

Exhibit B

Claim Construction

The Court in this case construed the following terms from the Asserted Patents and ruled that they each have their plain and ordinary meaning.

Patent	Term	Construction
'911 Patent, claim 1	“at least one cavity in a wall of the aerosol-forming chamber”	Plain and ordinary meaning
'911 Patent, claim 1	“blind hole”	Plain and ordinary meaning
'911 Patent, claim 1	“recessed in the wall of the aerosol-forming chamber”	Plain and ordinary meaning
'265 Patent, claim 1	“dimensions substantially the same as a cross-section of a cigarette or a cigar”	Plain and ordinary meaning
'265 Patent, claim 1	“contact tab”	Plain and ordinary meaning
'545 Patent, claim 1	“to prevent damage to the lithium ion power source”	Plain and ordinary meaning
'374 Patent, claim 16	“the capacitor consisting essentially of a flexible conductive membrane and a rigid conductive plate spaced apart by an insulating ring spacer between the flexible conductive membrane and the rigid conductive plate, and an air dielectric between the flexible conductive membrane and the rigid conductive plate”	Plain and ordinary meaning
