**Attachments:** Draft updated stipulation of uncontested facts.docx; Draft Claim Construction Chart.docx

Counsel,

Pursuant to the Court's instruction during the June 3 hearing (see, e.g., Tr. at 14:22-15:22), Plaintiffs will prepare juror notebooks including the following documents:

- A copy of U.S. Patent No. 10,104,911
- A copy of U.S. Patent No. 10,555,556
- A copy of U.S. Patent No. 9,814,265
- A copy of U.S. Patent No. 6,803,545
- A copy of U.S. Patent No. 10,420,374
- A chart summarizing the Court's claim constructions (attached)
- An updated joint stipulation of uncontroverted facts (attached)

The draft joint stipulation of uncontroverted facts is an update to the parties' previous stipulation, D.I. 655, which was filed over a year ago. We added stipulated facts that reflect discovery served after D.I. 655 was filed, including based on Reynolds' 23<sup>rd</sup> supplemental responses to Phillip Morris' First Set of Interrogatories (see PX-613) and Reynolds' 24<sup>th</sup> supplemental responses to Phillip Morris' First Set of Interrogatories (see PX-614).

Thanks,  
Paul
