## TABLE OF CONTENTS

I.	Introduction.....	1
	A. The flawed Petition filed by Farmwald and RPX does not establish the invalidity of any claim of the '371 patent. The Board should, therefore, deny all the grounds of challenge and not institute <i>inter partes</i> review of the '371 patent.....	2
	B. <i>Inter partes</i> review should not be instituted because the Petition is fatally flawed.....	4
	1. The Petition fails to make out a <i>prima facie</i> case of anticipation and contains irreparable and substantial evidentiary gaps.....	4
	2. The Petition's challenges depend on flawed claim constructions.....	6
	3. The Petition never advances an inherency argument and, thus, the inherency doctrine cannot save its flawed challenges.....	8
	4. If trial is instituted, it should be limited to non-cumulative grounds.....	10
II.	The Petition raises real party-in-interest and privity issues .....	10
III.	The '371 Patent.....	12
	A. Story of the invention of the '371 Patent .....	12
	1. ParkerVision and Its History.....	12
	2. ParkerVision's Invention of Energy Sampling.....	14
	B. Story of the district court litigation of the '371 patent.....	16
	C. Claim Construction .....	17
	1. "pulses" and "pulse generator" .....	18
	2. "energy is ... integrated ... during said apertures" .....	20

3. “storage module” .....21

4. “generated from the transferred energy” .....26

IV. The Board Should Deny the Petition in Its Entirety Because Petitioner Did Not Provide Sufficient Evidence to establish a *prima face* case that the References Anticipate Claims 2, 22, 23, and 25.....31

A. Petitioner Did Not establish a *prima face* case that Estabrook Anticipates Claims 2, 22, 23, and 25 .....31

1. Petitioner Failed to Establish that Estabrook Teaches All the Elements of Claim 2.....31

2. Petitioner Failed to Establish that Estabrook Teaches the “Storage Module” of Claim 22 .....37

B. Petitioner Did Not establish a *prima face* case that Avitable Anticipates Claims 2, 22 and 25.....39

1. Petitioner failed to establish that Avitable Teaches All the Elements of the claim 2.....39

2. Petitioner Failed to Establish that Avitable Teaches the “Storage Module” of Claim 22 .....42

C. Petitioner Did Not establish a *prima face* case that Weisskopf Anticipates Claims 2, 22, 23, and 25 .....44

1. Petitioner Failed to Establish that Weisskopf Teaches All the Elements of Claim 2.....44

2. Petitioner Failed to Establish that Weisskopf Teaches the “Storage Module” of Claim 22 .....47

V. With nothing at stake for Petitioner, the Board should use its discretion to deny institution of an unnecessary and complicated trial.....49

VI. Petitioner’s Proposed Challenges Relying on Weisskopf and Estabrook Are Redundant to Those Relying on Avitable .....51

VII. Conclusion .....53
