Driving in different cities

Drivers can only have one approved driving region on their profile at a time. However, it's possible to temporarily drive in different regions.

If you want to drive outside of your approved region temporarily, please review [State & City Driver Info](#) for region-specific requirements.

When you're ready to make a **permanent** region switch, tap 'Contact Support' below to send us the following:

- Your name, phone number, and email address
- The city you currently drive in
- The city you'd like to switch to
- Your new residential address

You won't be able to drive in your previous city after you switch.
