After the age of 20, a person produces about 1 percent less collagen in the skin each year. Protecting your skin goes beyond SPF and a moisturizer. Our skin is the largest organ in the body and needs quality care from within to fight cellular damage, premature aging, infections and disease. Our hair and nails are considered superfluous by the immune system and are the first to be starved of nutrition if it is needed elsewhere in the body. This is why it is essential to give your system all the right vitamins, minerals and nutrients it needs, so you can be healthy on the inside and radiant on the outside.

To keep yourself looking young, vibrant and beautiful, you must nourish from within, enhancing the body's natural cycles and reinforcing from the cellular level. This is why we formulated a digestible supplement instead of another face cream.

Protecting your skin goes beyond SPF and a moisturizer. Our skin is the largest organ in the body and needs quality care from within to fight cellular damage, premature aging, infections and disease. Our hair and nails are considered superfluous by the immune system and are the first to be starved of nutrition if it is needed elsewhere in the body. This is why it is essential to give your system all the right vitamins, minerals and nutrients it needs, so you can be healthy on the inside and radiant on the outside.

To keep yourself young, vibrant and beautiful, you must nourish from within, enhancing the body's natural cycles and reinforcing from the cellular level. This is why we formulated a digestible supplement instead of another face cream.

VERISOL® Bioactive Collagen Peptides have been clinically proven to reduce wrinkles, decreases cellulite visibility, increase the procollagen concentration in the skin and revive dry, brittle nails. Collagen is the key protein that creates and fortifies tendons, connective tissues, bones, and it makes up nearly 80% of our skin! It is also the primary component of our hair and nails. As adolescents, our bodies supply large quantities so we can grow, but as we age, we produce less each year. To retain your youth, it is imperative to restore the collagen levels at the hypodermis and epidermis layers.

The only other nutrient with the same properties as the collagen is vitamin C, as it initiates more collagen synthesis in the body and works to heal the damage done to skin by free radicals and UV rays. It is an excellent, organic source of nutrients for our bodies, and along with VERISOL® Bioactive Collagen Peptides, your skin will be rejuvenated and glowing.

Superfood Supplements

Superfood supplements take the adage “you are what you eat” to heart. You’ve likely heard the term “superfood” before but never understood what that means. Superfoods are simply foods that are so densely packed with vitamins, nutrients, and antioxidants that they’re termed “super” because of the good they can do for the body. [Read More](#)

Collagen is also well known for positive effects on the gut and may help reduce intestinal permeability helping you to retain more of the nutrients you consume. It is the component in bone broth that helps rebuild the digestive lining and supports a healthy gut. Seeing as it is key in our structural support, the addition of collagen may also help ease pain in the joints, knees and back and lessens stiffness allowing the body to heal.* *These statements have not been evaluated by the Food & Drug Administration. Recent Testimonials

I highly recommend these products I have been using the acid relief kit for a month now getting more relief than when I used PPIs and even had to double my dose at one point when I wasn't seeing results I have only had a few minimal flare ups since starting these supplements Their customer service is very responsive and helpful with questions. I've been happy with my results so far!

I have been taking Terra Health products for a few weeks now and they have taken care of my reflux better than any of the over the counter medications I have taken. The fact that these products perform as well or even better than OTC medication and do not come with the burden of the dangerous side effects of OTCs, makes them a clear choice for treating acid reflux. Excellent product! Highly recommend!

About this item

Product details

In addition, we have added a proprietary blend of Emu Oil and Arnica Montana for advanced relief and healing. Emu oil for its proven transdermal and high anti-inflammatory capacity that penetrates a few inches deep in the body and diminishes the pain effectively. Emu oil in TERRAFREEZE acts as a viable transdermal carrier and carries other ingredients past the barrier layers of the skin. The natural anti-inflammatory and analgesic properties of Arnica Montana complement with the active and inactive ingredients of TERRAFREEZE maximizing its potency to relieve pain and inflammation.

About doTERRA

What Does doTERRA Mean?

doTERRA is a Latin derivative, meaning "gift of the earth." From the beginning, the mission of doTERRA has been to share the highest-quality essential oils with the world. Having seen the incredible benefits of using these precious resources, a group of healthcare and business professionals set out to make that mission a reality in 2008.

The first hurdle they needed to overcome was to establish a quality standard in an industry that had never had one previously. The doTERRA Founding Executives were committed to providing only the purest, highest-grade essential oils. This commitment led to the creation of a new standard of quality: CPTG Certified Pure Tested Grade[®]. Every doTERRA oil is held to the highest possible level of purity.

Now, doTERRA means more than "gift of the earth." It also means wellness, health, and hope.
