<p>1 think we agree about that.</p> <p>2 MR. BEABER: All right. And this is</p> <p>3 Jamie again. I think the market surveys, I</p> <p>4 think that issue is resolved. Assuming</p> <p>5 Apple agrees?</p> <p>6 MR. PENSABENE: Yes.</p> <p>7 MR. BEABER: And then the litigation</p> <p>8 documents, I think those are still</p> <p>9 outstanding and we need a court order on</p> <p>10 those?</p> <p>11 MR. PENSABENE: Correct.</p> <p>12 MR. BEABER: Okay. That is</p> <p>13 everything from my list. So if there is</p> <p>14 nothing further, I think there are</p> <p>15 some to-do items on both parties' side, and</p> <p>16 if there is no other issues, we will start</p> <p>17 to put together a joint report and</p> <p>18 obviously share it with you all to get</p> <p>19 feedback, comments and all that good stuff.</p> <p>20 MR. PENSABENE: Just to be clear, on</p> <p>21 this joint report, as Tiffany was saying,</p> <p>22 are we envisioning this as being just a</p> <p>23 plain vanilla bullet point list, or are we</p> <p>24 going to -- of our positions, or are we</p> <p>25 going to be having some argument?</p>	<p>1 MR. BEABER: I mean, what I had</p> <p>2 talked to Luann about and I think what</p> <p>3 makes sense is really just a bullet point</p> <p>4 X issue has been resolved, Y issues are</p> <p>5 still remaining, by each category. I</p> <p>6 think -- I don't know that the court would</p> <p>7 appreciate additional argument or</p> <p>8 positions. It seems like that should have</p> <p>9 been done and was done in the briefing.</p> <p>10 You can tell me if you guys have a</p> <p>11 different view, but that, I think, was the</p> <p>12 course that we were proposing.</p> <p>13 MR. PENSABENE: Yeah, I think we</p> <p>14 would be fine with that. I think it's just</p> <p>15 going to be subject to people potentially</p> <p>16 having different ideas of what is a</p> <p>17 statement as opposed to argument, but I</p> <p>18 think the goal we have in mind is the same.</p> <p>19 MR. BEABER: Yes, I think our idea</p> <p>20 was just the categories, there are</p> <p>21 sub-issues under each of these, and just</p> <p>22 identifying which are open, which are not.</p> <p>23 MR. PENSABENE: Okay, yes. That</p> <p>24 makes sense.</p> <p>25 MR. BEABER: Okay. So that's what</p>
