 @ID\_AA\_Carmack Are you still working on it/mobile VR? Any recent developments that make it worth waiting for the next mobile VR headset?

@Marlamin I am working on inside-out position tracking, but everyone is skeptical that it will work out, so don't hold your breath.

 @ID\_AA\_Carmack Sounds cool! Curious to see developments in mobile VR. I work in medical IT and stuff like that is very interesting to me!

 @ID\_AA\_Carmack Positional tracking especially, would be great for looking at a 3D MRI scan for example.

 @Marlamin as a work peripheral, being tethered to a DK2 wouldn't be such a bad thing, but you would miss the 2x higher resolution on GearVR.

 @ID\_AA\_Carmack Skeptical on theory or processing power? I'd be willing to have data-matrix wallpaper... but maybe my wife wouldn't.

 @ID\_AA\_Carmack Can the Note-4 drive it's focus far enough to see Bokodes?

@ID\_AA\_Carmack Re: Note 4 pos tracking, does GearVR have an external USB port? Theoretically plug in a camera + add spots and do DK2-style?

@nairebis Gear VR does not have an external USB port, much to my dismay as a developer. WiFi works, though...
