

- Prevents Water, Salt and Perspiration from Drying Out Leather.
- Softens, Protects & Preserves Leather.
- Proper Cleaning with Water and a Soft Brush, After Use, and Periodic Silicizing Adds Life to Your Boots.
- Will Darken Slightly, Light Leathers.

DIRECTIONS: SHAKE WELL BEFORE USING. Boots must be cleaned as above, and dry. Apply Silicone liberally to boot and seams with dauber. Allow to dry overnight at room temperature only. Then apply a second treatment.
