Exhibit C for U.S. Patent No. 9,445,251 Against LG Accused Produ

US9445251B2	LG
comprising:	The Accused Products meet the claim limitations by providing device-location tracking features described below. For example, the Accused Products meet the claim limitation pre-installed with Android mobile operating systems containing code for providing des features as provided in the claims limitations herein. For example, the Accused Products and/or software that run within the Android mobile operating system and that use com mobile operating system to provide device-location tracking features. Upon informate addition to the components and features of the Android mobile operating system itself applications and/or software run within the Android mobile operating system and use Android mobile operating system to provide device-location tracking features: Android Find My Device, Google Latitude, Google Plus, Google Hangouts (including Allo and Google Chrome, Google Messages, and Android Messenger.
	Find My Device (also known as "Android Device Manager") Android Device Manager is the predecessor to Find My Device and has been available installed feature since 2013 and downloadable as a software application. The current Device, often called the "new and improved Android Device Manager" or "rebranded Manager" is now part of the standard Google Play Protect suite, which is "built in and devices," <i>i.e.</i> , the Accused Products running Android OS. Upon information and beli method also uses and/or works in conjunction with functionalities associated with Go Messages, Android Messenger, Google Chrome, Location Access, and other features, installed on the Accused Products. For the purposes of avoiding needlessly presenting duplicative evidence, AGIS sets forth the Find My Device feature of the Accused Pro of this first exemplary method. AGIS reserves the right to supplement these contention defendant requires additional information in accordance with P.R. 3-1 and for any oth where Find My Device may not be pre-installed as a stand-alone "app," the functional the Google Chrome browser, which is preinstalled on all Android devices.
