for patent infringement of United States Patent Nos. 6,049,706; 6,266,518; 7,292,835; and

8,660,513 (the "patents-in-suit") and alleges as follows:

NATURE OF THE ACTION

1. This is an action for patent infringement arising under the patent laws of the United States, 35 U.S.C. §§ 1 *et seq*.

incorporated on October 21, 1987, and debuted on the Taiwan Stock Exchange in October 1998.

It is headquartered in Taiwan and it has sales or R&D teams in China, Singapore, the United

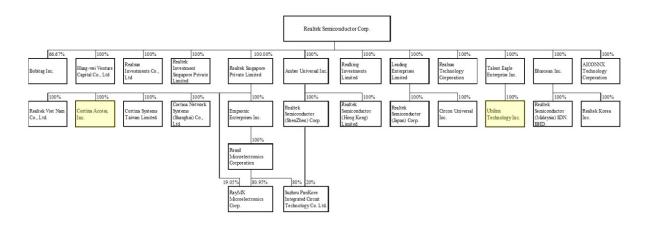

States, Japan, and South Korea." <u>https://www.realtek.com/images/ar/-2021_20220518.pdf</u> at

6. In Realtek's 2021 Annual Report, Realtek lists wholly owned affiliates that are

registered in the United States.

7. On information and belief, Realtek has designed, manufactured, and sold Realtek

Wi-Fi/802.11/Bluetooth chips ("Wi-Fi chips") that are found in products sold in the United

8. On information and belief, Realtek sells Wi-Fi chips to its customers knowing

those chips will be incorporated into products imported and/or sold in the United States.

9. For example, on information and belief, Realtek provides its customers with Wi-

Fi chips for televisions to be sold in the United States.

In the consumer market, the TV market generally moves with the epidemic and market fluctuations. High-end TVs maintain high-spec Wi-Fi, but require cost support. Customers with low-end specifications are faced with low gross profit that cannot cover the cost of sales, and are forced to adjust the specifications to Wi-Fi 4 1x1 single Wi-Fi. In order to simultaneously defend against market competition and enhance customers' hitherto low-end TV specifications, Realtek guides customers to move to a 1x1 combo or 2x2 with better cost-performance specifications, and upgrade W-Fi 4 1x1+BT from single-band to dual-band. In 2021, due to the limited supply of Wi-Fi 5 in the Chinese market, the set-top box was downgraded to models without Wi-Fi. However, the Chinese operator market is expected to start introducing Wi-Fi 6 models in the third quarter of 2022. Major telecom operators have added Wi-Fi 6 models to their set-top box tenders, and are expected to gradually upgrade the specifications of existing tenders.

10. Realtek Wi-Fi chips are found in televisions sold in the United States including by

TCL, Hisense, and LG.

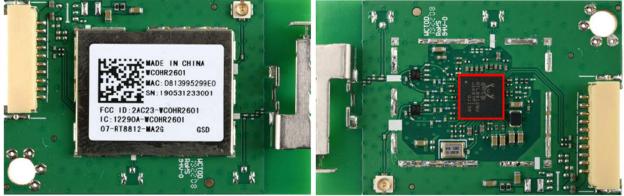

11. For example, the Realtek RTL8812BU is found in TCL television model no.

43S425.
