Intel in Texas

INTEL IN TEXAS

Intel's site in Austin, Texas, is home to a research and development center, and was the birthplace of the Intel Atom® processor.

Innovating in Texas

Located in the capitol city of Texas, Intel's Austin facility is a research and development center for 1700 employees who innovate at the boundaries of technology to make amazing experiences possible for business and society, and for every person on Earth.

Among the innovations developed in Austin is the Intel® Atom™ processor, which delivers advanced technology and processing capabilities onto an ultra-thin and lightweight design.

On-Site Amenities

SOCIAL IMPACT

From investing in education and promoting broad economic development initiatives, to working hand-in-hand with neighbors, Intel has long been committed to applying technology and the talents of our employees to broaden access to opportunity and be an asset to our community. Over the last five years, our employees in Texas have generously donated 7,500 hours of service, and Intel and the Intel Foundation gave more than \$11 million in grants, donations, and in-kind gifts to local Texas schools, universities, and non-profits.
