INAP – Dallas Data Center (DAL006)

INAP's Dallas data center (DAL006) is located at 1221 Coit Road, Plano, TX 75075. The data center is located in the heart of Silicon Prairie adjacent to many Fortune 500 companies with convenient access to highways, airports, and hotels. The data center built in 2011 has seismic zone 1B rating, and is outside the floodplain. The building is structural steel and reinforced concrete construction. The facility provides amenities like fully equipped office space, conference room, technical workspace and adjacent breakdown rooms, and full service lounge.

The data center offers a number of colocation options, including cabinets in half and full sizes, and custom private caged space. INAP uses Chatsworth Products' 4-Post QuadraRack ServerFrame which provides a highly secure storage environment. The data center provides 55,000 square feet of colocation space, and 15 feet of clear ceiling height. 36 inches antistatic raised floor provides the efficient cooling and easy management of cabling system. The facility is regularly audited in accordance with SSAE 16 Type II requirements. The data center provides the state of the art security measures, including 24x7x365 security guards onsite, CCTV monitoring with archiving of data for 90 days, and intrusion detection system. The entrance to the data center floor is authenticated through the use of card key and biometric scan. The facility uses both wet pipe, and multi zone pre action dry pipe fire suppression system for the life safety. The facility has VESDA control, subfloor smoke detection facility, and is remotely monitored.

Dallas (DAL006) data center is a reliable and fault tolerant N+1 power infrastructure with concurrently maintainable power system. The facility is efficient energy design with LEED Gold certification, and provides efficient working environment by consuming fewer fossil fuels, reducing greenhouse emissions, minimizing the impact on land. The 2 x 3 MW utility power circuits to the data center is delivered through redundant power feeds by Reliant utility. The entire critical infrastructure is protected by 2 x 1.2 MW APC UPS system in N+1 redundancy on power failure. The secondary power is provided by 3 x 2 MW Detroit diesel generators onsite. The DC battery bank provides 20 minutes of backup time on full load, and power density of 18 kW per rack. The cooling and humidity in the data center is maintained by 2 x 350 tons chillers in N+1 configuration. The hot aisle, cold aisle separation and passive cooling solutions maximize cooling efficiencies.

1221 Coit Road is a carrier neutral facility with robust carrier neutral meet-me-room, including alternative transit and local access options. The data center offers 100% network uptime SLA. INAP's multi-homed route optimized Performance IP provides links up to 10GB through multiple top tier carriers. 24x7x365 NOC staff provides the helpdesk and support services, and remote hands services.

INAP Network Services Corporation provides Information Technology (IT) infrastructure services. The company operates in data center services segment and IP services segment. The company's data center services segment includes colocation, hosting, and cloud services. INAP offers two types of hosting solutions, including agile hosting and custom hosting offerings. The company also offers hosting and cloud services, which include provision and maintenance of hardware, operating system software, management and monitoring software, and data center infrastructure and interconnection. This segment provides its services through 49 data centers in North America, Europe, and the Asia-Pacific region with data center footprint spans upwards of 1,000,000 gross square feet.

(HTTPS://CLOUDANDCOLOCATION.COM/)

The company's IP services segment includes its patented performance IP service, content delivery network (CDN) services, and IP routing hardware and software products through 84 IP service points, which include 25 CDN POPs. INAP CDN services enables its customers to quickly and securely stream and distribute rich media and content, such as video, audio software and applications, to audiences across the globe through strategically located POPs. The company serves the software and Internet, media and entertainment, business services, hosting, healthcare, information technology infrastructure, and telecommunications industries. INAP is publicly trading company in NASDAQ under the symbol INAP, and has been recognized by Forbes as one of America's most trustworthy companies. The company was founded in 1996 and is based in Atlanta, GA.

DOCKET ALARM

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming inter-face) to developers that want to integrate case filings into their apps.

LAW FIRMS
Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS
Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS
Sync your system to PACER to automate legal marketing.

fastcase®
Smarter legal research.
