REQUEST FOR RECONSIDERATION AFTER FINAL ACTION DENIED

Issue date: July 14, 2023

Applicant's request for reconsideration is denied. See 37 C.F.R. §2.63(b)(3). The trademark examining attorney has carefully reviewed applicant's request and determined the request did not: (1) raise a new issue, (2) resolve all the outstanding issue(s), (3) provide any new or compelling evidence with regard to the outstanding issue(s), or (4) present analysis and arguments that were persuasive or shed new light on the outstanding issue(s). TMEP §§715.03(a)(ii)(B), 715.04(a).

Accordingly, the Section 2(d) refusal made final in the Office action dated December 2, 2022 is **maintained and continued**. See TMEP §§715.03(a)(ii)(B), 715.04(a).

Applicant's arguments have been considered and found unpersuasive.

Trademark Act Section 2(d) bars registration of an applied-for mark that is so similar to a registered mark that it is likely consumers would be confused, mistaken, or deceived as to the commercial source of the goods and/or services of the parties. See 15 U.S.C. §1052(d). Likelihood of confusion is determined on a case-by-case basis by applying the factors set forth in *In re E. I. du Pont de Nemours & Co.*, 476 F.2d 1357, 1361, 177 USPQ 563, 567 (C.C.P.A. 1973) (called the "du Pont factors"). *In re i.am.symbolic, llc*, 866 F.3d 1315, 1322, 123 USPQ2d 1744, 1747 (Fed. Cir. 2017). Any evidence of record related to those factors need be considered; however, "not all of the *DuPont* factors are relevant or of similar weight in every case." *In re Guild Mortg. Co.*, 912 F.3d 1376, 1379, 129 USPQ2d 1160, 1162 (Fed. Cir. 2019) (quoting *In re Dixie Rests., Inc.*, 105 F.3d 1405, 1406, 41 USPQ2d 1531, 1533 (Fed. Cir. 1997)).

Although not all *du Pont* factors may be relevant, there are generally two key considerations in any likelihood of confusion analysis: (1) the similarities between the compared marks and (2) the relatedness of the compared goods and/or services. See *In re i.am.symbolic, llc*, 866 F.3d at 1322, 123 USPQ2d at 1747 (quoting *Herbko Int'l, Inc. v. Kappa Books, Inc.*, 308 F.3d 1156, 1164-65, 64 USPQ2d 1375, 1380 (Fed. Cir. 2002)); *Federated Foods, Inc. v. Fort Howard Paper Co.*, 544 F.2d 1098, 1103, 192 USPQ 24, 29 (C.C.P.A. 1976) ("The fundamental inquiry mandated by [Section] 2(d) goes to the cumulative effect of differences in the essential characteristics of the goods [or services] and differences in the marks."); TMEP §1207.01.

The applicant's mark is KUDO in standard characters for "Gummy vitamins; Nutritional supplements in the form of gummies."

The registrant's mark (U.S. Reg. No. 2363076) is KUDOS in typed characters for "Hair shampoo, hair conditioner, soap for hands, face and body, skin/body moisturizer, skin/body lotion, shaving preparations, body/hand cream, skin cleansing cream, and bath gels/oil."

The marks KUDO and KUDOS are similar in overall commercial impression, being nearly identical in appearance, meaning, and sound.

The terms are defined as follows:

KUDO--noun

ku·do

plural kudos

Synonyms of kudo

1 AWARD, HONOR

2 COMPLIMENT, PRAISE

See the attached definition, available at <https://www.merriam-webster.com/dictionary/kudo>

KUDOS--noun

ku·dos 'kyü-, -, dōs

Synonyms of kudos

1 praise given for achievement

2 fame and renown resulting from an act or achievement : PRESTIGE

See the attached definition, available at <https://www.merriam-webster.com/dictionary/kudos>

The applicant's mark is simply the singular form of the registered mark, and the only difference between them in appearance is the additional letter "S" at the end of the registered mark. An applied-for mark that is the singular or plural form of a registered mark is essentially identical in sound, appearance, meaning, and commercial impression, and thus the marks are confusingly similar. *Swiss Grill Ltd., v. Wolf Steel Ltd.*, 115 USPQ2d 2001, 2011 n.17 (TTAB 2015) (holding "it is obvious that the virtually identical marks [the singular and plural of SWISS GRILL] are confusingly similar"); *Weider Publ'ns, LLC v. D & D Beauty Care Co.*, 109 USPQ2d 1347, 1355 (TTAB 2014) (finding the singular and plural forms of SHAPE to be essentially the same mark) (citing *Wilson v. Delaunay*, 245 F.2d 877, 878, 114 USPQ 339, 341 (C.C.P.A. 1957) (finding no material difference between the singular and plural forms of ZOMBIE such that the marks were considered the same mark).

In response to the refusal, the applicant argues that the registrant's use of the mark is different from the way it appears in the drawing (i.e., that the renewal specimen "shows the mark as 'k üdospa' including an umlaut over the 'u' and the word 'spa' attached to the end of the word 'kudos' without a space"). Applicant should note, however, that the marks are compared as they appear in the drawing of the application and in the registration; the USPTO does not consider how an applicant and registrant actually use their marks in the marketplace. *In re Aquitaine Wine USA, LLC*, 126 USPQ2d 1181, 1186 (TTAB 2018) (citing *In re i.am.symbolic, llc*, 866 F.3d 1315, 1324, 123 USPQ2d 1744, 1749 (Fed. Cir. 2017)). The marks at issue in this case are nearly identical in spelling, sound, and meaning, as they appear in the drawings in the application and registration.

The goods at issue in this case are related because preparations for hair, skin, facial, and body care are frequently made and sold by companies that also make and sell gummy vitamins and nutritional supplements.

The applicant argues in response that its consumable goods are not related to the registrant's topical goods because "Companies typically separate their topical goods from their consumable goods" which "prevents consumers from believing that the consumable goods somehow contain similar ingredients or characteristics as the topical products, which can contain toxins or other undesirable ingredients to consume and allows the companies to market the products with different messaging." Applicant states that the Office's "evidence does not present a proper comparison to show that goods are similar, commercially related, or travel in the same trade channels." The applicant states, in addition that

"consumers visiting a hotel are presented with shampoo, conditioner, soaps, bodywash, lotions and other goods consistent with the listing of goods found in the description of the '076 Registration. Hotels do not provide supplements and vitamins for their guests. To make the association of goods cross from one channel of trade to the other would be a stretch. Again, the Office action fails to provide evidence of goods in this industry will be interpreted to cross over into gummy vitamins. Thus, as a result of the differences in the locations of availability of the goods offered by Applicant as compared to Registrant, it is quite unlikely that the circumstances surrounding the marketing of Applicant's goods are the same as those marketing hotel amenity products to clientele under the '076 Registration."

These arguments are unpersuasive. It is well established that compared goods and/or services need not be identical or even competitive to find a likelihood of confusion. *See On-line Careline Inc. v. Am. Online Inc.*, 229 F.3d 1080, 1086, 56 USPQ2d 1471, 1475 (Fed. Cir. 2000); *Recot, Inc. v. Becton*, 214 F.3d 1322, 1329, 54 USPQ2d 1894, 1898 (Fed. Cir. 2000); TMEP §1207.01(a)(i). They need only be "related in some manner and/or if the circumstances surrounding their marketing are such that they could give rise to the mistaken belief that [the goods and/or services] emanate from the same source." *Coach Servs., Inc. v. Triumph Learning LLC*, 668 F.3d 1356, 1369, 101 USPQ2d 1713, 1722 (Fed. Cir. 2012) (quoting *7-Eleven Inc. v. Wechsler*, 83 USPQ2d 1715, 1724 (TTAB 2007)); TMEP §1207.01(a)(i); *see Made in Nature, LLC v. Pharmavite LLC*, 2022 USPQ2d 557, at *44 (TTAB 2022) (quoting *In re Jump Designs LLC*, 80 USPQ2d 1370, 1374 (TTAB 2006)).

Moreover, the applicant's arguments regarding differences in trade channels and the nature in which the marks are used in commerce, are all based on limitations and restrictions that are not articulated in the application and registration identifications. Determining likelihood of confusion is based on the description of the goods and/or services stated in the application and registration at issue, not on extrinsic evidence of actual use by the applicant or registrant. *See In re Detroit Athletic Co.*, 903 F.3d 1297, 1307, 128 USPQ2d 1047, 1052 (Fed. Cir. 2018) (citing *In re i.am.symbolic, llc*, 866 F.3d 1315, 1325, 123 USPQ2d 1744, 1749 (Fed. Cir. 2017)). The goods of the parties have no restrictions as to nature, type, channels of trade, or classes of purchasers. It is presumed that the goods recited by both parties move in all normal channels of trade and that they are available to all classes of purchasers.

The examining attorney must provide evidence showing that the goods and services are related to support a finding of likelihood of confusion. *See, e.g., In re White Rock Distilleries Inc.*, 92 USPQ2d 1282, 1285 (TTAB 2009). Evidence of relatedness may include news articles and/or evidence from computer databases showing that the relevant goods or services are used together or used by the same purchasers; advertisements showing that the relevant goods or services are advertised together or sold by the same manufacturer or dealer; and/or copies of prior use-based registrations of the same mark for both applicant's goods or services and the goods or services listed in the cited registration. *E.g., In re Ox Paperboard, LLC* 2020 USPQ2d 10878, at *5 (TTAB 2020) (citing *In re Davia*, 110 USPQ2d 1810, 1817 (TTAB 2014); *In re Country Oven, Inc.*, 2019 USPQ2d 443903, at *4-5 (TTAB 2019).

Contrary to the applicant's arguments that the recited goods are not related, the evidence of record and the additionally attached Internet evidence establishes that the same entity commonly manufactures, produces, or provides the relevant goods and markets the goods under the same mark. - <https://zasnaturals.com/products/all-natural-foaming-hand-soap>

Also attached is evidence from the USPTO's X-Search database consisting of a number of third-party marks registered for use in connection with the same or similar goods as those of both applicant and registrant in this case. This evidence shows that the goods listed therein, namely gummy vitamins, nutritional supplements in the form of gummies, hair shampoo, hair conditioner, soap for hands, face and body, skin/body moisturizer, skin/body lotion, shaving preparations, body/hand cream, skin cleansing cream, and bath gels/oil, are of a kind that may emanate from a single source under a single mark. *See In re I-Coat Co.*, 126 USPQ2d 1730, 1737 (TTAB 2018) (citing *In re Infinity Broad. Corp.*, 60 USPQ2d 1214, 1217-18 (TTAB 2001); *In re Albert Trostel & Sons Co.*, 29 USPQ2d 1783, 1785-86 (TTAB 1993); *In re Mucky Duck Mustard Co.*, 6 USPQ2d 1467, 1470 n.6 (TTAB 1988)); TMEP §1207.01(d)(iii). Thus, applicant's and registrant's goods are considered related for likelihood of confusion purposes. *See, e.g., In re Davey Prods. Pty Ltd.*, 92 USPQ2d 1198, 1202-04 (TTAB 2009); *In re Toshiba Med. Sys. Corp.*, 91 USPQ2d 1266, 1268-69, 1271-72 (TTAB 2009).

The overriding concern is not only to prevent buyer confusion as to the source of the goods and/or services, but to protect the registrant from adverse commercial impact due to use of a similar mark by a newcomer. *See In re Shell Oil Co.*, 992 F.2d 1204, 1208, 26 USPQ2d 1687, 1690 (Fed. Cir. 1993). Therefore, any doubt regarding a likelihood of confusion determination is resolved in favor of the registrant. TMEP §1207.01(d)(i); *see Hewlett-Packard Co. v. Packard Press, Inc.*, 281 F.3d 1261, 1265, 62 USPQ2d 1001, 1003 (Fed. Cir. 2002); *In re Hyper Shoppes (Ohio), Inc.*, 837 F.2d 463, 464-

65, 6 USPQ2d 1025, 1026 (Fed. Cir. 1988).

For these reasons, the refusal under Section 2(d) of the Trademark Act continues to be final.

If applicant has already filed an appeal with the Trademark Trial and Appeal Board, the Board will be notified to resume the appeal. *See* TMEP §715.04(a).

If applicant has not filed an appeal and time remains in the response period for the final Office action, applicant has the remainder of that time to (1) [file another request for reconsideration](#) that complies with and/or overcomes any outstanding final requirement(s) and/or refusal(s), and/or (2) [file a notice of appeal](#) to the Board. TMEP §715.03(a)(ii)(B).

► **Is *kudo* a word?: Usage Guide**

Some commentators hold that since *kudos* is a singular word it cannot be used as a plural and that the word *kudo* is impossible. But *kudo* does exist; it is simply one of the most recent words created by back-formation from another word misunderstood as a plural. *Kudos* was introduced into English in the 19th century; it was used in contexts where a reader unfamiliar with Greek could not be sure whether it was singular or plural. By the 1920s it began to appear as a plural, and about 25 years later *kudo* began to appear. It may have begun as a misunderstanding, but then so did *cherry* and *pea*.

that one gained by having accomplished something noteworthy. The sense meaning "praise given for achievement" came about in the 1920s. As this later sense became the predominant one, some English speakers, unaware of the word's Greek origin, began to treat the word as a plural count noun, inevitably coming up with the back-formation *kudo* to refer to a single instance of praise. For the same reason, when *kudos* is used as a subject you may see it with either a singular or plural verb.

Synonyms

acclaim accolade applause
 bay(s) credit distinction

WILLIAM J.

VERIFIED BUYER 

 I RECOMMEND THIS PRODUCT

ALL VITAMINS SHOULD BE GUMMIES

Hate taking pills and using droppers so stayed away from other brands like Nutrafol. Every wellness brand should have a gummy offering like this. Hair is shedding way less!

WILSON C.
VERIFIED BUYER

I RECOMMEND THIS PRODUCT

★★★★★
LOVE THE SHAVING EXPERIENCE

Super nice shaving experience with these products. The aftershave is bomb too. Lovely smell. Repeat subscription customer.

WAS THIS HELPFUL? 6 1

TQ.

I RECOMMEND THIS PRODUCT

★★★★☆
TO EXPENSIVE!

Great product, way to expensive.

I RECOMMEND THIS PRODUCT

Gentle and smooth cream. Only issue is the size and price. There are concentrated **shave** cream options available that lather much more with a smaller amount and cost less. Hard to justify the price for a product that is used up so quickly.

WAS THIS HELPFUL? 2 2

PATRICK

I RECOMMEND THIS PRODUCT

★★★★☆

NO NEED TO LATHER WITH THIS

If you're like me, you grew up under the "lather it up" way of thinking (meaning more is better). However, with this **shaving** cream, you can do the complete opposite. I use this on my head and face and only a little is needed. Due to sensitive skin I also would experience nicks or skin irritations after **shaving** but this **shaving** cream combined with the **aftershave** have solved those problems for me. I only gave it a 4 out of 5 stars because when using it on my head, since you don't need a lot, the cream is a [READ MORE](#)

How to use

Ingredients/label

Formulated with our exclusive Luxe-Lift Firming Complex. The Luxe-Lift Firming Complex is a synergistic blend of some of the world's most coveted ingredients, such as: Champagne, Black Truffle, Caviar Extract, Gold Peptide, Grape Stem Cells and Grape Seed Extract from the Champagne region of France. This unique Complex along with a plethora of other skin loving ingredients work together to fight the visual effects of gravity helping to create a lifted, firmed and more defined appearance.

Great so far!

Taste is so yummy!! I will post a full review after a few weeks of use to see if there is any visible progress. At first use, the **gummies** are very tasty!

Product description

Skin Vitamins supply your skin with all essential nutrients from within. Making sure you get enough vitamins can keep your skin looking healthy and youthful. OASE Skin Vitamins is a vegan collagen booster and contains all the important ingredients for healthy, tight, and radiant skin. The 20 carefully selected essential ingredients will help you achieve optimum skin health. Our vegan soft gums™ have a natural forest fruits flavour and do not stick to your teeth.

Features

- Content: 60 Vegan Soft Gums™ (1 Month Supply)
- Vegan: Yes
- Halal: Yes
- GMO-Free: Yes
- 100% natural: Yes
- Gluten-Free: Yes
- Side effects: No

skin health. Our vegan soft gums™ have a natural forest fruits flavour and do not stick to your teeth.

Vegan collagen booster

Our Skin Vitamins are innovative because they stimulate collagen production in a natural, vegan way. Skin with healthy levels of collagen isn't just more youthful; it's stronger. Collagen comes from cattle and pigs, which is a no-go for many users. OASE has therefore developed a patented formula with all important ingredients for healthy, radiant, and tight skin without using animal ingredients. This is the most complete skin vitamin formula on the market if you want to achieve optimum skin health.

Our ingredients — know what you consume.

OASE Skin Vitamins combine natural vitamins, minerals, herbal extracts, and amino acids to stimulate healthy and good-looking skin.

- **AMINO ACIDS**
Our Skin Vitamins supplement contains three important amino acids: carnitine, cysteine, and taurine. These amino acids optimize the flow of nutrients to the skin and improve energy production.
- **SELENIUM & ZINC**
These are minerals we need to keep our skin in good condition. Even mild deficiencies in zinc can impair collagen production. Selenium ensures the skin remains firm and protected.

Gluten-Free: Yes
Side effects: No
Recommended age: 18+
Product type: Supplement
Brand: OASE
SKU: OASSKINVI60SGU
EAN: 8719326542256

Manual

Take two Vegan Soft Gums™ of the OASE Skin Vitamins per day. For the best results, use the Skin Vitamins for at least 3 months. You can take the candies at any time of the day.

Frequently asked questions

What are the intended effects of OASE Skin Vitamins?

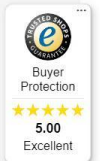

Tighter skin, radiant skin, fewer imperfections, less acne, fewer wrinkles and lines.

Do the Soft Gums™ include sugar?

Yes. A daily dose contains only 2,82 grams of sugar: the equivalent of a bite of banana.

Can I take OASE Skin Vitamins at the same time as OASE Hair Vitamins?

Yes, we have taken the dosage into account. This way you can take both

in zinc can impair collagen production. Selenium ensures the skin remains firm and protected.

- **FOLIC ACID**
Folic acid is essential for protecting our DNA and cell division. It improves the growth of bodily tissues. Folic acid provides increased hydration by maintaining the skin barrier function.
- **BIOTIN**
Contributes to overall skin health. Enzymes rely on biotin to function. The vitamin is important for energy production and helps the formation of fatty acids that nourish the skin.
- **VITAMIN A, B6, B12, C, D3 & E**
These vitamins are also included in the formula to improve skin quality in their own unique ways.
- **IODINE**
In addition, to regulate the skin's moisture levels, iodine also aids the healing of scars. Iodine has a supportive role in skin repair. It regenerates the lower layers of your skin by triggering cellular function.
- **NIACIN**
This improves blood circulation to the skin, ensuring nutrients reach the skin cells as quickly as possible. Niacin protects the skin from environmental stresses, such as

Can I take OASE Skin Vitamins at the same time as OASE Hair Vitamins?

Yes, we have taken the dosage into account. This way you can take both the hair and skin vitamins at the same time without getting too many vitamins.

How long before I see results?

You can see the first results after 1-3 months, but the vitamins work best when taken for a minimum of 3 months. After 6 months of use the best results are achieved.

Will my skin get worse after if I stop taking the vitamins?

No, your skin will not get worse. You may find that the results you have achieved do diminish, simply because you are no longer getting all the vitamins that promote skin health.

Where are the OASE Soft Gums™ made?

Our Soft Gums™ are developed in Switzerland and produced in Germany according to the highest quality requirements. The ingredients are delivered by our partner, the Royal DSM N.V, known for their high-quality standards and thorough evaluation of products and ingredients during every step of the production process.

How should I store my vitamins?

OASE Skin Vitamins should be stored out of reach of children, at room temperature and protected from light and moisture.

- **NIACIN**

This improves blood circulation to the skin, ensuring nutrients reach the skin cells as quickly as possible. Niacin protects the skin from environmental stresses, such as sunlight, toxins, and pollution.

- **INOSITOL**

Low levels of inositol can lead to skin dryness and even eczema.

- **HYALURONIC ACID**

This ingredient is very well known for its antiaging properties that improve skin tone and reduce fine lines and wrinkles. Other benefits include improved skin elasticity, a 24% increase in skin hydration, a reduction in wrinkle depth, and improved skin texture.

- **COENZYME Q10**

This special ingredient supports the production of collagen, a very important protein for the skin. It is a highly effective ingredient to fight the signs of ageing skin, such as wrinkles and fine lines.

- **ASTAXANTHIN**

This antioxidant does good for the skin. Astaxanthin protects the skin from free radicals and sun damage. It also reduces the appearance of wrinkles, fine lines, and hyperpigmentation.

OASE Skin Vitamins should be stored out of reach of children, at room temperature and protected from light and moisture.

Ingredients

Glucose syrup, sugar, modified starch, vitamin, mineral and amino acids composition (vitamin A, B6, B12, C, E, niacin, biotin, folic acid, selenium, zinc, iodine, carnitine, cysteine, taurine, inositol), hyaluronic acid, mango fruit powder (Careflow®), astaxanthin (algal biomass-Haematococcus pluvialis), acidity regulator (sodium citrate), acidifier (malic and citric acid), natural flavour, coenzyme Q-10, coating material (coconut oil and carnauba wax), vitamin D3.

More from OASE:

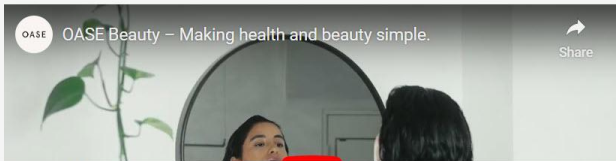

radicals and sun damage. It also reduces the appearance of wrinkles, fine lines, and hyperpigmentation.

• CAREFLOW® (MANGO FRUIT POWDER)

Our most special patented ingredient. Careflow® is a vegan collagen booster and prevents the breakdown of collagen. Second, Careflow® improves microcirculation and transports nutrients, such as bioactive peptides, to the skin cells for maintenance and generation of collagenous extracellular matrix.

Skin Vitamins you can trust.

Our Skin Vitamins are completely vegan and halal, and a daily dose contains only 2,82 grams of sugar: the equivalent of a bite of a banana. Our Gums are made of 100% natural ingredients and are, of course, GMO-free. Our patented Soft Gums™ are developed in Switzerland and produced in Germany according to the highest quality requirements. The ingredients are delivered by our partner, the Royal DSM N.V, known for their high-quality standards and thorough evaluation of products and ingredients during every step of the production process. It should be no surprise that OASE Skin Vitamins are allergen-free, significantly lowering the risk of possible side effects.

5:14:46 PM 7/13/2023

Our foaming soaps are made with just pure, healthy components; they do not contain any phthalates, parabens, paraffin, or any other potentially dangerous substances of any kind. Hand soap with a luxurious lather and a pleasant smell may effectively clean the hands without irritating the skin, all while lavishly moisturizing the hands. Dryness is alleviated by our specially formulated cream, which also leaves the skin feeling revitalized, nurtured, and visibly comforted. Our dermatologist- and allergist-approved foamy soaps are hypoallergenic, triclosan-free, cruelty-free, vegan, gluten-free, non-GMO, and clean. We make use of substances derived from plants as well as natural fragrance oils.

United States Patent and Trademark Office (USPTO)

USPTO OFFICIAL NOTICE

Office Action (Official Letter) has issued
on July 14, 2023 for
U.S. Trademark Application Serial No. 97015288

A USPTO examining attorney has reviewed your trademark application and issued an Office action. You must respond to this Office action to avoid your application abandoning. Follow the steps below.

- (1) **[Read the Office action](#)**. This email is NOT the Office action.
- (2) **Respond to the Office action by the deadline** using the Trademark Electronic Application System (TEAS) or the Electronic System for Trademark Trials and Appeals (ESTTA), as appropriate. Your response and/or appeal must be received by the USPTO on or before 11:59 p.m. **Eastern Time** of the last day of the response deadline. Otherwise, your application will be **[abandoned](#)**. See the Office action itself regarding how to respond.
- (3) **Direct general questions** about using USPTO electronic forms, the USPTO [website](#), the application process, the status of your application, and whether there are outstanding deadlines to the [Trademark Assistance Center \(TAC\)](#).

After reading the Office action, address any question(s) regarding the specific content to the USPTO examining attorney identified in the Office action.

GENERAL GUIDANCE

- **[Check the status](#) of your application periodically** in the [Trademark Status & Document Retrieval \(TSDR\)](#) database to avoid missing critical deadlines.
- **[Update your correspondence email address](#)** to ensure you receive important USPTO notices about your application.
- **[Beware of trademark-related scams](#)**. Protect yourself from people and companies that may try to take financial advantage of you. Private companies may call you and pretend to be the USPTO or may send you communications that resemble official USPTO documents to trick you. We will never request your credit card number or social security number over the phone. Verify the correspondence originated from us by using your serial number in our database, [TSDR](#), to confirm that it appears under the “Documents” tab, or contact the [Trademark Assistance Center](#).

- **[Hiring a U.S.-licensed attorney.](#)** If you do not have an attorney and are not required to have one under the trademark rules, we encourage you to hire a U.S.-licensed attorney specializing in trademark law to help guide you through the registration process. The USPTO examining attorney is not your attorney and cannot give you legal advice, but rather works for and represents the USPTO in trademark matters.
