## The military smartphone tested and proven by operators

Based on the proven success of the Galaxy S9 Tactical Edition for operators in the field, the Galaxy S20 Tactical Edition is a massive leap forward in tactical mobility. Tested and fielded in special operations, it connects seamlessly with tactical radios and mission systems to increase situational awareness for a common operational picture. The Galaxy S20 Tactical Edition is the only end user device you'll need for mission planning, training, operations and daily use.

recording of the live-streamed event to learn all about the military smartphone built for and proven by operators in special operations.

# For hyper-enabled operators, cognitive dominance is built on mobility

To make informed decisions and achieve their objective, tactical teams and special operators require the ability to quickly and securely process and share mission data across complex terrain, expansive distances between troops and with Command. To address these unique issues, Samsung created the Galaxy S20 Tactical Edition —a mission-ready solution tailored to the specific needs of tactical teams.

### Common operational picture

Drivers support tactical radios, drone feeds, laser range finders, external GPS and more for a complete view of the mission.

### Flexible to fit your tactical kit

Ruggedized case solutions, connectors and hubs accommodate a wide range of tactical kit configurations for multi-mission capabilities.

### Next-gen network capable

The Galaxy S20 Tactical Edition supports multiple carrier networks and the use of private SIMs 5G, WiFi 6 and CBRS.

## POWERFUL EUD

### Cognitive dominance

Capable of running mission applications in the field and enterprise applications everywhere else, the powerful and efficient 64-bit Octa-core processor delivers tactical computing power wherever the mission takes you.

## SAMSUNG DEX

### Plan, train and operate, no laptop required

With Samsung DeX, connect your Galaxy S20 Tactical Edition to a monitor, keyboard and mouse<sup>1</sup> for a desktop-like experience ideally suited for mission planning, training and everyday use.

## INTELLIGENT BATTERY

### Conserve energy to extend your mission

The Galaxy S20 Tactical Edition battery isn't just powerful, it's intelligent. It optimizes your app usage in the field giving you extended power to complete the mission.

## ATAK at the push of a button

Remapped side key button provides one-touch launch/hide of mission applications including ATAK, APASS and BATDOK.

## Leave the gloves on

Auto-touch sensitivity automatically adjusts S20 TE operation for gloved hands.

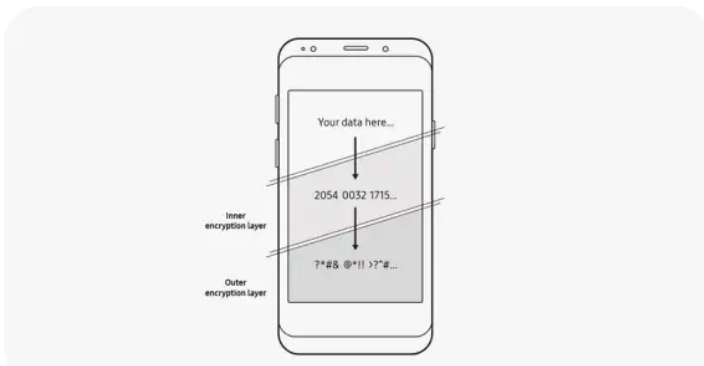

## Meets the highest standards

This military smartphone is enabled for use in classified communications. The Galaxy S20 Tactical Edition has certifications including NSA's CSfC Component's List, NIAP Common Criteria/MDFPP, DODIN APL, FIPS 140-2, DISA Android STIG and an IP68 rating.

## Secure and proven

The Galaxy S20 Tactical Edition is a secure, scalable and operationally ready COTS solution tested and fielded by special forces in tactical operations.

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
