## Google Find My Device

Google LLC Tools

★★★★★ 568,427

Everyone

This app is compatible with your device

Installed

you easily locate your Android device

Play a sound

Lock, erase or show a message

Locate your tablet or

Find My Device helps you locate your lost Android and lock it until you get it back.

### Features

- See your phone, tablet or watch** on a map. If current location isn't available, you'll see the last known location.
- Use indoor maps** to help you to find your device in airports, malls, or other large buildings.
- Navigate to your device with Google Maps** by tapping the device location and then the Maps icon.
- Play a sound** at full volume, even if your device is on silent.
- Erase the device or lock it** with a custom message and contact number on lock screen.
- See network and battery status**
- See hardware details**

### Permissions Notice

- Location: Needed to show your device's current location on the map
- Contacts: Needed to access the email address associated with your Google account

Find My Device is part of Google Play Protect

I lost my new Samsung Note8 in the mall before. Losing the memories forever make me angst. My colleague recommended this apps & today it prove itself to be VERY USEFUL. Long story short, my kid misplace another phone at the mall. Using this apps manage to help me find my phone. Just a word of cautio...

PS: I have a S+. You need to have a a screen lock (PIN, Pattern, etc) before installing this app. Your phone security will lock your phone instead of Google Find My Phone Earlier Post— This app would lock my phone when the screen display was activated. I was given seconds entering my code. After I...

For me it did exactly what was advertised. If it doesn't have a feature that doesn't mean it should be a 3 or 4 star. Come on people wake up!! These should be objective based reviews. Like the guy who turned on location services and it still could not detect. That is an objective review. If you want...
