What is the HTC Sense Home widget?

Setting up the HTC Sense Home widget

Setting your home and work locations

Motion gestures

Use motion gestures to mute HTC One A9, lower the ring volume, and more.

Lift phone to auto answer a call

To automatically answer an incoming call, lift the phone and look at the screen first to see who's calling before you hold it to your ear.

You can turn this feature on or off. Go to Settings, tap **Call**, and then select or clear **Auto answer calls**.

Flip to mute

If your phone is facing up when a call comes in, turn the phone over to mute it. If you go to Settings and then tap **Sound & notification** > **Flip to mute**, you can set your phone to:

Mute once Mute only once after flipping the phone. While the phone is still facing down, it will ring again when there are other incoming calls.

Mute always After flipping the phone to mute a call, keep it always muted while it's still facing down when there are other incoming calls.

Pick up to lower volume

- Manually switching locations
- Pinning and unpinning apps
- Adding apps to the HTC Sense Home widget
- Turning smart folders on and off

Motion Launch

- What is Motion Launch?
- Turning Motion Launch gestures on or off
- Waking up to the lock screen
- Waking up and unlocking
- Waking up to the Home widget panel
- Waking up to HTC BlinkFeed
- Auto launching the camera with Motion Launch Snap

Lock screen

- Setting a screen lock
- Setting up Smart Lock
- Turning lock screen notifications on or off
- Interacting with lock screen notifications
- HTC BlinkFeed Notifications
- Changing lock screen shortcuts
- Changing the lock screen wallpaper
- Turning the lock screen off

Notifications

In a business meeting or restaurant, pick HTC One A9 up when a call comes in to lower the ring volume automatically. You can turn this feature on or off. Go to Settings, tap **Sound & notification**, and then select or clear **Quiet ring on pickup**.

Increase ring volume automatically while phone is in your pocket or bag

Pocket mode makes HTC One A9 recognize when your phone is in your bag or pocket and raise the ring volume so that you can hear it in noisy environments. You can turn this feature on or off. Go to Settings, tap **Sound & notification**, and then select or clear **Pocket mode**.

Rotate HTC One A9 for a better view

For many screens, you can automatically change the screen orientation from portrait to landscape by turning HTC One A9 sideways.

When entering text, you can turn HTC One A9 sideways to bring up a bigger keyboard.
