Subject: ZTE Corp. China (AGIS)

Hi Enrique,

Our agent in Beijing reports the following, in pertinent part:

Yes, I visit the Ministry of Justice on 19 Feb 2018 to learn status of service on ZTE Corporation. Main Clerk advice me that document receive on 24 August 2017 and send to local court in Guangdong on 4 December 2017. She expect it take 5 or 6 months. You are correct that Ministry still delay cases from outside to stop money from leaving China. No more to do but wait.

He has confirmed that the delaying practice still exists as China attempts to prevent assets of corporations from leaving the country. They will eventually complete the service and send the Certificate (proof of service) to Samuel Baxter (Applicant) in Texas. They do not notify us or you.

Thank you.

Nelson
