### PLAINTIFF'S DISCLOSURE OF ASSERTED CLAIMS <u>AND INFRINGEMENT CONTENTIONS</u>

Plaintiff AGIS Software Development LLC ("AGIS") hereby makes the following infringement disclosures under the Patent Local Rules with respect to United States Patent Nos. 9,467,838 (the "'838 Patent"), 9,445,251 (the "'251 Patent"), 9,408,055 (the "'055 Patent"), and 8,213,970 (the "'970 Patent") (collectively, "patents-in-suit"). AGIS's investigation is ongoing and discovery has not yet commenced. Accordingly, these disclosures are based on information available to AGIS at this time. AGIS reserves the right to supplement this disclosure after further

AGIS reserves the right to amend this list of accused instrumentalities, as well as other information contained in this document and the exhibits hereto, to incorporate new information learned during the course of discovery, including, but not limited to, the inclusion of newly-released products or any other equivalent devices ascertained through discovery.

### C. CLAIM CHARTS

Claim charts identifying a location of every element of every asserted claim of the patents-in-suit within HTC Accused Products are attached hereto as Exhibits A–D. AGIS believes that

17

PLAINTIFF'S DISCLOSURE OF ASSERTED CLAIMS AND INFRINGEMENT CONTENTIONS

the citations in the claim charts are representative of all HTC Accused Products. For example, where AGIS cites reference material or images representing a phone or tablet, that citation is representative for all other such phones or tablets including all prior and future versions unless otherwise noted. AGIS reserves the right to amend these claim charts as well as other information contained in this document and the exhibits hereto, to incorporate new information learned during the course of discovery, including, but not limited to, information that is not publically available or readily discernible without discovery. AGIS further reserves the right to amend these claim charts, as well as other information contained in this document and the exhibits attached hereto, pursuant to Patent Local Rules 3-1(g) and 3-6.

### D. LITERAL INFRINGEMENT AND DOCTRINE OF EQUIVALENTS

AGIS asserts that, under the proper construction of the asserted claims and their claim terms, the limitations of the asserted claims of the patents-in-suit are literally present in the HTC Accused Products as set forth in the claim charts attached hereto as Exhibits A–D. AGIS contends that any and all elements found not to be literally infringed are infringed under the doctrine of equivalents because the differences between the claimed inventions and the accused instrumentalities, if any, are insubstantial.

AGIS contends that HTC directly infringes the asserted claims by making, using, offering for sale, selling, and importing in to the United States the accused instrumentalities as well as indirectly infringe by contributing to and/or inducing others (e.g., HTC customers or its HTC customers' customers) to directly infringe those claims by making, using, offering for sale or selling the HTC Accused Products. AGIS contends that HTC directly infringes the asserted claims by testing the HTC Accused Products in the United States. AGIS contends that HTC

PLAINTIFF'S DISCLOSURE OF ASSERTED CLAIMS AND INFRINGEMENT CONTENTIONS

infringes the asserted claims by contributing to and/or inducing Mobile Network Operators (MNOs) and/or jointly-and-directly infringing the asserted claims with MNOs by making, using, offering for sale, selling, and importing in to the United States the accused instrumentalities.

Pursuant to Patent Local Rule 3-6(a)(1), AGIS reserves the right to amend its Infringement Contentions as to literal infringement or infringement under the doctrine of equivalents, e.g., in light of the Court's claim construction.

### E. PRIORITY DATES

Under P.R. 3-1(e), each of the asserted claims of the patents-in-suit are entitled to a priority date of at least as early as September 21, 2004. AGIS reserves the right to establish an earlier date of invention based upon actions related to conception and reduction to practice of the claimed inventions.

### F. AGIS'S OWN PRODUCTS

At the present time, AGIS does not intend to rely on the assertion that its own apparatuses, products, devices, processes, methods, acts, or other instrumentalities practice the claimed inventions. AGIS reserves the right to amend this statement to identify covered products as discovery progresses.

### II. PRODUCTION OF DOCUMENTS PURSUANT TO PATENT LOCAL RULE 3-2

AGIS is producing or making available for inspection documents that are in AGIS'S possession, custody or control as set forth in Patent Local Rule 3-2. An AGIS 3-2 Production Index identifying these documents is attached hereto.

This preliminary identification of documents is for convenience and is not an admission that each document falls within any exemplary categories in the Patent Local Rules, or that any

# DOCKET

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

# **Real-Time Litigation Alerts**

Keep your litigation team up-to-date with **real-time** alerts and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

### **Advanced Docket Research**

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## **Analytics At Your Fingertips**

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

### API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

#### **LAW FIRMS**

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

#### **FINANCIAL INSTITUTIONS**

Litigation and bankruptcy checks for companies and debtors.

### **E-DISCOVERY AND LEGAL VENDORS**

Sync your system to PACER to automate legal marketing.
