MEMBER CASE NO. 2:17-cv-515-JRG

JURY TRIAL DEMANDED

**DEFENDANT LG ELECTRONICS, INC.'S SECOND
ELECTION OF PRIOR ART REFERENCES**

Pursuant to the Fifth Amended Docket Control Order (Case No. 17-cv-513-JRG, D.I. 183), Defendant LG Electronics, Inc. (“LGEKR” or “Defendant”) hereby serves the following Second Election of Prior Art References for each of the Patents-In-Suit.¹ This election is made in view of Plaintiff AGIS Software Development, LLC’s (“AGIS”) Election of Asserted Claims served on Defendant, dated August 15, 2018. LGEKR expressly reserves its rights to assert at or before trial that the Patents-In-Suit are invalid for additional reasons, including, but not limited to, being invalid under 35 U.S.C. §§ 101 and/or 112. LGEKR further expressly reserves its

¹ “Patents-In-Suit” refers to U.S. Patent Nos. 8,213,970 (the “970 Patent”), 9,408,055 (the “055 Patent”), 9,445,251 (the “251 Patent”), and 9,467,838 (the “838 Patent”), which has been asserted against LGEKR.

rights to modify this election, as well as to assert additional prior art references uncovered during the course of fact discovery, including, but not limited to, any references or related information based upon discovery from third parties. References that are indicative of the state of the art and/or the knowledge of one of ordinary skill in the art at the time of the inventions of the Patents-In-Suit are excluded from the scope of this election and LGEKR reserves the right to rely on any such reference, including any that are identified in its Invalidity Contentions, or any amendments thereto. Moreover, because LGEKR contends that the Patents-In-Suit are not entitled to the priority date alleged by AGIS, LGEKR expressly reserves its rights to assert at trial that, under that correct priority date, the Accused Products render the asserted claims invalid to the extent that any of them are determined to infringe. LGEKR further reserves its right to assert at trial that, under the correct priority date, AGIS's (including AGIS Inc.'s) products or earlier AGIS (or AGIS Inc.) patents and/or applications, including, but not limited to, U.S. Patent No. 7,630,724, would also render the claims invalid under at least AIA 35 U.S.C. § 102(a)(1) because they were publicly available before the effective filing date of the Patents-In-Suit.
