# EXHIBIT 1

DOCKET ALARM
Find authenticated court documents without watermarks at docketalarm.com.

Here it finally is. The camera page. To the left and above you will find the navigation menu. For your convenience I have assorted the cameras alphabetically and chronologically. I am **not** going to include cameras that served a special purpose, for instance, microscope cameras, industrial cameras, machine vision cameras, modular scientific cameras, scanners, digitizers and such. This would not only be impossible to cover but also blow this site out of proportions! Exceptions will be shown however.

The label ***first mentioned*** refers to the year in which the camera was either announced or unveiled to the public. Why not the year it was manufactured? Easy. It takes time to design, develop, budget, manufacture and field test a digital camera. From a flip chart drawing to a finished product it's a long haul. These stages of development took months, sometimes years.

So, a digital camera announced in **1997** could for instance have been built in **1996**. Who can tell? I can't. Neither can you, nor anyone else not involved in the R&D process. When I absolutely cannot determine the year in which the camera was built, I use either the year in which the camera was announced by a press release or, if not available, the year in which the camera was unveiled to the public. This is the only way to properly label a camera with a certain year.

***(Please note that this specific site is work in progress and cameras will be added over time!)***

DOCKET ALARM

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

**LAW FIRMS**
Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

**FINANCIAL INSTITUTIONS**
Litigation and bankruptcy checks for companies and debtors.

**E-DISCOVERY AND LEGAL VENDORS**
Sync your system to PACER to automate legal marketing.
