UNITED STATES INTERNATIONAL TRADE COMMISSION  
WASHINGTON D.C.

Before The Honorable Thomas B. Pender  
Administrative Law Judge

In the Matter of

CERTAIN COMPUTING OR GRAPHICS  
SYSTEMS, COMPONENTS THEREOF,  
AND VEHICLES CONTAINING SAME

Investigation No. 337-TA-984

APPLICATION FOR ISSUANCE OF SUBPOENA *DUCES TECUM*  
AND SUBPOENA *AD TESTIFICANDUM* TO  
NXP SEMICONDUCTORS USA, INC.

Complainant Advanced Silicon Technologies LLC (“Advanced Silicon”), pursuant to Commission Rule 210.32 and Ground Rule 9.10 in this Investigation, hereby applies to the Administrative Law Judge for the issuance of the attached subpoena *duces tecum* and *ad testificandum* in the matter of *Certain Computing or Graphics Systems, Components Thereof, and Vehicles Containing Same*, Investigation No. 337-TA-984 (“Investigation”) to:

NXP Semiconductors USA, Inc.  
c/o Corporation Service Company  
2711 Centerville Rd Suite 400  
Wilmington, DE 19808

The subpoena *duces tecum* and *ad testificandum* requires NXP Semiconductors USA, Inc. (“NXP”) to produce documents described in Attachment A to the subpoena on May 9, 2016, or on such other date as agreed upon by Advanced Silicon and NXP, at the offices of Advanced Silicon’s counsel, Mintz, Levin, Cohn, Ferris, Glovsky and Popeo PC (“Mintz Levin”), in Boston, MA, or at such other location as agreed upon by Advanced Silicon and NXP. The subpoena further requires NXP to appear and testify at a deposition regarding the topics

identified in Attachment B to the subpoena on May 13, 2016, or on such other date as agreed upon by Advanced Silicon and NXP, at the Boston office of Mintz Levin or at such other location as agreed upon by Advanced Silicon and NXP.

The discovery Advanced Silicon seeks from NXP is relevant to Advanced Silicon's infringement allegations relating to U.S. Patent Nos. 6,339,428, 6,546,439, 6,630,935, and 8,933,945 asserted in this Investigation. In particular, NXP is a supplier of certain integrated circuits incorporated into devices manufactured and assembled by the Respondents, which have been accused of infringement. Through this subpoena, Advanced Silicon seeks NXP documents and deposition testimony regarding the structure, function, operation and implementation of NXP iMx6 integrated circuits. Advanced Silicon has tailored the discovery requests narrowly to minimize the burden upon NXP to comply with the subpoena, and will meet and confer with NXP to further minimize the burden imposed on NXP by the subpoena.

If issued, Advanced Silicon will serve the application and subpoena on NXP by overnight delivery. Further, pursuant to Ground Rule 9.10 in this Investigation, all other parties to this Investigation will receive them on the next business day, at the latest, after the subpoena has issued. For the reasons set forth above, Advanced Silicon respectfully requests that its application for issuance of a subpoena *duces tecum* and *ad testificandum* be granted and the attached subpoena to NXP be issued.

Dated: April 21, 2016

Respectfully submitted,

/s/ Michael T. Renaud

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
