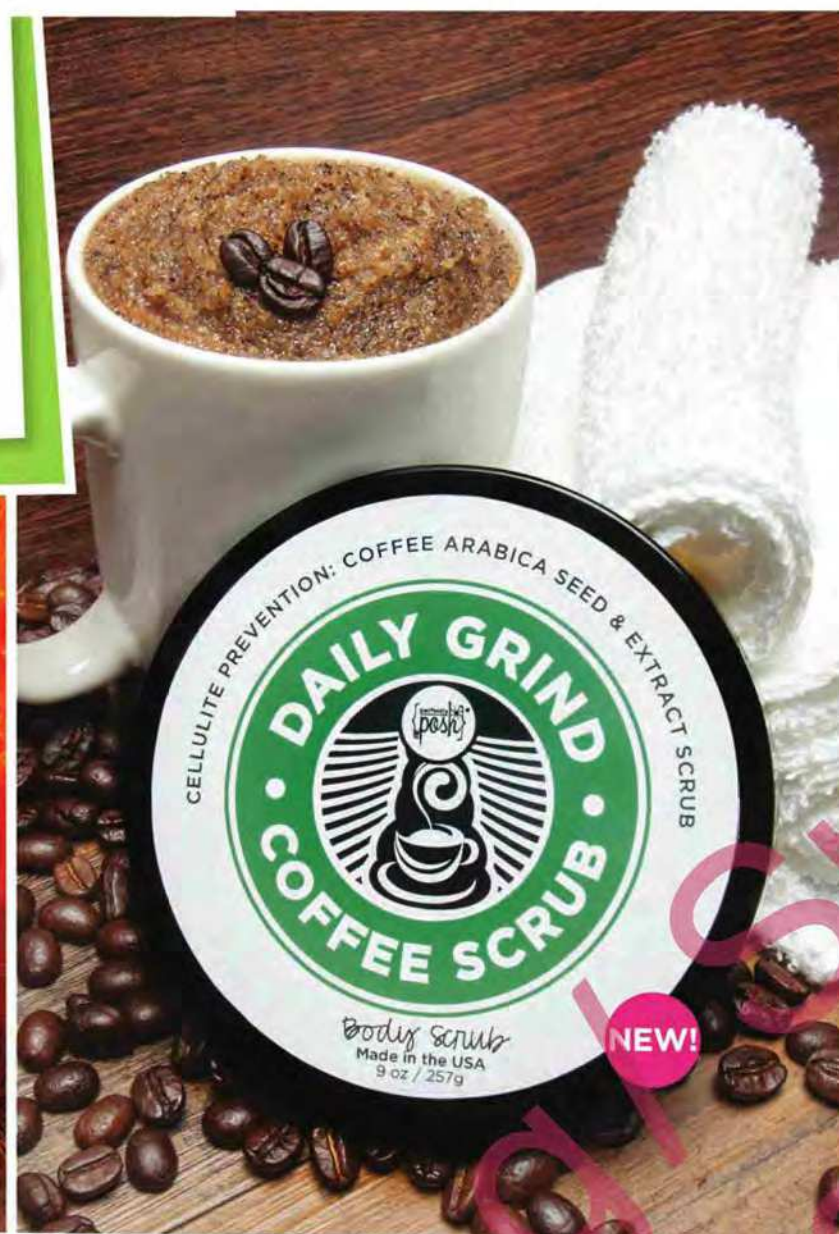

"So glad I have now completed my All Mixd Up! Now I can make a bath for every mood possible! Hundreds...thousands of possibilities!"

7 REASONS TO BE

Passionate About Peppermint

You'll quickly notice we love peppermint for pampering at Perfectly Posh. It does so many great things. It's THE official fragrance and essential oil blend of the Play Footsie line (a creative concoction of tingly mint and a touch of fresh thyme). It's used extensively in our other great pampering products. Here are just a few reasons we think it's so very perfect for Posh:

1. On this page, for obvious reasons: feet love it! It's got enough of a kick to stimulate even tired toes and feet. It's often the hallmark aromatherapy and stimulant component of a great, naturally-based foot care product. It tingles and loves through the toughest skin.
2. Cool off. It naturally offers a gentle cooling sensation to skin. If you're looking to cool off a burning headache, tired neck or more - you can't beat it.
3. I say, "FOCUS!" Because it stimulates, you can count on peppermint to sharpen and focus your mind. Get clarity on any upcoming task.
4. Peppermint dilates and activates your skin to get your blood pumping. If you need to get things going, let a peppermint-loaded pampering product get things moving.
5. No more queasy-queasy. Tighten tummy muscles and calm a dank digestive system with little more than a few deep breaths of perking peppermint.
6. Because blood is pumping, what's weighing you down gets moving. Peppermint can help reduce inflammation as it increases and improves circulation.
7. An astringent agent. Peppermint cleans. It's sparkling kick gets into skin, deep-down and helps clear pores and remove dead, dull skin. It can even help prevent acne as it keeps surface skin light and free - all while being gentle and natural.

Props from Posh

Our Quick Start Rewards Program

There are three levels to our Quick Start Program we call Props from Posh.

As a Consultant you can earn all three - one after the other. If you miss your 30 day goal, no worries! If you get to work, you're still eligible to earn the 60-day and/or the 90-day award.

These goals are also cumulative. This means when you earn your 30 day goal, we take the numbers you already have, and they will apply toward what you need to achieve your 60 and 90 day goals.

Example: if you earned the 30-day Props, and sold \$500 of commissionable product, you then need only to add \$500 MORE in sales plus a recruit to earn.

It's that easy! Make sure you jump into the Pampering Pursuit with both feet and earn your Props from Posh.

The credits you earn are good for the tools and supplies on the Posh Portal, and they are good for YOU. If you want to transfer them to someone in your downline, you may do so, but will need to call Consultant Support before the Consultant you give them to will be able to do use them. The entire credit must be given to one individual.

First 30 Days PROPS

You'll Receive:
• \$30 Posh Portal credit

First 60 Days PROPS

Fresh Lavender

Fragrant Rosemary

ONLY THE BEST INGREDIENTS

Perfectly Posh uses the best ingredients on earth. Join us on a pampering journey you can't help but love as you indulge in the most luxurious butters, oils, fruits, and flowers from every corner of the USA and across the globe. Look over our labels. You'll recognize the simple, natural ingredients, and essential oils we use. Let your skin remind you why you deserve nothing but the best.

Our lovely, lulling lavender originates from the rich and unspoiled fields of Eastern Europe. This popular, aromatic evergreen isn't just wonderful to calm and comfort, it's also a gentle way to help keep your skin clean by reducing bacteria and helping it look young, fresh, and healthy.

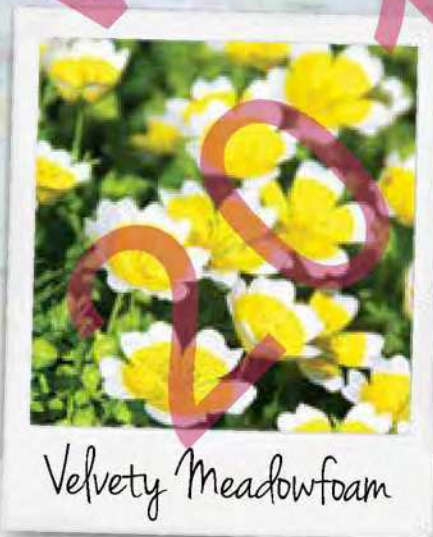

The warm, temperate California coastline is the perfect place to find rolling hills of rosemary. It's one of the most popular essential oils known for its mental clarity properties, but did you also know it does beautiful things for your skin? It not only helps preserve its youthful look, but also helps naturally preserve the life of our Posh products.

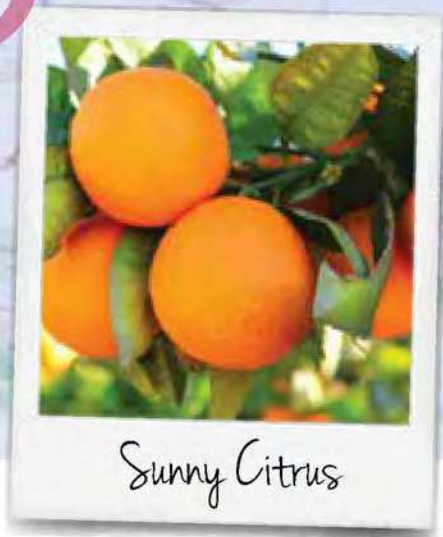

PURELY PAMPERING PRODUCTS

Golden Olive Oil

Velvety Meadowfoam

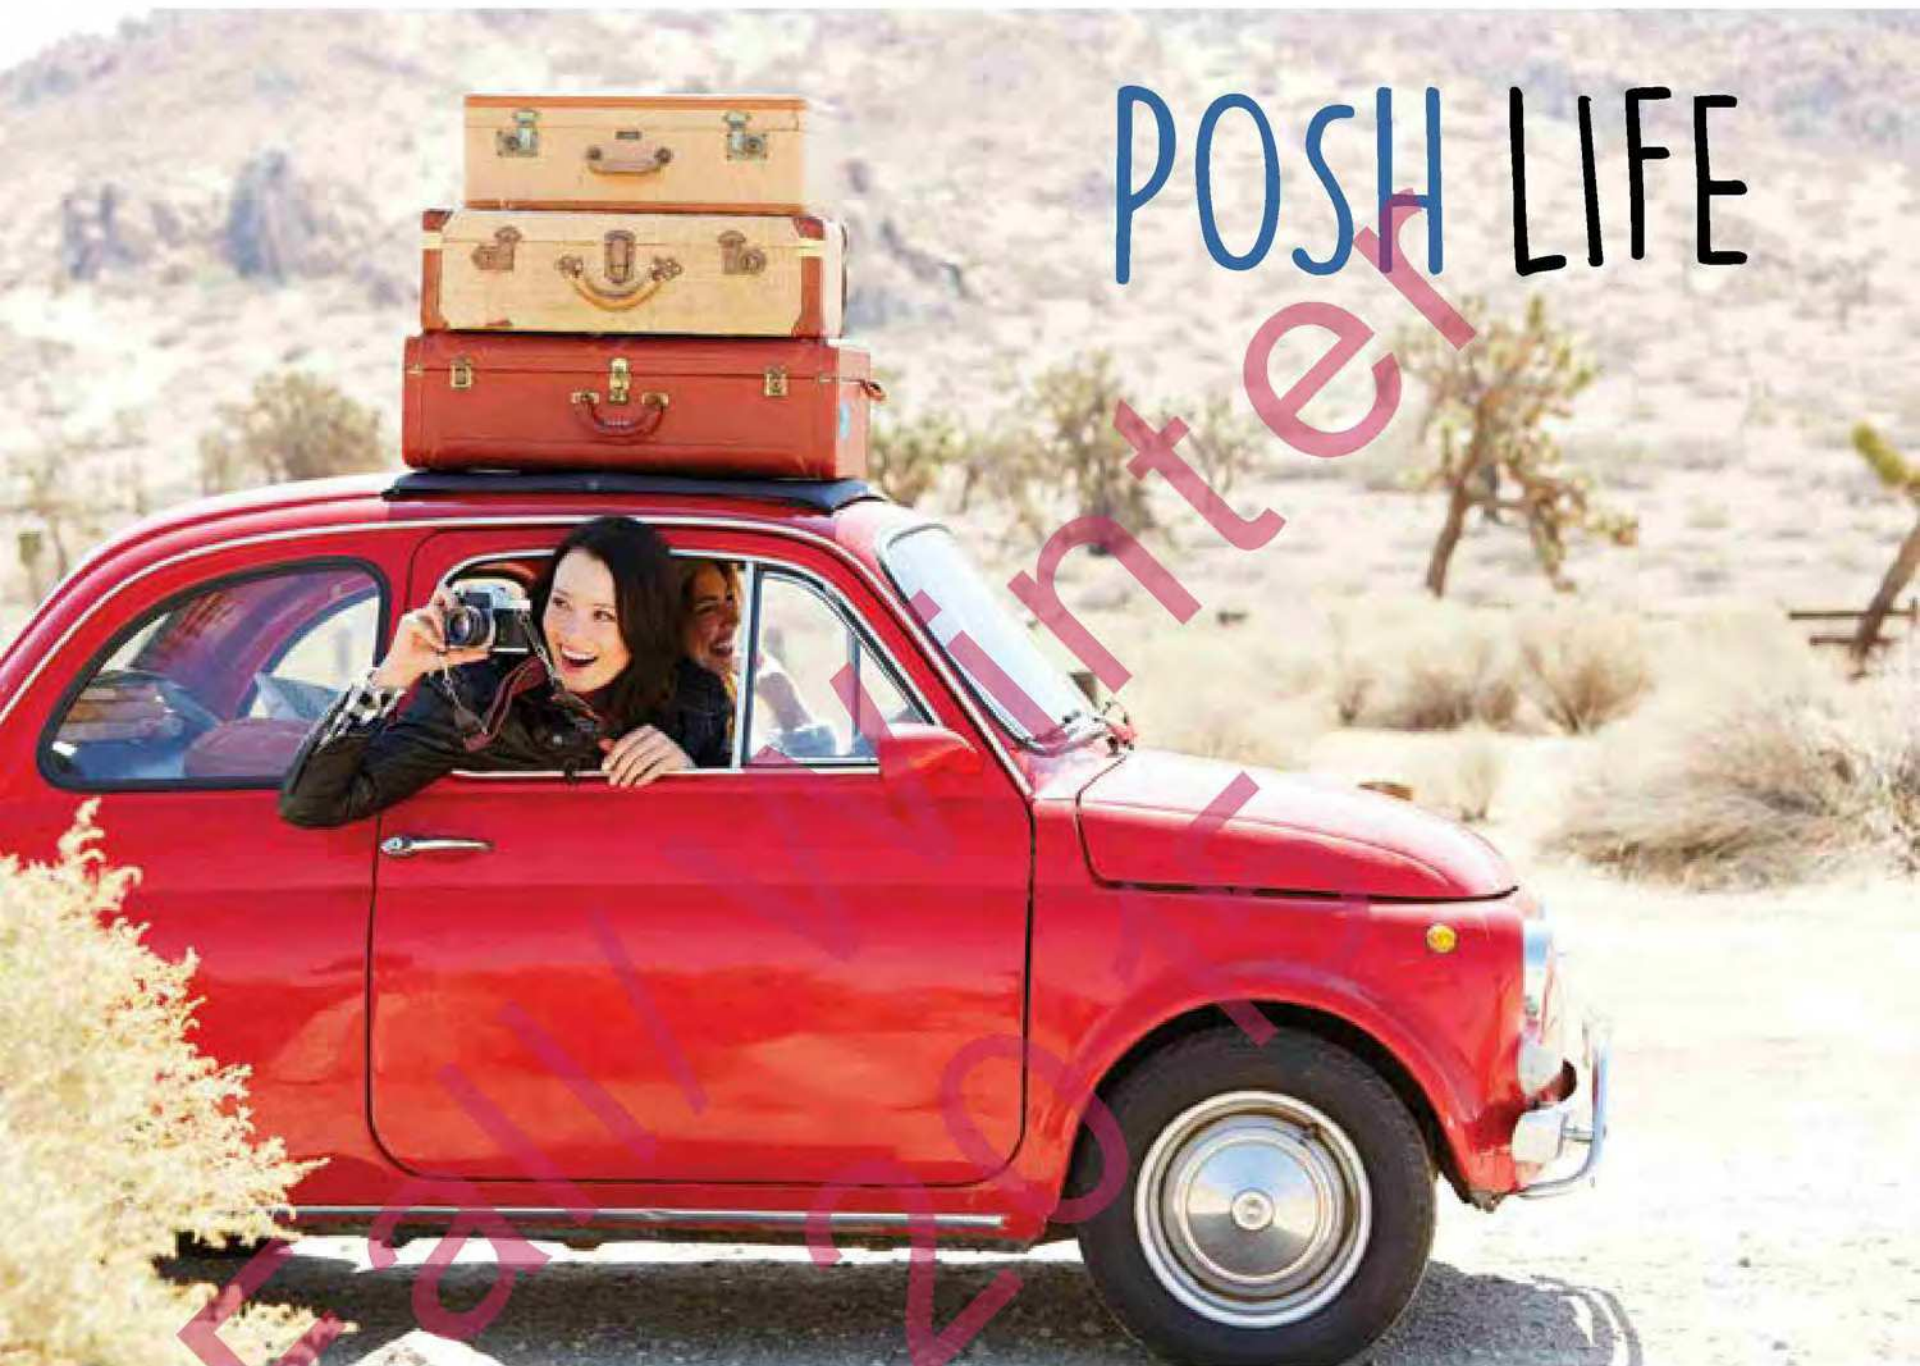

Sunny Citrus

A source of nourishment for thousands of years, the olive provides a rich antioxidant experience that loves, feeds, and promotes healthy skin. Even better, olive oil is similar to the skin's natural oil and easily penetrates skin without clogging pores. The sun-drenched skies of the Mediterranean produce this superfood that we love to use in abundance at Perfectly Posh.

Limnanthes Alba, or meadowfoam, is a plant that thrives in the damp, fertile soils in the Pacific Northwest. Meadowfoam produces a small yellow and white flower that contains highly nourishing oil. When blended into a skincare product, this oil hydrates and rejuvenates skin with a unique velvety feel. It's luxurious pampering that your skin will fall in love with.

We love the benefits of citrus oils and the vitamin C they contain. You can't beat the energizing, clarifying, brightening, and antioxidant qualities your skin can gain from lemon, orange, lime, tangelo, mandarin, and more. Gathered from warm and tropical climates, including the sunny coasts of Florida and California, you'll find our products full of the rich, powerful qualities of citrus.

Just to be safe I keep one in my purse, my car, my husband's car, at the kitchen sink, and on every bathroom counter in the house! My hands always feel and smell amazing thanks to the incredible ingredients we use!

Okay, truth...I always have at least 3 in my bag!"

NOT YOUR ROUTINE FOOTCARE NATURALLY *Posh is better*

THREE STEPS BEFORE YOU STEP OUT

Look like you JUST stepped away from a pedi salon all summer. It's simple to roll these three products into your weekly routine to keep your feet looking fresh.

Scrub

1 Use Rubby Scrubby quickly 3-5X each week when you shower. It's most effective if your feet have been in the warm water for 5 minutes before you start to scrub. Pay extra attention to calloused areas. Rinse thoroughly. Follow with moisture!

Soften

2 EVERY night before you climb into bed, add a thin layer of Schwanky & Soft. No need to sleep in socks. Simply apply and wait about 2 minutes for it to soak in. Sustained use will keep feet smooth!

Soothe

3 Wear any footwear, or none at all, and be confident! Refreshing oils leave a sheen on your feet keeping them looking silky and gorgeous all day. Mist 2 pumps of Twinkle Toes across each foot before stepping into your sandals.

Pampered Pedis

"I own every single Play Footsie product! I love using the Rubby Scrubby (love that peppermint oil) on my feet while in a hot bath to scrub away all the dead and dry skin. Then I follow up with Schwanky and Soft and cover up in some warm socks before bed. In the morning, it's like I went to the salon for a pedicure, only less money and no driving."

GREAT INGREDIENTS FOR *Sexy Summer hair*

HAIR LOVES A MASK, TOO!

Once in a while, stop and take the time to really love your tresses, especially if your hair is damaged from styling or long days in the sunshine.

Our restorative mask features a base of rice protein and shea butter, while a sweet blend of essential oils including abyssinian, grape seed, and jojoba feeds it to leave it feeling soft, smooth...and stylable!

Dry or coarse hair can use this several times per week, while most hair types need it once per week. Coat clean, damp hair generously and leave on for at least 20-30 minutes. Cover and sleep in it once in a while for extra TLC. Rinse thoroughly.

OH, HONEY IT'S *healing*

Honey is one of Mother Nature's known healing agents; it's no exception for your hair! Don't let dry, broken, and damaged hair discourage you. Love on it with honey, which is found in abundance in Offshore Restore!

END SPLIT ENDS WITH KERABEADS®

THE KERABEAD® is the latest in natural, healthy hair technology. Your hair is made of keratin that can break down as hair grows and is damaged by styling and living. The KERABEAD® is specially formulated to bond to hair, rejuvenating it and bonding split, dry ends.

HEAT HELPS HEAL: KERABEAD® technology actually benefits from the heat you use when you style your hair. These unique beads become bonded to your hair shaft while you style for immediate results and long-lasting benefits.

Our special formulation also features mango seed butter and argan oil to add to hair's strength and shine.

HOW TO USE *end mend*

Apply lightly each time you wash your hair. We recommend applying when damp, focusing especially on ends and lower third of hair. For additional repair, reapply with a spot application each time you style.

Apply 3-5 sprays to damp or dry hair. Mist lightly 8-12" away from hair, or spray into palms to apply evenly. Heat helps bond the KERABEAD®. Use hair dryer or flat iron to style as usual. **A little goes a long way. This product should last about 60 days with daily use.**

KERABEAD® is a registered trademark of Capsulent.

SERUMS ARE FOR SHINE!

Silicone-based serums are a gentle way to get shine and control in your hair and help protect against heat styling.

Silicones are derived from heating sand at very high temperatures. They tend to be non-irritating and very effective for hair care.

We've enhanced our thick formulation with extra nourishment from kukui nut, jojoba, and argan oils, as they naturally help smooth, strengthen, and shine.

Apply a little at first to damp or dry hair. Pay particular attention to dry or frizzy ends.

PROTECTING COLORED HAIR?

Never **EVER** use sulfates to wash or style. It pulls and fades colored hair. Good thing Perfectly Posh® is 100% SLS & SLES free!

BE WARY OF WASHING.

How often do you wash your hair? Did you know it's probably too often? Letting your hair learn how to balance and moderate itself helps to keep oils in check and adds healthy shine. Over-washing and styling will cause breakage, damage, and tired, mousy looking hair.

HOW TO AVOID TOO MUCH WASHING:

- Avoid using a lot of hairspray. Use serums and pommades instead.
- Apply coconut oil to your scalp weekly before washing.
- Use a mask to deep condition hair, especially follicles and ends.
- Use natural styling products with good, simple ingredients.
- Apply dry shampoo lightly to keep it clean.
- Brush it. Work it. Keep it tangle-free and well-groomed.

Four to seven days between washes is the ideal amount of time to teach it how to balance itself out. Be patient. It may take you a few weeks to get it educated.

How much do I need?

If you're using a serum or spritz for the first time, start small and work your way up! Remember, it's easier to add more than it is to take off.

Our serum is thick, so a little goes a long way. Start with half a pump if you have short hair.

The Beach Hair Spritz covers generously with each pump. Easy does it, then work it through. Apply more as needed to wet or dry hair.

A SALTY STORY...

If you want more VOLUME in your hair, use sea salt! It's nature's little pick-me-up and it works when it bonds to strands, helping to "chunk" your look and remove the oils that can weigh it down. It's a great way to easily get a breezy look, plus it's gentle enough for every day. Apply spray to damp or dry hair. Use our Vitamin Sea Shampoo for lovely ongoing lift.

Epsom & sea salt is the perfect combination for beachy, breezy hair!

My Favorite Hair Ritual

"For as long as I can remember my hair has been my avenue of self expression. A few years ago I totally fried my hair between the chemical relaxer, hair dye, and heat, so I took a break. End Mend Fix Spritz has been amazing at sealing and protecting my ends so that I can reclaim my canvas of choice."

- Janelle, OK

How's YOUR hair?

DRY OR COARSE?

It should be nourished frequently and deeply. Twice per week, use softening, nourishing ingredients like jojoba, abyssinian oil, shea butter, and coconut oil.

TIP: Don't be afraid to sleep in a hair mask with a shower cap.

TOO FRIZZY?

Serum, sweetie! Tame and tone hair while protecting it when you use a coating silicone base complemented by nourishing oils. **TIP:** Don't rub with a burly towel. Instead, use a 100% cotton jersey tee to squeeze water from hair after washing. Don't blow dry on high. Take your time on a lower setting.

HAVE A DRY SCALP?

Massage your hair mask into your scalp as you apply it or generously apply coconut oil to your scalp when you mask. **TIP:** Time is your friend! Leave treatments on your scalp at least 20 minutes and keep it covered!

IN NEED OF DEEP CLEANSING?

Let a sea salt based shampoo give you a deep clean. Even dry and coarse hair needs an occasional (monthly) deep clean to remove build up of styling products and conditioners. **TIP:** Ease into a sea salt routine. Start slowly and see how your hair reacts.

NEEDS STRENGTHENING?

Coat it and feed it! For brittle hair, make sure you're using deep conditioners and non-drying styling serums. A nourishing spritz of End Mend can also help fix short term and long term breakage. **TIP:** Apply a small amount of End Mend to your worst ends by hand when dry, then flat iron and watch it heal.

TOO OILY?

Sea salt it! Oily hair can handle sea salt spritzes and shampoos frequently. Not only will you have an on-trend look, it will help you bring balance to oily hair. **TIP:** Spray on Beach Hair and air dry! Add a few pumps and let it style on its own. Easy peasy.

COCONUT OIL *all the craze...*

One of THE biggest trends in natural skincare: coconut oil can do it all! Apply our luxurious blend to skin or hair for nourishing and conditioning. We add just a touch of softening sunflower seed oil, preserving rosemary, and a gentle, phthalate-free fragrance to complete your pampering experience.

DYK? SOLID & LIQUID!

Highly natural coconut oils that haven't been cleaned harshly have a VERY low melting temperature, as low as 74 degrees Fahrenheit! That means your coconut oil may vary from a liquid to a solid or somewhere in between at any time. It's natural!

OUTTASIGHT!

Pomegranate seed oil helps stimulate cell turnover, which can both improve skin's texture and promote younger-looking skin. Use it daily in our Hippie Hooray Body Crème.

IN SHOWER Lotion

Moisturize in your shower and save time! Warm water opens your pores so it can receive natural nutrients much better. Skip the big brands that are loaded with petroleum-based ingredients and opt for calming lavender and soothing shea butter instead. We soften in the shower, naturally!

Can be used post-shower on damp skin, too!

It's all about that Base...

Choose the body butter base that's right for you. Each offers a different nourishing experience. Read up and figure out which is best for you.

SHEA BUTTER BASE

The thickest experience you can have with a body butter. It provides a protective coating on skin that can seal cracks and soothe dry irritation, while adding nutrients. Feels decadent and nourishing on skin.

COCOA BUTTER BASE

A heavy feeling base, cocoa butter is high in antioxidants, which can help prevent free radicals from damaging skin, helping it look elastic, fresh, and youthful.

MANGO BUTTER BASE

The most luxurious feeling base, mango has a velvety quality when applied to skin. Known for its ability to help soothe irritations and surface skin conditions. It's highly emollient and glides easily over skin, leaving it soft and supple.

Apply like a Pro

THE BEST TIME TO APPLY

a nourishing body butter from Perfectly Posh® is right after you jump out of the shower. Pat skin dry (never rub!), then smooth over. Pores are warm, open, and ready to be fed! Make it your post-shower ritual!

CONSIDER YOUR CLIMATE

Depending on your skin type and the humidity levels where you are, vary your butter! Go lighter in high-humidity, and allow time for it to soak into skin. Use heavy, loving layers in dry, more aggressive climates.

SUNNY SEASONS

If you'll be out in the sun all day, you might also want to choose a lighter load. Sitting in an air conditioned office? You'll want to protect your skin with something stronger.

IT LASTS A REALLY LONG TIME!

Don't be deceived because you've used other brands. There are no empty filler ingredients in the butters at Perfectly Posh®. It takes less than you think to cover yourself, whichever butter is right for you. Lighten up!

DYK?

The Healer was the FIRST product Perfectly Posh® developed. It's a concentration of shea butter, protective beeswax, and just a touch of natural vanilla and orange essential oil.

Shea butter has been helping heal nearly any and all skin ailments for centuries. Our CEO Ann put it in the line FIRST because she'd been using it on her son for years and knew nothing was more pampering than healthy skin.

To date, well over 1 million Healers have been soothing skin all over the USA. Get a few to keep with you to do the same.

Essential oils

Once we saw the success of The Healer, we realized how great it was to provide natural, pampering ingredients in a way that they could go with you anywhere. It inspired us to blend the best essential oils into the concept. Skin Sticks became part of our pampering family and one of our best-selling lines.

TIPS FOR GREAT SUMMER SKIN

As weather warms up, and we all head outside—a few simple steps will make sure your skin has a healthy, natural glow when you show it off!

- Hydrate inside and out! Make friends with a water bottle you can take everywhere you go and drink up! Then, find a healthy, light but nourishing moisturizer for skin: tip to toes!
- Exfoliate often! As you expose your skin to more sunshine and outside weather, dead and dry layers can pile up more quickly. Up your full body exfoliating game, and always use one made for your face, on your face!
- Always soothe skin after sun time. Even if you avoid a burn, replace the moisture it removes as soon as you get back indoors.

Refresh YOUR FACE

Give yourself a facial as often as you NEED it, not as often as you can escape to the spa. Remove dead, dry skin and pull toxins from pores, then feed your face a frenzy of vitamins, antioxidants, and other nourishing things.

BE MINDFUL OF YOUR SKIN:

Cleaning skin is an important part of everyone's routine, no matter your age. It helps keep skin looking young, fresh, and blemish-free. Just be mindful.

Anytime you remove things from your face, it's important you take time to put good things back. Always follow an elimination mask with a moisturizing experience.

You also probably don't need an elimination experience every day, but most skin types do need a little moisturizing, especially if you're over 30.

Try different types and combinations of masks. Everyone's skin will respond to different regimens.

BUILD YOUR DAILY FACE RITUAL

Use these great Look Natural™ products with enhancements from our Specialty Face products to build the PERFECT routine for your skin, naturally!

EXFOLIATE. EVERY. DAY.

You may have heard how important it is to your anti-aging routine to exfoliate every day. It's vital in keeping fresh layers of skin on the surface to help prevent buildup that can age you and slow down the production of vital collagen and other rejuvenation processes.

Our BFF Face Wash features planet-friendly exfoliation, derived from sugar cane, that is mild enough for daily use on most skin types. Its soothing formulation is complemented by grapefruit and peppermint oils, providing an astringent quality and natural cleansing.

Rinse thoroughly and always follow with nourishing moisture.

ANYTIME MOISTURE

It's great for every face to have a go-to moisturizer: not too heavy, not too light, and FULL of the things your face needs every day. Night & Day features light, but nourishing, olive oil and aloe. It won't clog pores and can be used to treat dry areas or as a great all-over moisturizer.

REALLY! You can use it both night and day!

FACE OILS ARE FOR EVERY TYPE OF SKIN

It MIGHT sound counterintuitive, but face oil really is for everyone. Whether your skin is naturally dry, oily, or in between, face care is all about getting the right things on and the wrong things off. That means adding wonderful nutrients with a face oil really does work on any skin type!

DAY TIME: Use our lighter concoction. It will give you a dewy look without weighing you down, and it includes things like coffee oil for a bit of tightening lift.

BED TIME: After you wash, place 3-4 drops on your fingertips and gently press our nighttime oil into any problem areas. It features a jojoba base with an essential oil blend to help soften and plump skin overnight.

Tip

Blend a couple drops of face oil into your cosmetic sponge with your foundation for luxurious coverage!

SUNSCREEN IS A MUST

The SINGLE biggest thing you can do to keep your face looking young and healthy is to cover up EVERY day with a natural sunscreen. Throwing Shade features:

- A luxurious base: apply it after your favorite oil or moisturizer. It feels fantastic.
- Time release oleosomes that hold in moisture all day long.
- A soothing lavender oil that helps ward off irritation in the sun.

REALLY! Use it EVERY. SINGLE. DAY. Your 40s and 50s will thank you for it.

Tip

Be sure to apply sunscreen before you go outside. It can take up to 15 minutes for your skin to absorb.

Pick 6 for your face

What to Try?

Start with Skin Type:

OILY: Wash with gentle cleansers that aren't too astringent—stripping too much oil from your skin can actually cause it to produce more. Follow with a light moisturizer every day.

COMBO: Use a light face wash and balance with night and day moisturizers. Don't be afraid to only apply moisture in dry areas for day coverage.

DRY: Exfoliate & feed! Moisture masks and treatment systems like Never Grow Up help you add and replenish what's missing. Love layers of product and nourish at least twice each day.

Give it Time...

Any time you apply a moisturizer, sunscreen, or other primer, always leave 2-3 minutes for it to set before applying anything else. Give foundational products the chance to adhere to your skin and bond into place. Plus, allowing the excess to evaporate before applying additional products or cosmetics gives you the best chance for them to be successful.

Face Phase-In

Give each product at least two weeks for your skin to learn it! Easing into new products by trying them on small areas, applying for short amounts of time, and stepping into daily use will help you prevent irritation, blemishes, and backlash, especially if your skin is sensitive.

Give it a press...

Never wipe, smear, or rub anything on your face. Be kind to aging skin cells and other elastic systems that fade with time.

Pat and press! You can get most products in and on your skin when you use this simple technique.

Top Posher Darlean shares her daily face routine:

"At 42, I get compliments on my skin all the time!"

*"I wash with **BFF** followed up with **Never Grow Up Serum** every single day! Then, use **Never Grow Up Crème**. I let them set in and use **Dawn On Me** before applying my makeup!*

None of these products better leave us! I get compliment after compliment on my skin!"

How to Choose?

BFF vs. Complexion Perfection

Which to pick? **BFF** is a more sophisticated blend of nourishers that help feed and exfoliate skin. It's great for extremes: very dry/very oily skin, every day. Include it if you're looking for great anti-aging products.

Complexion Perfection features a simpler formula for less complicated and younger skin. If you don't need excessive cleaning, CP is your go-to. Ground walnut shell powder is lightly featured for the most gentle exfoliation. Great for tweens, teens, and early-twenties skin.

Night & Day vs. Moisturize 911

How do you start choosing daily moisture? Ask yourself: what is your skin hungry for? If you have dry or combination skin, you'll want a sophisticated complex and the full-bodied set of nutrients offered by **Night & Day**.

Looking for something lighter to take you from morning to night, or do you generally need to pack less of a hydrating punch? The aloe base of **Moisturize 911** is the place to start.

Need a little energetic lift? You can always add M911 under any layer of moisture you choose. It's loaded with caffeine and citrus essential oils to help give you a tight, bright look.

SNARKY OR SCRUB

Skin going through a rough patch? With naturally based exfoliants, our Snarky Bars™ and Body Scrubs buff away dry, rough skin in no time. They all feature hydrating ingredients, so you can polish and hydrate your skin in one go!

BODY SCRUBS are gentler, because they're loose and you decide how much pressure to use. They provide a more luxurious and nourishing experience with added natural enhancing ingredients for your skin's needs, like skin-conditioning, exfoliating, and moisturizing.

PAMPERED!

DON'T DO IT!

Petrolatum Sulfates to Avoid:

Sodium Lauryl Sulfate and **Sodium Laureth Sulfate**, or **SLS & SLES**, are two very common ingredients in bath products.

They're effective surfactants and lathering agents. They break down dirt and oils to strip skin clean. They're inexpensive and abundant.

They're also derived from petroleum & known to contain chemical dioxane, which can be VERY irritating to your skin.

READ YOUR LABELS!

And then shop Posh. All of our bath products contain lathering and cleaning agents derived from palm and coconut oils. We're naturally pampering!

How many Posh Products do YOU use every day?

It'll become a habit... you need MORE pampering than you think! Look at the daily rotation of these Posh rockstars:

WEEKLY COMMISSIONS ON CURRENT TITLE	
Rank of Protégé	Ranks of Pink & up
20%	25%
<small>personal sales volume of less than \$1,000 lifetime</small>	

Perfectly Posh® pays your personal commissions weekly. When you submit orders Sunday-Saturday, you are paid the following Wednesday. You receive commission based on your current rank.

Other commission bonuses and Rank Advancements occur monthly on the 10th of the following month. Plan your life and your Posh business around the needs you have in your home.

COMPENSATION PLAN FAQs

How is my commission check calculated?

The most important rule is: Your Rank, Their Title. To calculate how much you earned on the sales of Consultants in your downline, you simply need to know your Rank for that month and the Title of each of your Frontline Consultants. You are paid on the Team Volume (TV) of each of your Frontline Consultants.

What is PV and how does the retail price of an item & its commissionable volume relate?

PV stands for Personal Volume. During any month, it is the total of your personal commissionable sales. This includes anything you sell to customers or buy for personal use. At Posh, the commissionable value of an item is equal to its retail price for most items. For example, if you are making 20% commission & sell \$100, you earn \$20—plain & simple.

What is QFC?

Qualified Frontline Consultants (QFC) are your personal recruits who sell 200 PV or more in a month.

What are TV and CV, and what is the difference between my Team and my Company?

Your Company includes you and every Consultant in your downline, regardless of their titles. Your Company Volume (CV) is simply the total PV for all Consultants in your Company. Your Team includes you and every Consultant in your downline who is not a Premier or in the downline of a Premier.

Therefore, your Team Volume (TV) is simply the total sales volume for all Consultants in your Team. If you have not yet reached Premier, and neither has anyone in your downline, then your Company and your Team are the same. TV and CV only become different when someone in your downline promotes to Premier or above.

Pampering SUCCESS STORIES

"I joined Perfectly Posh® because I wanted a discount on these fabulous products, but I started working my business when I realized that it could change my life!

Posh has opened up a world of possibilities to me! This business has given me beautiful, genuine friendships with people I'd never otherwise know, amazing

travel experiences, and changed the way I view myself. I am no longer a timid, socially awkward girl. I am a strong, motivated woman with the confidence and knowledge that I can truly accomplish any goal that I set my sights on. This confidence has helped me guide, empower, and positively impact countless lives in ways that I never believed I would ever be able to. Posh has truly transformed my life!

I don't hope for my future with Posh; I plan for it. I will continue to inspire those around me, I will continue to grow and develop as a leader, and I will continue to positively impact the lives of others. I will be a Platinum Premier and I will never stop striving to be the absolute best version of myself. I am Posh!"

**- ALYSSA, NV
GOLD PREMIER**

"I started my Posh business in order to coach women on how to be business owners. I love watching my team grow and develop into leaders, gain confidence, and 'find themselves' again.

What I love most about my Posh business is the experiences I have had that I would never have gotten on my own or in

corporate America. I've been on amazing all expense paid trips to top rated spas and Caribbean islands, earned Tiffany jewelry, and thousands in cash. I have even spent a day in a photo shoot with stylists and professional photographers in New York City. I've been able to buy expensive gifts for my family like designer bags, electronics, and Christmas gifts, all on top of my Posh paycheck. Most importantly, my Posh income has allowed me to become debt free!

As I transition from my job as an executive in corporate America to working my Posh business full-time, I'm looking forward to working with women on building their Posh businesses, pursuing their dreams, and changing their families lives."

**- MARIA, OH
GOLD PREMIER**

"I joined Perfectly Posh® in July of 2016, because I fell in love with the amazing products. I was very excited to be able to make extra money sharing these wonderful products and information about a company that did so much for their Consultants.

Posh has changed my life in so many ways. I'm a more confident person and I'm able to do so many extra things with my family that we couldn't have done before financially: we can now take trips, pay bills, and save for

the future. Never did I dream that I would be where I am today. I have so many amazing customers and a great team that all love Posh and believe in it as much as I do. This process truly has changed our lives for the better and I can't thank Posh enough. This company has truly blessed our family and I thank God everyday I took a leap of faith and joined.

I feel the best is yet to come for my team. We are currently a Premier Team with over 100 Consultants and have already accomplished this in just under 5 months. I know we will become a Silver Premier team soon and can't thank everyone enough for all the support, trainings, and most of all the sisterhood of Posh which truly helps aide in the success of everyone. This company is amazing and I see lots of success for myself and my team happening very soon."

**- MONIQUE, LA
PREMIER**

"As a Marine wife and stay-at-home-mom to two babies, I saw the potential with Posh for a life-changing opportunity to work from home. My passion for the products fueled me in reaching for seemingly impossible dreams!

I knew when I started that I was going to give it my all, but if you had told me two years ago that I would be where I am today, I wouldn't have believed you. I was in a really dark place

before Posh, but the friendships and support from my Posh sisters have totally turned my life around. Between building a career while at home with my babies, going on several free trips to dream destinations, like Italy, and making the strongest friendships in my life, this company has shown me that no matter where you are when you start you can absolutely make your dreams come true.

My dreams with Posh are huge. I hope to one day have a pampering place where customers can come unwind at spa parties and team members can come get great training and camaraderie. It'll be all Poshy and pink and polka-dotted and I just know that I will be so excited to come to 'work' every day."

WHAT IS YOU DESERVE IT

You Deserve It is the charitable arm of Perfectly Posh, a pampering products company founded in 2011. We've always believed that what makes us all better is taking time to take care of ourselves. As the company has grown, our opportunity to share has, too.

The mission of You Deserve It is twofold. To help women everywhere with:

- Temporary relief in the form of pampering—a moment to catch their breath
- And assistance in many forms as we rally around causes and organizations that help them with a hand-up in their lives

WHY YOU DESERVE IT MATTERS

EVERYONE deserves to KNOW that they matter, that they can set a goal and accomplish it. Perfectly Posh was founded on this principle, therefore the goal of our foundation helps us to reach beyond the business and share what matters most.

WHO DESERVES IT

You Deserve It is our Perfectly Posh community: our tens of thousands of pampering Independent Consultants from all over the USA, along with our Home Office team and regional distribution centers. We use our time, talents, and resources to support causes and organizations that help us fulfill the mission and improve the contribution of our business to our community.

We serve women everywhere who still might need to learn that they deserve time for themselves, and who could use a hand-up to improve their lives and the lives of their families.

WHEN IT HAPPENS

Several times each year, You Deserve It focuses on causes that YOU can participate in. Whether you purchase products to help fund projects or would like to roll up your sleeves and join us, you can see what we're up to right now at YouDeserveIt.org and find out how YOU can participate.

WHERE IT HAPPENS

Our projects will reach ALL over the USA. If you have an idea for a project in your community, please use the form on our website and we'll evaluate your request. Our projects change several times per year. We'd love you to help us get your neighborhood involved.

HOW TO GET INVOLVED

You Deserve It will always have ways you can participate. See our website to learn more about

- Joining in a local or national cause
- Donating to our current or upcoming projects
- Purchasing products branded for You Deserve It to help us promote and raise the resources to fund our ongoing activities

You can also watch for select Splurge products from Perfectly Posh from which a portion of the proceeds will be contributed to our Foundation and its causes.

You Deserve It staffing, and many of its resources are directly provided by Perfectly Posh, LLC and its Board of Directors. We thank all those willing to contribute in any way they are able to help us do more good.

We're especially grateful to the thousands of pampering Consultants all over the country whose excitement and enthusiasm will help us carry the good our business can do even further.

Business is good, but women are great,

and when we work together there is no limit to the good we can do.

Let's All Get Involved

EYES TO THE SKIES: BLUE FLOWER MOON TONIGHT

Posted by Posh Goth on May 18, 2019

(Posh Goth) - On May 18th, sky gazers will be treated to not only the first full moon of May (known historically as the flower moon) - but the full flower moon will coincide with a blue moon. May's full moon is known as the flower moon because its arrival signals the eruption of blooms. A blue moon, on the other hand, is typically the second of two full moons in a month's time frame, however a blue moon could be a 3rd or 4th full moon in a given month. A blue moon is not actually blue in color. To give you an...

**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE
BEFORE THE TRADEMARK TRIAL AND APPEAL BOARD**

**In the Matter of Application Serial Nos.: 87609820, 87646907
Published in the *Official Gazette* on:**

Perfectly Posh LLC,

Opposer,

v.

Opposition no.: 91241488

Jacqueline Abner-Pongratz,

Applicant.

_____ /

**APPLICANT’S RESPONSES AND OBJECTIONS TO OPPOSER’S
FIRST SET OF REQUESTS FOR PRODUCTION OF DOCUMENTS AND THINGS**

Pursuant to Fed. R. Civ. P. 26 and 34, Applicant, Jacqueline Abner-Pongratz, (“Abner-Pongratz” or “Applicant”) serves upon Opposer, Perfectly Posh. LLC (“Perfectly Posh” or “Opposer”) the following objections and responses to Opposer Perfectly Posh LLC’s First Set Of Requests For Production Of Documents And Things.

GENERAL OBJECTIONS

Abner-Pongratz hereby adopts and incorporates by reference the following general objections to the extent that they apply to Opposer’s Demands:

1. Any response of Abner-Pongratz given herein to a Demand is based solely on the information currently available to it, and it specifically reserves the right to supplement, amend, or modify its responses and objections to the Demand.

2. Abner-Pongratz objects to each Demand to the extent it is inconsistent with, or it requires disclosure of information beyond the scope of permissible discovery under, the Federal Rules of Civil

Procedure or other applicable law, does not make sense, or is unduly burdensome or oppressive or seeks information or documents that are not in its possession.

3. Abner-Pongratz objects to each Demand to the extent that it will require it to respond by disclosing their attorneys' or any other of its representatives' advice, mental impressions, conclusions, opinions, computations, calculations, projections, reasons, legal theories, or other work product.

4. Abner-Pongratz objects to each Demand to the extent that it seeks information protected by the attorney-client privilege, attorney work product doctrine, or is otherwise confidential or proprietary, or subject to any other privilege or protection. Further, Abner-Pongratz objects to the production of any document prepared for or in anticipation of litigation, and objects to the requested disclosure of the content of such documents.

5. Abner-Pongratz objects to each Demand to the extent that it seeks documents regarding matters outside the scope of this litigation.

6. By responding, Abner-Pongratz does not concede the relevancy or materiality of each Demand or of the subject to which the Demand refers. Its response to each Demand is made expressly subject to, and without in any way waiving or intending to waive, any questions or objections as to the competency, relevancy, materiality, privilege, or admissibility as evidence or for any other purpose, of any of the documents or information referred to or produced or of the responses given herein, or of the subject matter thereof, in any proceeding (including the trial of this action or in any subsequent proceeding). The responses, if any, are made subject to its right to object to any discovery proceeding involving or relating to the subject matter of the Demand responded to herein.

7. Abner-Pongratz states that to the extent it produces documents or provides information, it does so solely on its own behalf and not on behalf of any agent, accountant, attorney, representative, affiliate, corporate subsidiary, corporate parent, division, joint venturer, partner, predecessor, successor,

or assignee of Abner-Pongratz (including the officers, directors, or employees of any of these entities), if any such person or entity exists.

8. To the extent Abner-Pongratz adopts any terms or phrases defined or used by Opposer, the terms or phrases are adopted solely for the sake of convenience in responding to the Demand, and it does not accept or concede that any of the terms, phrases, or definitions are appropriate, descriptive, or accurate. Abner-Pongratz's response to any Demand does not represent its agreement to any premise or preface to the Demand, nor does its objection to any Demand signify that information or documents are being withheld.

9. Abner-Pongratz objects to each Demand to the extent that it is so vague and ambiguous as to be incapable of a definite response.

10. Abner-Pongratz objects to each Demand to the extent that they request the production of documents that are not in the possession, custody or control of Abner-Pongratz.

11. Abner-Pongratz objects to each Demand to the extent that it seeks litigation or trial strategy materials.

12. Abner-Pongratz objects to each Demand generally on the grounds that they are overly broad, unduly burdensome, and not reasonably calculated to lead to the discovery of admissible evidence.

13. Abner-Pongratz objects to each Demand to the extent it seeks documents or materials in the public domain, that are already within Opposer's possession or control, or generally available to Opposer, on the grounds that such requests are unduly burdensome and oppressive.

14. Abner-Pongratz objects to each Demand to the extent it requests documents or materials that are irrelevant and immaterial to this action and are not reasonably calculated to lead to the discovery of admissible evidence.

15. Abner-Pongratz submits these responses and objections to the Demands without conceding the relevancy or materiality of the subject matter of any Demand, and without prejudice to its right to object to further discovery, or to object to the admissibility of any additional proof on the subject matter of any documents at trial.

16. Insofar as any of Opposer's demands seek information to which the foregoing general objections apply, specification of or failure to note particular general objections is not a waiver of those or other general objections with respect to the Demand.

SPECIFIC OBJECTIONS AND RESPONSES

Abner-Pongratz makes these responses without waiving or intending to waive any objections to the competency, relevancy, materiality, privilege, or admissibility of any of the Demands, or their responses thereto, at trial (if any) or otherwise. Abner-Pongratz reserves the right to object to the admissibility at hearing of any information produced in connection with such responses.

Subject to the foregoing General Objections, which are incorporated into each response below as if fully set forth therein, Abner-Pongratz specifically objects and responds to Perfectly Posh's Demands as follows:

SPECIFIC OBJECTIONS AND RESPONSES

- 1. All documents that detail, exemplify, explain, or corroborate the information identified or relied upon in preparing Applicant's Answer or Applicant's responses to Opposer's Interrogatories.**

RESPONSE:

In addition to its General Objections, Applicant specifically objects to this document demand on the ground that it is overly broad in that it requests "all documents." Also, Applicant specifically objects to the document demand on the ground that it is vague, ambiguous, and unduly burdensome, and fails to

describe the documents with reasonable particularity. In doing so, it seeks the production of documents that are neither relevant to the material issues in this litigation, admissible at trial, nor reasonably calculated to lead to the discovery of admissible evidence. Applicant also objects to the document demand on the grounds that it seeks Opposer's confidential and proprietary information. Applicant also objects to the document demand to the extent that it calls for the production of documents that are protected from discovery by the attorney-client privilege and/or work product doctrine.

Subject to these objections, including the General Objections set forth above, Applicant will produce or permit inspection of non-privileged documents which are reasonably responsive to this demand and which are in Opposer's possession, custody, or control and are relevant to the material issues in this litigation, admissible at trial, or reasonably calculated to lead to the discovery of admissible evidence on a rolling basis as they are identified.

2. Documents referring or relating to Applicant's selection, adoption, and clearance of Applicant's Marks, including but not limited to all searches, investigations, reports, and opinions.

RESPONSE:

In addition to its General Objections, Applicant specifically objects to the document demand on the ground that it is vague, ambiguous, and unduly burdensome, and fails to describe the documents with reasonable particularity. In doing so, it seeks the production of documents that are neither relevant to the material issues in this litigation, admissible at trial, nor reasonably calculated to lead to the discovery of admissible evidence. Applicant also objects to the document demand on the grounds that it seeks Opposer's confidential and proprietary information. Applicant also objects to the document demand to the extent that it calls for the production of documents that are protected from discovery by the attorney-client privilege and/or work product doctrine.

Subject to these objections, including the General Objections set forth above, Applicant will produce or permit inspection of non-privileged documents which are reasonably responsive to this

demand and which are in Opposer's possession, custody, or control and are relevant to the material issues in this litigation, admissible at trial, or reasonably calculated to lead to the discovery of admissible evidence on a rolling basis as they are identified.

- 3. Documents sufficient to identify and describe the products that are or have been sold under Applicants' Mark including, for each product, the date range during which Applicant's Marks have been used, or are intended to be used, from the date of first use to the present, including any periods of non-use.**

RESPONSE:

In addition to its General Objections, Applicant specifically objects to this document demand on the ground that it is overly broad in that it requests "all documents." Also, Applicant specifically objects to this document demand on the ground that it is overly broad in that it requests "documents sufficient to identify and describe the products that *are or have been* sold under Applicants' Mark including, for each product, the date range during which Applicant's Marks have been used, or *are intended to be used...*" Applicant further specifically objects to the document demand on the ground that it is vague, ambiguous, and unduly burdensome, and fails to describe the documents with reasonable particularity. In doing so, it seeks the production of documents that are neither relevant to the material issues in this litigation, admissible at trial, nor reasonably calculated to lead to the discovery of admissible evidence. Applicant also objects to the document demand on the grounds that it seeks Opposer's confidential and proprietary information. Applicant also objects to the document demand to the extent that it calls for the production of documents that are protected from discovery by the attorney-client privilege and/or work product doctrine.

Subject to these objections, including the General Objections set forth above, Applicant will produce or permit inspection of non-privileged documents which are reasonably responsive to this demand and which are in Opposer's possession, custody, or control and are relevant to the material issues in this litigation, admissible at trial, or reasonably calculated to lead to the discovery of admissible evidence on a rolling basis as they are identified.

4. Documents sufficient to identify the strategies used for marketing and promoting Applicant's Goods under Applicant's Marks, including, but not limited to, marketing plans, advertising plans, strategic business plans, and market research.

RESPONSE:

In addition to its General Objections, Applicant specifically objects to the document demand on the ground that the terms "sufficient to identify" are vague, ambiguous, and unduly burdensome, and fail to describe the documents with reasonable particularity. In doing so, it seeks the production of documents that are neither relevant to the material issues in this litigation, admissible at trial, nor reasonably calculated to lead to the discovery of admissible evidence. Applicant also objects to the document demand on the grounds that it seeks Opposer's confidential and proprietary information. Applicant also objects to the document demand to the extent that it calls for the production of documents that are protected from discovery by the attorney-client privilege and/or work product doctrine.

Subject to these objections, including the General Objections set forth above, Applicant will produce or permit inspection of non-privileged documents which are reasonably responsive to this demand and which are in Opposer's possession, custody, or control and are relevant to the material issues in this litigation, admissible at trial, or reasonably calculated to lead to the discovery of admissible evidence on a rolling basis as they are identified.

5. Documents sufficient to identify each channel of trade through which Applicant markets, offers, distributes, and sells Applicant's Goods bearing Applicant's Marks.

RESPONSE:

In addition to its General Objections, Applicant specifically objects to the document demand on the ground that the terms "sufficient to identify" are vague, ambiguous, and unduly burdensome, and fail to describe the documents with reasonable particularity. In doing so, it seeks the production of documents

that are neither relevant to the material issues in this litigation, admissible at trial, nor reasonably calculated to lead to the discovery of admissible evidence. Applicant also objects to the document demand on the grounds that it seeks Opposer's confidential and proprietary information. Applicant also objects to the document demand to the extent that it calls for the production of documents that are protected from discovery by the attorney-client privilege and/or work product doctrine.

Subject to these objections, including the General Objections set forth above, Applicant will produce or permit inspection of non-privileged documents which are reasonably responsive to this demand and which are in Opposer's possession, custody, or control and are relevant to the material issues in this litigation, admissible at trial, or reasonably calculated to lead to the discovery of admissible evidence on a rolling basis as they are identified.

6. Documents sufficient to identify the nature, demographics, identity, location, and characteristics of each class or type of purchaser to whom Applicant markets, offers, distributes, and sells Applicant's Goods bearing Applicant's Marks.

RESPONSE:

In addition to its General Objections, Applicant specifically objects to the document demand on the ground that the terms "sufficient to identify" are vague, ambiguous, and unduly burdensome, and fail to describe the documents with reasonable particularity. In doing so, it seeks the production of documents that are neither relevant to the material issues in this litigation, admissible at trial, nor reasonably calculated to lead to the discovery of admissible evidence. Applicant also objects to the document demand on the grounds that it seeks Opposer's confidential and proprietary information. Applicant further objects to the document demand to the extent that it calls for the production of documents that are protected from discovery by the attorney-client privilege and/or work product doctrine.

Subject to these objections, including the General Objections set forth above, Applicant will produce or permit inspection of non-privileged documents which are reasonably responsive to this demand and which are in Opposer's possession, custody, or control and are relevant to the material issues

in this litigation, admissible at trial, or reasonably calculated to lead to the discovery of admissible evidence on a rolling basis as they are identified.

- 7. All advertising and promotional materials in each media or forum utilized (e.g., print, television, radio, Internet, billboards, trade shows, etc.) featuring, displaying, or containing Applicant's Marks, from the earliest date of Applicant's use of Applicant's Marks to the present, and documents sufficient to identify the geographic area in which each promotion was distributed or targeted.**

RESPONSE:

In addition to its General Objections, Applicant objects to this document demand on the ground that it is overly broad in that it requests "all advertising and promotional materials." Applicant further objects to the document demand on the ground that the terms "sufficient to identify" are vague, ambiguous, and unduly burdensome, and fail to describe the documents with reasonable particularity. In doing so, it seeks the production of documents that are neither relevant to the material issues in this litigation, admissible at trial, nor reasonably calculated to lead to the discovery of admissible evidence. Applicant also objects to the document demand on the grounds that it seeks Opposer's confidential and proprietary information.

Subject to these objections, including the General Objections set forth above, Applicant will produce or permit inspection of non-privileged documents which are reasonably responsive to this demand and which are in Opposer's possession, custody, or control and are relevant to the material issues in this litigation, admissible at trial, or reasonably calculated to lead to the discovery of admissible evidence on a rolling basis as they are identified.

- 8. Representative samples (including drawings or mock-ups) of packaging, tags, and labels for each of Applicant's Goods that Applicant has sold or plans to sell under or in connection with Applicant's Marks.**

RESPONSE:

In addition to its General Objections, Applicant specifically objects to the document demand on the ground that it is vague, ambiguous, and unduly burdensome, and fails to describe the documents with reasonable particularity. In doing so, it seeks the production of documents that are neither relevant to the material issues in this litigation, admissible at trial, nor reasonably calculated to lead to the discovery of admissible evidence. Applicant also objects to the document demand on the grounds that it seeks Opposer's confidential and proprietary information. Applicant also objects to the document demand to the extent that it calls for the production of documents that are protected from discovery by the attorney-client privilege and/or work product doctrine.

Subject to these objections, including the General Objections set forth above, Applicant will produce or permit inspection of non-privileged documents which are reasonably responsive to this demand and which are in Opposer's possession, custody, or control and are relevant to the material issues in this litigation, admissible at trial, or reasonably calculated to lead to the discovery of admissible evidence on a rolling basis as they are identified.

9. Documents sufficient to identify all forms and all manners of appearance in which Applicant has depicted, displayed, or used, or intends to depict, display, or use Applicant's Marks, including but not limited to, all designs and stylizations, from the earliest date of Applicant's use of Applicant's Marks to the present.

RESPONSE:

In addition to its General Objections, Applicant specifically objects to this document demand on the ground that it is overly broad in that it requests documents showing "all forms and all manners of appearance." Also, Applicant specifically objects to the document demand on the ground that it is vague, ambiguous, and unduly burdensome, and fails to describe the documents with reasonable particularity. In doing so, it seeks the production of documents that are neither relevant to the material issues in this litigation, admissible at trial, nor reasonably calculated to lead to the discovery of admissible evidence. Applicant also objects to the document demand on the grounds that it seeks Opposer's confidential and

proprietary information. Applicant also objects to the document demand to the extent that it calls for the production of documents that are protected from discovery by the attorney-client privilege and/or work product doctrine.

Applicant also objects to this demand on the grounds that it seeks documents that are irrelevant to this matter.

10. Documents sufficient to evidence or determine the sales revenues of Applicant's Goods sold under Applicant's Marks, in terms of units and dollar volume, on an annual basis for each U.S. state from the earliest date of Applicant's use of Applicant's Marks to the present.

RESPONSE:

In addition to its General Objections, Applicant specifically objects to the document demand on the ground that it is vague, ambiguous, and unduly burdensome, and fails to describe the documents with reasonable particularity. In doing so, it seeks the production of documents that are neither relevant to the material issues in this litigation, admissible at trial, nor reasonably calculated to lead to the discovery of admissible evidence. Applicant also objects to the document demand on the grounds that it seeks Opposer's confidential and proprietary information. Applicant also objects to the document demand to the extent that it calls for the production of documents that are protected from discovery by the attorney-client privilege and/or work product doctrine.

Subject to these objections, including the General Objections set forth above, Applicant will produce or permit inspection of non-privileged documents which are reasonably responsive to this demand and which are in Opposer's possession, custody, or control and are relevant to the material issues in this litigation, admissible at trial, or reasonably calculated to lead to the discovery of admissible evidence on a rolling basis as they are identified.

11. Documents sufficient to identify all expenses associated with commercialization, distribution, and sales of Applicant's Goods bearing Applicant's Marks, including advertising and promotional expenditures on an annual basis for each U.S. state from the earliest date of Applicant's use of Applicant's Marks to the present.

RESPONSE:

In addition to its General Objections, Applicant specifically objects to this document demand on the ground that it is overly broad in that it requests “all expenses associated with commercialization, distribution, and sales of Applicant’s Goods bearing Applicant’s Marks.” Also, Applicant specifically objects to the document demand on the ground that it requests information irrelevant to the present action. In doing so, it seeks the production of documents that are neither relevant to the material issues in this litigation, admissible at trial, nor reasonably calculated to lead to the discovery of admissible evidence. Applicant objects to the document demand on the ground that it vague, ambiguous, and unduly burdensome, and fails to describe the documents with reasonable particularity. Applicant also objects to the document demand on the grounds that it seeks Opposer’s confidential and proprietary information. Applicant also objects to the document demand to the extent that it calls for the production of documents that are protected from discovery by the attorney-client privilege and/or work product doctrine.

12. All documents referring or relating to any instance of confusion, mistake, inquiry, or deception involving, on the one hand, Applicant, Applicant’s Marks, or Applicant’s Goods, and on the other hand, Opposer, Opposer’s Marks, or Opposer’s Goods, or vice versa.

RESPONSE:

In addition to its General Objections, Applicant specifically objects to this document demand on the ground that it is overly broad in that it requests “all documents.” Also, Applicant specifically objects to the document demand on the ground that it is vague, ambiguous, and unduly burdensome, and fails to describe the documents with reasonable particularity. In doing so, it seeks the production of documents that are neither relevant to the material issues in this litigation, admissible at trial, nor reasonably calculated to lead to the discovery of admissible evidence. Applicant also objects to the document demand on the grounds that it seeks Opposer’s confidential and proprietary information. Applicant also objects to the document demand to the extent that it calls for the production of documents that are protected from discovery by the attorney-client privilege and/or work product doctrine.

Subject to these objections, including the General Objections set forth above, Applicant will produce or permit inspection of non-privileged documents which are reasonably responsive to this demand and which are in Opposer's possession, custody, or control and are relevant to the material issues in this litigation, admissible at trial, or reasonably calculated to lead to the discovery of admissible evidence on a rolling basis as they are identified.

13. Documents sufficient to identify all trademark, service mark, trade name, Internet domain name, social media accounts, or other U.S. applications/registrations owned by or on behalf of Applicant, through assignment or otherwise, for any name or mark comprised of or containing POSH-formative and derivative terms or anything phonetically similar to POSH.

RESPONSE:

In addition to its General Objections, Applicant specifically objects to the document demand on the ground that it is vague, ambiguous, and unduly burdensome, and fails to describe the documents with reasonable particularity. In doing so, it seeks the production of documents that are neither relevant to the material issues in this litigation, admissible at trial, nor reasonably calculated to lead to the discovery of admissible evidence. Applicant also objects to the document demand on the grounds that it seeks Opposer's confidential and proprietary information. Applicant also objects to the document demand to the extent that it calls for the production of documents that are protected from discovery by the attorney-client privilege and/or work product doctrine.

Subject to these objections, including the General Objections set forth above, Applicant will produce or permit inspection of non-privileged documents which are reasonably responsive to this demand and which are in Opposer's possession, custody, or control and are relevant to the material issues in this litigation, admissible at trial, or reasonably calculated to lead to the discovery of admissible evidence on a rolling basis as they are identified.

14. All documents referring or relating to Applicant and/or Opposer's Marks and/or the term POSH, including but not limited to documents concerning the circumstances under which Applicant first learned of Applicant and/or Opposer's Marks, and any trademark searches, research, reports, studies, opinions, and/or investigations related to Applicant or any POSH mark.

RESPONSE:

In addition to its General Objections, Applicant specifically objects to this document demand on the ground that it is overly broad in that it requests "all documents." Also, Applicant specifically objects to the document demand on the ground that it is vague, ambiguous, and unduly burdensome, and fails to describe the documents with reasonable particularity. In doing so, it seeks the production of documents that are neither relevant to the material issues in this litigation, admissible at trial, nor reasonably calculated to lead to the discovery of admissible evidence. Applicant also objects to the document demand on the grounds that it seeks Opposer's confidential and proprietary information. Applicant also objects to the document demand to the extent that it calls for the production of documents that are protected from discovery by the attorney-client privilege and/or work product doctrine.

Subject to these objections, including the General Objections set forth above, Applicant will produce or permit inspection of non-privileged documents which are reasonably responsive to this demand and which are in Opposer's possession, custody, or control and are relevant to the material issues in this litigation, admissible at trial, or reasonably calculated to lead to the discovery of admissible evidence on a rolling basis as they are identified.

15. All documents referring or relating to trademark searches, reports, investigations, or opinions concerning or referring to Applicant's Marks, including but not limited to searches, reports, investigations, or opinions relating to consumer or customer perception, understanding, or recognition of Applicant's Marks.

RESPONSE:

In addition to its General Objections, Applicant specifically objects to this document demand on the ground that it is overly broad in that it requests "all documents." Also, Applicant specifically objects to the document demand on the ground that it is vague, ambiguous, and unduly burdensome, and fails to

describe the documents with reasonable particularity. In doing so, it seeks the production of documents that are neither relevant to the material issues in this litigation, admissible at trial, nor reasonably calculated to lead to the discovery of admissible evidence. Applicant also objects to the document demand on the grounds that it seeks Opposer's confidential and proprietary information. Applicant also objects to the document demand to the extent that it calls for the production of documents that are protected from discovery by the attorney-client privilege and/or work product doctrine.

16. All documents referring or relating to third-party use of Applicant's Marks, whether authorized by Applicant or not, including any policing or enforcement efforts by or against Applicant concerning Applicant's Marks and any agreement(s) concerning the use and/or registration of, or attempt to register, Applicant's Marks, including but not limited to license agreements, settlement agreements, and coexistence agreements.

RESPONSE:

**APPLICANT’S OBJECTIONS AND RESPONSES TO
OPPOSER’S FIRST SET OF INTERROGATORIES**

Pursuant to Rules 26 and 33 of the Federal Rules of Civil Procedure and §405.04 TBMP, Applicant, Jacqueline Abner-Pongratz, (“Applicant ” or “Abner-Pongratz,”) hereby objects and responds to Opposer’s First Set of Interrogatories served by Opposer, Perfectly Posh LLC (“Opposer” or “Perfectly Posh”) on October 3, 2018 Applicant (the “Interrogatories”) as follows:

INTRODUCTORY RESPONSE

Subject to the general and specific objections below, Abner-Pongratz responds to the Interrogatories on the basis of the information available to Abner-Pongratz at this time as good faith efforts allow. The fact that Abner-Pongratz is willing to respond to any particular Interrogatory does not constitute an admission that the Interrogatory is proper, the information sought by the Interrogatory is within the proper bounds of discovery, including without limitation Federal Rule of Civil Procedure 26(b)(1), or that demands for similar information will be treated in a similar manner.

Abner-Pongratz objects and responds to the Interrogatories as it interprets and understands each of them. If Applicant later asserts an interpretation of any Interrogatory that differs from Abner-Pongratz's interpretation and understanding, Abner-Pongratz reserves its right to amend, correct and/or supplement the objections and responses to the Interrogatories.

Abner-Pongratz further reserves its right to amend, correct and/or supplement its objections and responses to the Interrogatories based on information learned or obtained in this litigation and in accordance with Federal Rule of Civil Procedure 26(e).

Abner-Pongratz's responses to the Interrogatories contain, provide or refer to information that is protected under the Protective Order entered in this matter and should therefore be treated accordingly.

GENERAL OBJECTIONS

1. Abner-Pongratz objects to the Interrogatories, including the definitions and instructions provided in connection with the Interrogatories, to the extent that the Interrogatories:

- seek to impose a discovery obligation beyond the scope of the Federal Rules of Civil Procedure ("the Rules"), including without limitation Federal Rules of Civil Procedure 26(b) and 33, and relevant case law;
- seek information that is shielded from disclosure by the attorney-client privilege, the attorney work product doctrine, the joint defense privilege, the common interest privilege or any other applicable privilege or immunity arising under federal or state law;

- seek information that is not relevant to the subject matter of any claim or defense that is at issue in this litigation, that is not proportional to the needs of the case and/or that is not reasonably calculated to lead to the discovery of admissible evidence;
- seek information that is already known to or possessed by Applicant, that is publicly known or that is otherwise available to Applicant from another source that is more convenient, less burdensome and/or less expensive;
- seek information that is not reasonably known to Abner-Pongratz or that is no longer in existence and/or not in Abner-Pongratz 's possession, custody or control;
- seek information that would require Abner-Pongratz to violate one or more legal obligations and/or laws; and
- seek information that is confidential and/or proprietary information of a third party, the joint confidential and/or proprietary information of Abner-Pongratz and of a third party or the subject of a non-disclosure or confidentiality agreement between Abner-Pongratz and a third party.

2. Abner-Pongratz objects to each Interrogatory to the extent the Interrogatory is compound, asks multiple questions or contains multiple subparts in an attempt to evade the limitation on interrogatories imposed by Federal Rule of Civil Procedure 33.

3. Abner-Pongratz objects to each Interrogatory to the extent that the Interrogatory is vague, ambiguous, overly broad, unduly burdensome, duplicative, cumulative or disproportionate to the specific needs of the case.

4. Abner-Pongratz objects to each Interrogatory to the extent it is not reasonably bound in time and is therefore overly broad and unduly burdensome.

5. Abner-Pongratz objects to each Interrogatory to the extent the Interrogatory is premature and requires Abner-Pongratz to disclose expert opinions, trial theories and/or exhibits before the time for doing so pursuant to the Court's scheduling orders and the applicable Rules.

6. The inadvertent disclosure of information in Abner-Pongratz's responses to the Interrogatories that is otherwise shielded from disclosure by the attorney-client privilege, the attorney work product doctrine, the joint defense privilege, the common interest privilege or any other applicable privilege or immunity arising under federal or state law, shall not constitute a waiver by Abner-Pongratz of any such protections.

7. In providing specific responses to the Interrogatories, Abner-Pongratz expressly reserves and does not waive: (a) any objection as to the competence, relevance, materiality or admissibility of any response or of any information contained in any response; (b) any objection as to the scope, ambiguity or vagueness of any Interrogatory to which a specific response is provided; or (c) any right to object on any grounds to the use of the responses to each Interrogatory in any subsequent proceeding, including at trial in this matter.

8. Abner-Pongratz objects to Applicant's definition of "Abner-Pongratz" as overly broad and disproportionate to the need of this case to the extent the definitions includes, without limitation in scope or time, "any persons controlled by or acting on her behalf, including but not limited to all officers, directors, owners, employees, agents, representatives, and attorneys, and any predecessors, subsidiaries, parent companies, affiliated companies, or joint venturers."

9. Insofar as any of Applicant's Interrogatories seek information to which the foregoing general objections apply, specification of or failure to note particular general objections

is not a waiver of those or other general objections with respect to the Interrogatory.

Abner-Pongratz also objects to the interrogatory to the extent that it seeks information which is readily accessible to Registrant from publicly available information. Abner-Pongratz also objects to the Interrogatory to the extent that it requests the disclosure of privileged attorney-client information, communications, or attorney work product or Abner-Pongratz's confidential and proprietary information. Interrogatory No. 15:

Describe and identify all actions You have taken to protect or enforce Your claimed rights in Applicant's Marks, including any watching, searching, or other practices to monitor third party users. Also describe all actions and communications You have taken to enforce or protect Your claimed rights in Applicant's Marks vis-à-vis third parties.

RESPONSE:

In addition to its General Objections, Abner-Pongratz specifically objects to the Interrogatory on the ground that it is overly broad, unduly burdensome and seeks information more appropriately obtained through other means of discovery. Abner-Pongratz also objects to the Interrogatory to the extent that it seeks information that is neither relevant to the material issues in this litigation, admissible at trial, nor reasonably calculated to lead to the discovery of admissible evidence. Abner-Pongratz also objects to the interrogatory to the extent that it seeks information which is

readably accessible to Registrant from publicly available information. Abner-Pongratz also objects to the Interrogatory to the extent that it requests the disclosure of privileged attorney-client information, communications, or attorney work product or Abner-Pongratz's confidential and proprietary information. Subject to and without waiver of such objections, as Abner-Pongratz understands the interrogatory she states that she contacted Andrea Lipomi on September 13, 2017 via Facebook messenger and asked her to refrain from using Posh Goth on social media. She also called Perfectly Posh's headquarters on September 15th, 2017 and spoke with Mary V. regarding Andrea Lipomi's usage of POSH GOTH. Perfectly Posh's employee Nigel D. then contacted Abner-Pongratz via email on September 21, 2017, and he asked her to send screen-shots of how Andrea Lipomi was using the mark. Applicant responded to employee Nigel D. on September 22, 2017. Another email from Nigel D. was sent on September 26, 2017 advising applicant that Perfectly Posh was working with their compliance team on the matter. Applicant did not respond to this communication. Then on November 8, 2017, Abner-Pongratz received an email from Perfectly Posh's employee Taylie F. advising her that the support ticket was being closed because Perfectly Posh was aware that applicant was speaking with LaRane from Perfectly Posh's legal team. Applicant has not had any communications with LaRane, does not know who LaRane is, and she did not respond to this email. Copies of the aforementioned email communications are part of the discovery documents. Abner-Pongratz also employed a strategy of monitoring the #poshgoth hashtag on social media to see if parties are using it for commercial purposes. If they are, she will follow the parties' social media accounts, she will "like" the posts where the hashtag is being used, and will comment with an eye-roll emoji as a way to put them

on notice. This policing effort has been very successful. Several people have voluntarily stopped using the POSH GOTH mark.

Interrogatory No. 16:

Describe and identify all actions by third parties, whether by correspondence or any other form of communication, lawsuit, opposition proceeding, cancellation proceeding, or other formal or informal action, to dispute, object to, or question your use of, or claimed rights in, Applicant's Marks (other than the present Opposition Proceeding).
