Exhibit A for US Patent No. 8,213,970 Against LG Accused Products

Accused Products comprise LG products, including but not limited to the phones and tablets described herein, networks and/or services related to the execution and/or use of the Android mobile operating system versions and applications and/or software described herein.

AGIS does not concede that any claims of the '970 Patent that are not listed below are not infringed by the Accused Products. Moreover, the citations to certain documents and other information below are intended to be exemplary only and are not intended to bind AGIS from citing or relying on additional documents, information, source code, and/or testimony at a later time. The information below are preliminary in nature, and an analysis of LG's products, internal documentation, source code, and/or testimony and the testimony of witnesses may more fully and accurately describe the infringing features of its accused products. Accordingly, AGIS reserves the right to supplement, correct, modify, and/or amend these contentions once such additional information is made available. Furthermore, AGIS reserves the right to supplement, correct, modify, and/or amend these contentions as discovery progresses; in view of the Court's claim construction order(s); in view of any positions taken by LG, including but not limited to its positions on claim construction, invalidity, and/or non-infringement; and in connection with the preparation and filing of reports.
